

In BELVEDERE STABLES are still 6 of my Best Jersey Cows

Kept for use of my own and daughter's families, but I do not wish to increase the number, hence I can usually offer something uncommonly choice. Just now I have

1 BULL, NEARLY 2 YEARS OLD,
1st prize winner, and fit for any herd.
1 SPLENDID BULL CALF, 7 MOS. OLD
The best, I think, I ever raised.
1 EXTRA BULL CALF, 3 MOS. OLD.

MRS. E. M. JONES,

Box 324. BROCKVILLE, ONT., CANADA.

LEE FARM REGISTERED JERSEYS.

Bulls fit for service, \$50 each
Heifers in calf, 50 "
Young cows in calf, 75 "
Heifer calves, 30 "
Solid colors. None better bred in Canada for dairy purposes. Come and personally select, or write for description and pedigrees.

E. PHELPS BALL,

17-y-o Lee Farm, Rock Island, P. Q.

WILLOW GROVE HERD OF JERSEYS.

Sweepstakes herd of 1893, 1894, 1895 and 1896. Highfield, J. H. Smith & Son, Ont., are offering 12 females, to calve shortly; one first prize bull, dam Elena of Oakdale (19 lbs. 4 oz. of butter in seven days), grand dam Menies 3, A. J. C. C., test 20 lbs. 1 oz. in seven days. Dam of bull won 1st prize in dairy test, Guelph, 1896, and he is half-brother to King of Highfield.

—om LONDON, ONT.

BROOKBANK HOLSTEIN HERD.

Champions for milk and butter. Eight have already won money in actual test. Sir Paul De Kol Clothilde in service, in whose veins flows the blood of such record-breakers as Pauline Paul, Clothilde, De Kol, Mercedes, Netherland Twisk, etc. Nineteen nearest relatives average 22 lbs. of butter in one week. Orders taken for Holstein calves and Poland-China pigs.

A. & G. RICE, Oxford Co., Ont. CURRIE'S CROSSING.

MAPLE Hill Holstein-Friesians. For rich breed, production, and uniformity of type, the Maple Hill Herd is not excelled by any in America. My cattle have won over \$1,000 in prizes in the last three years, and I never had as many crack show animals as at present. Many are closely related to Netherland Hengerveld, De Kol 2nd, and DeKol 2nd's Pauline, whose official butter records have never been equalled. Write or visit—

11-y-o G. W. CLEMONS, St. George, Ont.

JOHN TREMAIN, FOREST, ONT.,

BREEDER OF HIGH-CLASS

Holstein Cattle.

The stock of which being purchased from the noted herds of B. B. Lord (Sinclairville, N. Y.) and H. Bollert (Cassel). Young stock of gilt-edge breeding for sale.

GOSSIP.

In writing to advertisers, mention the "Farmer's Advocate."

Mr. James McFarlane, Clinton, Ont., has received an important consignment of Shropshire sheep, some 60 head, purchased for him by Mr. E. Goodwin Preece, of Shrewsbury, from the flocks of Messrs. C. J. Frank, R. Jones, and A. C. W. Darby.

Mr. A. J. Watson, Ashton Frontview Farm, Castlederg, Ont., breeder of Shorthorn cattle and Cotswold sheep, has received from England an importation of high-class Cotswolds, selected in England for him by Mr. Robert Miller, Brougham, Ont. The consignment includes several prize-winning animals at the late Royal Show at Manchester, the Bath and West of England, and other leading shows. They will, we understand, be exhibited at Montreal, Toronto and London, and will be a fine foundation for the building up of a first-class flock at Frontview, which is admirably suited for a sheep farm, as well as for heavy-fleshed cattle.

At the great Yorkshire Show, held at Harrogate last month, much interest centered in the family class in Shorthorns for best cow and her offspring. The first prize of \$25 was awarded to Lord Polwarth for the white cow Lady Blanche, her white 3-year-old son Border Reiver, and her white daughter, Lady Beatrice. Lady Blanche, the matron of this herd, is 8 years old, got by Bright Monarch; her dam, Lady Booth 11th, by Royal Sceptre. The second prize family were shown by Capt. Duncombe, and consisted of the eleven-year-old cow Sea Anemone, and her daughters, Sea Pearl, an eight-year-old; the two-year-old Sea Gem, champion female at the Royal, and Sea Lord 12th, a young bull about a year and a half old.

