**A Siege**

The matrons of the Edison  
Orphanage at Lowell,  
Mass., U.S.A., wrote they  
had a siege of whooping-  
cough in their institution.  
They said that every case  
was promptly relieved by  
Vapo-Cresolene. Its value  
in coughs and colds was so great  
they always kept it ready for use.  
You know how it's used, don't you?  
It's heated by a vaporizer and you  
inhale it. Write us for a book that  
tells all about it.

Vapo-Cresolene is sold by druggists, or sent express  
freight on receipt of price. A Vapo-Cresolene set  
including a bottle of Cresolene, complete \$2.50. Send  
for free illustrated booklet. Address: MILES CO-  
LD, Agents 428 St. James Street, Montreal, Can-  
ada.

**Under a Delusion.**  
London, Jan. 31.-(C.A.P.)-Prof.  
Bryce, M.P., speaking at Lewes, said  
the protectionists were under a com-  
plete delusion about Canadian senti-  
ment. He had been recently in Cana-  
da and found scant interest there in  
Mr. Chamberlain's scheme, which  
was scarcely even mentioned at the  
November elections. Opinion was di-  
vided, but certainly Canadian manu-  
facturers feared British competition  
too much to let the tariff be lower-  
ed.

**\$100 REWARD \$100.**  
The readers of this paper will be  
pleased to learn that there is at  
least one dreaded disease that science  
has been able to cure in all its stag-  
es, and that is Catarrh. Hall's Cat-  
arrh Cure is the only positive cure  
now known to the medical fraternity.  
Catarrh being a constitutional  
disease, requires a constitutional  
treatment. Hall's Catarrh Cure is  
taken internally, acting directly upon  
the mucous surfaces of the system,  
thereby destroying the foundation of  
the disease, and giving the patient  
strength by building up the constitu-  
tion and assisting nature in doing  
its work. The proprietors have so  
much faith in its curative powers  
that they offer One Hundred Dollars  
for any case that it fails to cure.  
Send for list of testimonials.

**A New Danger.**  
"I see they are talking of making  
clothes now out of some sort of wood."  
"Gee whiz! Then I guess we'll find  
woodpeckers and squirrels in our  
clothes hereafter instead of moths."

**Mean Things.**  
Mrs. Ferguson-George, dear, how do  
you like my new hat? Mr. Ferguson-  
Do you want my real opinion of it,  
Laura? Mrs. Ferguson-No, I don't,  
you mean thing.

**HOW TO GET CONSUMPTION.**  
Ninety per cent. of the "lungers"  
contract consumption by allowing  
power of resistance to fall so low  
that a favorable condition for the  
development of the bacilli is pro-  
vided. In a healthy system con-  
sumption can't take root. But  
where there is weakness and debili-  
ty, there you find tuberculosis. For  
developing strength and building up  
the weak, nothing equals Ferrazone.  
It makes the blood nutritious and  
the nerves enduring. The way it  
converts food into nutriment, the ap-  
petite it gives is surprising. Just  
what the man verging on consump-  
tion needs.-that's Ferrazone. If  
tired and weak don't put off. Fifty  
cents buys a box of fifty tablets-at  
all dealers.

**A Town For Men Only.**  
On the borders between China and  
Russia, in Asia, almost due south of  
Lake Baikal, is a good sized town  
known as Maimatshin, which is ex-  
clusively inhabited by men. The place  
has considerable trade and is also a  
military post. An old law forbids wo-  
men to live in this territory, and they  
cannot pass the great wall of Kalkan  
nor enter Mongolia at all.

**SIR JAMES WATSON'S OPINION.**  
He says that the commonest of all  
disorders, and one from which few  
escape is Catarrh. Sir James firmly  
believes in local treatment, which is  
best supplied by "Catarrhazone."  
No case of Catarrh can exist where  
Catarrhazone is used; it is a mir-  
acle worker, relieves almost instan-  
taneously and cures after other remedies  
fail. Other treatments can't reach  
the diseased parts like Catarrhazone  
because it goes to the source of the  
trouble along with the air you  
breathe. Catarrhazone is free from  
cocaine, it leaves no bad after-  
effects, it is simply nature's own  
cure. Accept no substitute for Cat-  
arrhazone which alone can cure Cat-  
arrh.

