MONDAY, JUNE 8. THE BLAME FOR PARTISANSHIP.

When the parties to a dispute voluntarily hand it over to arbitrators, points out the Toronto World. each choosing an arbitrator, and the two choosing a third, they are bound to accept the result. None of these conditions was fulfilled in the case upon which Chancellor Boyd and Chief Justice Falconbridge have just rendered judgment. The tribunal was forced upon Gamey and the opposition by a tyrannical exercise of the power of a party majority. Stratton and his colleagues dictated the terms on which they were to be tried, and mamed the judges.

The Ministers have now got the judgment they wanted, and we must accept that as a fact. But the Ministers also must look the situation in the face, and accept the consequences. The tribunal and the choice of judges their party majority. The commission has its source in the rankest kind of partisanship; and the logical result is that a partisan view is taken of its finding. It will only make the Government ridiculous to complain of the were the results simply of the use of ernment ridiculous to complain of the partisan criticism that is the logical ontcome of its martisan action.

Had the Government been wise and also confident of its case, it would have allowed Mr. Gamey or Mr. Whitmey to name one of the judges, and would at least have given the legislature a voice in the matter, instead of allowing the members of the legislature to read the names of the judges in the Globe. It chose to make the most unwise and the most arrogant use of its party majority; it chose to drag the judges into the political arena; and it must take all the responsibility for the fact that the judgment is treated as a campaign document.

Robinson, and councillors Sifton, Haggart and Grant be appointed to arrange the different rates, as this is the last year of agreement. Carried. It was moved by Mr. Reycraft, seconded by Mr. Handy, that this Council make a grant of \$500 to assist the Township of Howard to build a bridge over the Duffis Creek in said Township to be paid, when bridge is completed. PREACHING POLITICAL MORAL-ITY.

Toronto World.

From a newspaper making such professions as the Globe, the people had a right to expect something better than its grossly partisan treatment of the Gamey-Stratton case. Its explanation of Mr. Stratton's "can't you forget some things," was less mischievous than some of its other exploits, because it was so obviously absurd; but its preaching can hardly be expected to be influential under such circumstances.

A LESSON THAT'S HARD TO LEARN

Toronto World.

The lesson is to get back to the principles of responsible government. Fight the political battle on great issues, such as will appeal to the judgment and conscience of the people. Hold the government, be it Liberal or Conservative, responsible for all the Fine wrong-doing that occurs under it, and keep on defeating governments until the will of honest citizens is obeyed. If this be done, the time spent in the inquiry into the Gamey-Stratton charges will not be wasted.

He took as the basis of his remarks, "For we as the basis of his remarks, "For we are his workmanship, created in Christ Jesus unto good works which God hath before ordained that we should walk in them." This letter from which this text was taken was called the Epistle of Paul to the Ephesians, but a great many competent judges contended that it was a circular letter to all the churches of Asia. The highest type of the Christian life was brought before us in the soldier. The soldier was considered as the best symbol of the true Christian, and i twas a noble sight to see the Christian putting on the armor of God to stand before the enemy.