One of the most important shipments of hackneys that ever left England was made from Southampton, July 23, on the Royal Mail steamer, "Nile," for Argentina, South America. The lot included the well-known sire Rosencrantz 4965, by Rufus, dam Ophelia. He was bred by Lord at Rufus, dam Ophelia. He was sold to the Horsley Stud Company, Cobham. Mr. D. MacLennan, acting as agent for Senor Dr. Santiago Luro, of Buenos Ayres, at last made them such an extraordinarily good offer that they let the horse go. Mr. MacLennan also shipped for Dr. Luro about twenty mares, mostly with Lord at Rufus, and a few yearlings. They were selected from the Prince of Wales' and other studs, and are sired by such well-known horses as Rufus 1343, Field Marshal 2986, Ancones II. 1975, Vigorous 1215, Lord Derwent II. 1034, Fireaway of Callis Wold 1483, Danegelt 174, Prince Alfred 1325, Lord Rattler 2566, Lord Hamlet 3750, and others. Dr. Luro is already a light roan yearling, bred by C. J. Goodwin, Anglo-Normandos, Russian, Yorkshire coachers, and other breeds. This is his first venture with hackneys.

FITZGERALD BROS., SHORTHORN CATTLE AND COTSWOLD SHEEP.

At the large farms of Fitzgerald Bros., Mount St. Louis, Ont., we were shown a herd of some seventy head of registered Shorthorn cattle, the foundation of which was obtained in 1881, when a heifer calf, Rosaline, of the Mara family, was purchased from Colonel R. Tyrwhitt, Bradford. None but registered bulls have been employed, and among those used have been such animals as Marquis of Lansdowne, Simcoe Ranger, Cato, and Ingram's Victor. At present St. Louis, by Aurora Borealis 20351, and out of Marnehill Duchess 6th 25157, by The Baronet (Imp.) 11114, heads the herd. He is a light roan yearling, purchased from Dr. Morton, Allandale.

Among the matrons we noticed Roan Lilly, by Marquis of Lansdowne, dam Maggie, by Dominion Prince, a medium-sized, stylish cow, possessing excellent dairy qualities. She is credited with nine calves, most of which are on the farm, one of which is Caroline Princess, by Marquis of Lansdowne, a dark red nine-year-old cow. She too has distinguished herself as a matron and dairy animal. Ida Vaunder is a rich roan five-year-old, by Cato 10697, and out of Maggie. She is a strong type of an animal, of beefing conformation, while Flower of the Mount, by Marquis of Lansdowne, and out of Rosaline, is a solid red eight-year-old of good quality. Maggie has fully distinguished herself by raising a dozen calves. She is a big, strong, useful type of a cow, by Dominion Prince, and out of Rosaline; while her half-sister, Ethel Reda, by Marquis of Lansdowne, would attract attention in any company, possessing sufficient substance to weigh 1,800 pounds in condition. She too has been a very successful and regular breeder.

Of the two-year-old heifers we saw nine, mostly of the very prominent features of this herd, and one not to be slightly overlooked, is the regularly bred with which the matrons have been repeatedly that it was exceedingly rare to have a cow miss a single season, and much of this we attribute to their management. Their free run of almost unlimited unbroken land, rich in natural pasture, and bountifully supplied with fresh spring water, has established a strong, rugged, thrifty family of cows, which cannot but impress those qualities upon their progeny. In the Cotswold pens are some sixty, forty of which are breeding ewes suckling lambs; fifteen shearing ewes; and a stock ram, bred by Mr. Watt, Shanty Bay, a sheep which in condition will weigh over 300 pounds, having superior quality, and being well covered, was descended directly from imported stock, while the sire employed the year previous was also selected with much care from the flock of Mr. Garvin, Midhurst. The lamb crop are a thrifty, strong, growthy lot, and much good material in Cotswolds may be seen here.

GOSSIP.

Thos. Allin & Bros., Oshawa, Ont., write:

"Have sold two bulls and three heifers, and have one bull left to dispose of. Stock all doing nicely. We have five heifer calves and one bull calf, all by the imported bull, Grand Sweep, a very fine animal with straight top and bottom lines, and proving himself a good stock getter. We had a visit from Mr. B. F. Meyers, of Iowa, who purchased three heifers of the Duchess of Gloucester family, sired by imported Indian Chief (57485) and Lavender Lad. We expect they will make themselves known in the U. S. some of these days. Our seven Duchess of Gloucester females with Grand Sweep at the head constitute a fine breeding herd."

ROBERT MILLER'S IMPORTATION.