We determine destiny by our an-  
swer to the call of duty.

**MESSRS. C. C. RICHARDS & CO.**  
Gentlemen,-Last winter I received  
great benefit from the use of MIN-  
ARD'S LINIMENT in a severe attack  
of La Grippe, and I have frequently  
proved it to be very effective in  
cases of inflammation.

**HIS BILL SHUNTED.**

**Pittsburgh Takes First Step to Have Lan-  
caster's Measure to Safeguard Public  
Pat Out of Business.**  
Ottawa, Jan. 31.-Many seats that  
were vacant during the Ontario elec-  
tion campaign were occupied yester-  
day. The House is beginning to look  
something like a House, and busi-  
ness for the first time this session is  
being taken up seriously.  
Hugh Guthrie introduced his bill  
to amend the Dominion Elections  
Act. The bill provides against the  
canvassing or soliciting of workmen  
by their employers. The bill applies  
to mercantile men, professional men,  
manufacturers and corporations of  
all kinds.  
"What about the farmer and the  
hired man?" asked W. F. Maclean.  
"It includes them," answered Mr.  
Guthrie.  
"And what about the civil ser-  
vice?" asked Andrew Broder.  
Mr. Guthrie replied that he had  
not considered this feature of the  
case.  
**British Imports.**  
Dr. Daniels of St. John was in-  
formed by the Minister of Customs  
that there was imported from the  
United Kingdom into Canada, direct,  
via Canadian ports in 1903-4, goods  
to the value of \$46,271,984, and in  
1904-5, goods valued at \$49,275,-  
031; goods imported from the United  
States points amounted in 1903-4,  
to \$12,786,772, and in 1904-5 to  
\$12,685,878.

Ralph Smith moved a resolution  
declaring "that it is expedient to  
provide for the registration of labor  
union labels and to provide pecuni-  
ary penalties for the unlawful use of  
such labels when so registered." At  
previous sessions Mr. Smith has en-  
deavored to put through legislation  
of this kind, but the Government al-  
ways succeeded in side-tracking it.  
Sir William Laurier suggested that  
the question could not be satisfac-  
torily discussed until the bill was  
printed. The resolution was passed  
and a bill based on the resolution  
was read a first time.

**Is Jam Near Morrisburg.**  
Andrew Broder told the House of  
an ice jam on the St. Lawrence River,  
near Morrisburg. The jam is now  
seven miles long, and the water has  
risen six feet. Mr. Broder said seri-  
ous damage would result, if action  
was not taken to break the jam.

Mr. Lancaster of Lincoln, moved  
the second reading of his bill to  
amend the Railway Act. This also is  
a warm-over from last session. The  
bill provides that wherever in a  
thickly settled district of a city, a  
town, or a village, a railway crosses  
a highway at rail-level, trains shall  
not run at a rate exceeding ten miles  
an hour, unless the company provides  
a watchman or gates at such cross-  
ings. Mr. Lancaster was severe in  
his references to the railways, which  
he said, did not care how many peo-  
ple they killed so long as earnings  
were not interfered with.

Hon. Mr. Emmerson did not favor  
the bill, the present law was satisfac-  
tory, he said. The question of the  
speed of trains at level crossings was  
in the hands of the Railway Com-  
mission, which could determine each  
case on its own merits. The law  
imposed on the Railway Commission  
the duty of regulating the speed of  
trains at level crossings.  
After speeches by Major Fowler,  
W. F. Maclean, Demers, A. H.  
Clarke, W. M. German, Haggart,  
Blain and Perley, Hon. Chas. A.  
Pittpatrick moved that the bill be re-  
ferred to the Railway Committee.  
The House divided, Mr. Pittpatrick's  
motion to refer the bill to the  
Railway Committee. The motion  
carried on a vote of 85 to 45. Messrs.  
Haggart, Barker, Alcorn and Lefur-  
veng voted with the Government.

