### IMPROVED LIVE STOCK OFFERS UNEQUALLED OPPORTUNITIES FOR PROFITABLE INVESTMENT

Money invested in pure bred dairy animals is profitable money. It is the kind of investment that comes back many fold. Better to own a first-class herd of pure bred dairy cattle on a rented farm than an inferior herd on a farm free of debt. The pure bred cattle will soon buy a farm for their fortunate owner. An attractive home, better farm buildings, financial independence and all other improvements, are soon available to the man who wisely invests his money in pure bred cattle of the rent-paying, mortgage-lifting kind. Such is the herd of A. S. Turner and Son, Wentworth Co., Ont., here illustrated.