Robert Miller, Brougham, Ont., under date of Aug. 4, 1897, writes us as follows:—"On July 15th I sailed from Liverpool via S. S. Lake Huron with 53 sheep, and landed all in perfect form on 25th. The Shropshires consist of one aged ram, Darlington (810), that won first and champion wherever shown in 1893; considered by many the best ram that the breed has produced. I think him the best of any breed I have ever seen. Four yearling rams, all good, and one of them a second prize Shrop. in local shearing class at Shrewsbury. Two ram lambs, one from J. S. Harding's third prize pen at Shrewsbury, and one from John Harding's first prize pen at Royal. Four yearling ewes, three of them from J. L. Napier's second prize pen at Royal, the only time shown, and one from Foster Harter's show pen. The Napier ewes are the best I have ever imported, and I think them the best I have ever seen. Two ewe lambs from the first prize Royal pen of three, the third died at Shrewsbury; and J. S. Harding's first prize pen of five at Shrewsbury shown in local class for Shropshire, and adjoining counties. I have twenty rams on the way to supply the demand for first-class sires."

"In Oxfordshire I have a grand yearling ram, the choice of Mr. Brasse's flock, the choice ram lamb from his unbeaten pen of three, the two choice ewes from his pen of three that were twice first and once second, and the two choice from his unbeaten pen of ewe lambs; they are for George McKerron."

"In Southdowns I have a good yearling ram from Pagham Harbor flock, best ram lamb from his show pen (a good one), two choice ewes from the first prize Royal pen, and two ewe lambs from first prize pen at same show; they are for Mr. McKerron too."

"In Hampshire I have second prize two-year-old ram at Royal (sire of first prize shearing), a grand ram lamb, choice first prize ewe, and choice ewe lamb from second prize pen; they are for Ira J. Hiller."

"In Cotswolds I have the two choice yearling rams from Messrs. Garne's flock, two first prize ram lambs at the Oxfordshire show, the first prize pen of ewes at Oxford show, and first prize ewe lambs at the Oxford show. A splendid lot for A. J. Watson, Castlederg, Ont., and George Harding & Son, Waukesha, Wis."

"In Dorsetshire I have first prize yearling ram at Royal, and second prize yearling ewe, a good ram lamb and ewe lamb; for Mr. Codd, of Iowa."

W. R. HOWMAN'S HERDS AND FLOCKS.

While at Mt. Forest W. R. Bowman's stock of Shorthorn cattle, Shropshire sheep, Berkshire and Yorkshire pigs were looked over. The Shorthorn herd now numbers 25 head, among which is the eight-year-old cow Lady Osborne, by Zora's Duke, and out of Prudence. She has been a very successful breeder, and good milk, and of her Mr. Bowman says, "She fills the strainer pail night and morning, and to say the least, she is a big, useful cow. Her five-year-old daughter Myrtle is a medium-sized red cow which has also proven herself a successful breeder and has produced some good calves, the one now at her foot being no discredit to her. Cecil 19362, a six-year-old red cow, has also been a producer of the kind that commands attention. Her pedigree shows her to be bred from imported sire and dam. She is by Eclipse 1257, and out of Queen of Mt. Forest, by Harbinger 5857, due to calve in August, is of medium size and of true Shorthorn conformation. Of the two-year-olds we saw a pair of useful roan heifers, one of which is making bag preparatory to calving, while three very growthy yearlings that promise well go to make up the number. Of the half dozen this year's calves three are bulls. The red fellow, out of Cecelia, is a straight, deep, growthy calf, while Blanche's red heifer has much quality and fine appearance to recommend her. The deep red two-year-old stock bull, Monarch of Bowfront 21037, was bred by Jas. Bowman, of Guelph, sired by Monarch of Mapleton 19268, and out of Nettie 2nd, by McDuff 54090. He is a growthy, strong fellow, possessing much substance, and has proven himself a sure and successful sire. The Yorkshire pens now contain seven animals, five boars and two females. The stock boar, now nine months old, was purchased from Mr. Mills, Harriston. In the Berkshire herd we saw fourteen head, two of which are sows due to farrow soon. The stock boar, Vassel, was bred by Mr. Rivers, Walkerton, and is now past two. A brood sow with a litter at her feet of ten well-marked, strong pigs is a good one, and the pigs are promising well. The stock was founded on Snell and Model Farm bred stock, and the sows have been very successful breeders, producing good-sized litters, with very few losses. Thirty-five head of Shropshire sheep were seen in the pasture at the head of which is a strong, well-covered two-year-old ram, purchased from Mr. Phil, Hespeler, the sire of this year's crop of lambs. A strong shearing ram, and two pairs of shearing ewes, bred by Mr. Rivers, are very useful animals. The foundation of the breeding flock was obtained from Isaac Johnstone, Collingwood, four years ago, and were the descendants of imported stock. Registration has been kept up and pedigrees are kept on file for reference."

"Gem Holstein Herd."