Leighton McCarthy moved the  
second reading of his bill to amend the  
Steamboat Inspection Act of 1896.  
The bill deals with permits granted  
to marine engineers who have not  
passed their examinations.  
Mr. McCarthy moved also that the  
bill be referred to a special commit-  
tee, which will hear the evidence of  
the various parties interested in the  
question.

**Domain on Exhibition.**  
Ottawa, Jan. 31.-The Dominion  
Government has decided to give a  
grant of \$50,000 to the Canadian ex-  
hibition, to be held this year during  
the coming summer at New West-  
minster, B.C.

**Dr. Barnardo Speaks.**  
London, Jan. 31.-(C.A.P.)-At the  
Lord Mayor's meeting re child  
migration, at which many spoke, Dr.  
Barnardo believed in emigration to  
Canada was inadvisable for children  
under 15. He had tried an experiment  
and found the death rate 200 in 1900. He thought  
farms under Mrs. Close's scheme  
would soon be known as workhouse  
farms all over the country. He put  
an amendment to the original resolu-  
tion that the Local Government  
Board be requested to reconsider  
Mrs. Close's scheme. To effect the  
scheme would be very costly, if not  
impracticable. The resolution was  
declared carried by a large majority,  
though doubts were expressed  
whether a count of hands would have  
justified this.

**Accuse Wife of Neglect.**  
Toronto, Jan. 31.-That John  
Honeywell came to his death on  
Saturday, Jan. 21, from pneumonia,  
accelerated by the neglect of his wife  
and family. Such is the verdict  
which Coroner Pickering's jury re-  
turned late last night at the morgue.  
The evidence of neighbors and medi-  
cal men showed neglect on the part  
of the Honeywell family, which oc-  
cupied a double stall in a barn in  
rear of 179 Jarvis street for about  
three months prior to Honeywell's  
death.

**Sends a Sample.**  
London, Jan. 31.-(C.A.P.)-The  
Standard believes in emigration to  
Canada, and is sending to Canada  
a man seeking employment in a  
new home for the means of liveli-  
hood. He will write his experiences.

**Not Very Crazy.**  
A nobleman against whom insanity  
was imputed by his relatives was asked  
during examination by Lord Lough-  
borough, "How many legs has a  
sheep?"  
"Does your lordship mean a live or a  
dead sheep?" asked the nobleman.  
"Is it not the same thing?" said the  
chancellor.  
"No, my lord, there is much differ-  
ence. A live sheep has four legs, a  
dead sheep but two. The others are  
shoulders."

**A BILIOUS HEADACHE.**  
Is one of the meanest things in the  
world. To prevent biliousness use  
Dr. Hamilton's Pills, which keep the  
system clean and pure, regulate the  
bowels, give tone to kidneys and liver.  
You'll never have a headache,  
you'll never have a sour stomach,  
but you will have vigorous, bracing  
health by taking Dr. Hamilton's  
Pills, 25c. per box or five boxes for  
one dollar.

**Her Rest.**  
"So Mrs. Gaddery took the rest  
day?"  
"Yes."  
"Did it cure her?"  
"No, it didn't do her a bit of good.  
She's just as anxious to rest as she al-  
ways was."

**HAVE YOU HEARTBURN?**  
It's quite common with people  
whose digestion is poor. Immediate  
relief follows the use of Nerviline.  
Stomach is strengthened, digestion is  
made perfect, lasting cure results in  
every case. Use Poison's Nerviline  
once and you'll never be without it  
because every type of stomach dis-  
order is conquered by a few doses.  
One 25c. bottle of Nerviline always  
convinces. Sold everywhere for the  
past fifty years.

