THE "NEW MODEL" ROTARY DISC JOINT-ED PULVERIZING HARROW.

MANUFACTURED BY
J. F. MILLAR & SON, MORRISBURG, ONT.
Effective in work, simple in construction, durable in wear, convenient in handling. Progressive farmers say that it is the very best farm implement ever produced.

The "New Model" Disc Harrow can be set up without hammer or wrench; can be taken apart in 30 seconds, without hammer or wrench; can be loaded into a wagon by one man; its scrapers clean perfectly in any soil; its lever changes the angle of the gangs easier than any other; its scrapers are automatic in their operation; its journals have no end friction nor end wear; its scrapers operate independently of each other; its draft is not carried on the neck-pole; its scrapers are self-sharpening by wear; its gangs are flexible, and they run level; its scrapers clean the disc without attention from the driver; its draft is lighter than any other harrow doing the same work; its axles are square, and provided with lock nuts and lock washers; less freight less handling, less wear, and less trouble.

We also manufacture the "Warrior Mower." Steel Plows, &c. Write for circulars and prices. Agents wanted where we have none. 255-c

LATEST INVENTION!—THE ROSS KNIFE SHARPENER—Patented May 7th, 1886.

The Best Yet.

Works Perfectly.

This machine was awarded Diplomas at Provincial Exhibition, Guelph; Western Fair, London; and Northern Exhibition, Walkerton, in 1886, and was shown against the Dutton Knife Grinder (the latest invented machine in the States) and Straith's King Knife Sharpener, and came out victorious, with the above results.

We claim this machine to be the best invented, and we challenge anything to equal it.

Any person can work it. It grinds two sections at a time, or one if required. It will grind the point without the heel, or the heel without the point, or a gap out. It will grind any length of a section from point to heel without any change after you set it for the length of section you want to grind. You can give different lengths of stroke for different lengths of knives. If worked according to directions, we warrant it to give satisfaction every time, or money refunded. Price, only \$8.00 in Ontario or Quebec, freight paid; \$10.00 in other Provinces. See what the November number of the "Farmer's Advocate" of 1886 says about it. Send for circular giving full description of machine. Order early. All orders by mail promptly attended to.

JOHN M. ROSS, Manufacturer & Patentee, BLYTH, ONTARIO. P. S.—Township and County rights for sale reasonable. 255-c.