It is not always evidence of cow-  
ardice when a man runs away from  
a conflict.  
The mother who would be horrified  
at the thought of letting her daugh-  
ter wander away to a strange coun-  
try without guide or counsel, yet  
permitted her to enter that unknown  
land of womanhood without counsel  
or caution. Then, in utter igno-  
rance, the maiden must meet phys-  
ical problems whose solution will af-  
fect her whole future life. Dr.  
Pierce's Favorite Prescription has  
been well named a "God-send to wo-  
men." It corrects irregularities and  
imparts such vigorous vitality to the  
delicate womanly organs, as fits  
them for their important functions.  
Many a nervous, hysterical, peevish  
girl has been changed to a happy  
young woman after the use of "Fa-

**A Father's Remorse.**  
"As severe a rebuke as I know of,"  
said a judge, "was one that a New  
York millionaire administered to his  
son. The son, like many millionaires'  
sons, is a hard drinker. He does no  
work. Most of the day he lounges at  
one or other of his clubs, taking a  
brandy and soda every hour or so, and  
in the evening, after a good deal of  
wine with his dinner, he drinks steadily  
until bedtime. Nevertheless he is  
a young and handsome chap, and he  
goes out during the season a great deal.  
One day he received an invitation to  
a bal masque, and that evening he dis-  
cussed with his family the various dis-  
guises that he might reasonably wear.  
After a good deal of talk he was still  
undecided, and, turning to his father  
he said, 'How would you advise me to  
go to this masque, sir?' 'Go sober,'  
the father answered bitterly."

**WHEN FORKS WERE NEW.**

**How Their Use Impressed a Lady the  
First Time She Saw Them.**  
A lady who saw forks used for the  
first time at a dinner of Henry III. of  
France records her "impressions" of  
the occasion. Henry had in 1274 been  
tendered a magnificent reception in  
Venice. At this entertainment forks  
were used. The royal guest observed  
them with much interest and immedi-  
ately introduced them to the French  
court.

It seems from the account of the la-  
dy, who had never used them before,  
that some others were in the same pre-  
dicament. She writes:  
"They never touched the meat with  
their fingers, but with forks, which  
they carried to their mouths, bending  
their necks and bodies over their plates."  
There were several salads. These  
they ate with forks, for it is not con-  
sidered proper to touch the food with  
the fingers. However difficult it may  
be to manage it, it is thought better to  
put the little forked instrument in the  
mouth than the fingers.  
"The artichokes, asparagus, peas and  
beans were brought. It was a pleasure  
to watch them try to eat these with  
their forks, for some, who were less  
adroit than the others, dropped as  
many on their plates and on the way  
to the mouth as they were able to get  
to their mouths."

"Afterward a great silver basin and  
pitcher of water were brought, and  
the guests washed their hands, though  
it seems as if there would not be much  
scent of meat and grease on them, for  
they had touched their food only with  
those forked instruments."

**THE MISSISSIPPI.**

**Immense Volume and Varying Moods  
of Its Yellow Flood.**  
The Mississippi river has an irre-  
sistible attraction for a person of im-  
aginative mind, but perhaps its most  
impressive characteristic is the majes-  
ty with which its turbid, yellow tide  
sweeps along between the shores, im-  
pressive by its sullen murmur and in-  
spiring awe by its immense volume,  
said a traveler.  
"The river is sublime no matter when  
or where you view it, and one has only  
to catch a glimpse of the yellow flood,  
velled by rain or glistening in the sun-  
shine, to black beneath its spell. At  
times the river moves so smoothly and  
peacefully that you are almost lulled to  
sleep by the gentle purring of the wa-  
ter, that constant eddying and washing  
sound that is distinctive of the Missis-  
sippi. Then, again, the water will swirl  
angrily around a hidden snag or rush-  
ing with impetuosity against the yield-  
ing bluffs it will eat into the earth,  
and tons of dirt will rumble down only  
to be absorbed and swept away. Per-  
haps for a moment the water will as-  
sume a chocolate color, but the influx  
of yellow tide from above will soon dis-  
sipate every trace of what was once an  
acre of cotton field. Sometimes there  
are trees growing along the shore that  
are engulfed. These fall with a crash  
into the flood, spin about for a moment  
and then drift slowly down with the  
current, their half drowned boughs ris-  
ing at intervals from the water."-Bir-  
mingham Age-Herald.

**Could Not Be Settled Out of Court.**  
A good story is told concerning a  
certain magistrate, who always en-  
deavors to smooth over any little dif-  
ferences which may be brought before  
him.

On the occasion in question the war-  
rant was one for technical assault, and  
it came out in the course of evidence  
that the parties were neighbors and  
had been on the best of terms for some  
years.  
"It is a great pity," said the judge,  
"that old friends like you seem to have  
been should appear before me in such  
a way. Surely this is a case which  
might be settled out of court."  
"It can't be done," answered the  
plaintiff moodily. "I thought of that  
myself, but the cur won't fight."

**A Cradle of Tortoise Shell.**  
A curious relic of some historic in-  
terest is to be seen at Pau, in the Bas-  
ses Pyrenees. Visitors are shown the bed-  
room of Jean d'Abref, wife of Anthony  
of Bourbon, king of Navarre. Here is  
the year 1553 her infant son was born,  
who was in after years King Henry  
IV. of Navarre, and by the side of an  
antique bedstead of richly carved wa-  
nut stands a most curious cradle of  
tortoise shell about two feet long and  
eighteen inches broad, in which the in-  
fant prince is said to have been laid at  
his birth.

**Lawyers and the Law.**  
I expect it'd be only a poor lawyer  
couldn't argue a tack into a cow-"  
out of her again, too, fr that matter-"  
"Mr. Weslin ain't no poor lawyer.  
He's fine 's they make. Of course a  
good deal of the time no one knows  
what he means, but that ain't nothin'  
ag'in him, fr I think with a lawyer  
you generally don't. It's a part of their  
business not to let no one know what  
they mean, fr 't law was simple no  
one'd ever get fooled.  
It takes another lawyer to see what  
a lawyer is doin', anyhow. When a  
lawyer says anything is so to me I  
never take no time to disbelieve him,  
'cause he'd never got to be in the law  
a tall if he want able to prove the  
truth of his own lyin'."-Susan Clegg

**CURE WAS QUICK  
AND PERMANENT**  
Dodd's Kidney Pills Soon Drove  
Away Rheumatism and  
Droopy

Case of a Windsor Man Who Suf-  
fered Two Years Before He Dis-  
covered the Right Remedy.  
Windsor, Ont., Jan. 30.-(Special)-  
How quickly Rheumatism and Droopy  
can be cured when the right medicine  
is used is shown in the case of Mr.  
John McDonald, a retired farmer  
living at 130 Langlois Avenue here.  
Mr. McDonald says:  
"For two years I was troubled  
with Rheumatism and Droopy. My  
legs were terribly swollen, and  
though I tried many medicines no-  
thing gave me any relief till I tried  
Dodd's Kidney Pills. Two boxes of  
them cured me so completely that I  
have had no return of the diseases in  
years.  
Rheumatism and Droopy are caus-  
ed by the poisonous disordered kidneys  
fail to strain out of the blood. Cure  
the kidneys with Dodd's Kidney Pills  
the kidneys with Dodd's Kidney Pills  
the cause of the Rheumatism or  
Droopy. Without cause there can be  
no disease.

**IS THERE ANYTHING  
THE MATTER WITH**

**Your Eyes?**

Do you have those sick head-  
aches? If so, have your eyes  
examined at once. Eye strain  
causes headaches, by remov-  
ing the cause we effect a per-  
manent cure. Wise people  
realize that the proper fitting  
of glasses should never be  
guessed at. We have a skilled  
Optician who is competent  
to examine your eyes and sup-  
ply the needful glasses.
