

Clean Skimming Means Good Living

The hog trough is no place to put butter.

Wide awake farmers want the cream separator that skims the cleanest. It means more profit—better living. That separator is the Sharples Dairy Tubular—the separator that's different.

Sharples Dairy Tubulars have twice the skimming force of any other

separators—skim twice as clean.

Prof. J. L. Thomas, instructor in dairying at the agricultural college of one of the greatest states in the Union, says: "I have just completed a test of your separator. The skimming is the closest I have ever seen—just a trace of fat. I believe the loss to be no greater than one thousandth of one per cent."

That is one reason why you should insist upon having the Tubular. Tubulars are different, in every way, from other separators, and every difference is to your advantage. Write for catalog S-103 and valuable free book, "Business Dairying."

Salem P.O., Elora Station.

QUESTIONS AND ANSWERS. Miscellaneous.

CRATE FATTENING—COCKEREL MANAGEMENT.

1. Is one part corn meal to two parts sifted oatmeal (by bulk), mixed with skim milk, a good ration for fattening chickens in crates?

2. Should cockerels, intended to be kept for breeding purposes, be shut up or allowed to run with the hens and pullets?

3. If they were penned up, what should they be fed? Also, should they be put in large or small pens, separately or together?

W. S. M.

Ans.—1. Yes; finely-ground oats will make the finest white flesh, but the chicks often prefer a mixed feed, and they are fond of corn. Too much corn, however, will produce a yellow flesh, but your mixture will be very satisfactory.

2. The hens and pullets are better away from the cockerels; but if you couldn't give the cockerels a good run, it would be better to let them run with the flock. Don't confine young stock intended for breeding.

3. They will do with much the same as the rest of the flock. Oats are very good as a grain.

F. C. E.

LINE FENCING—PEDIGREE OF PIGS.

1. A owns east half of lot, B north half of west half, C the south. The Grand River runs between these two quarters, also through east half. A has a mixed stock, and resides on the lot. B has grain in part of his, and pastures the balance; while C, whose half is rough land, but nearly all cleared, runs cattle on his. It has been the custom for A to build fence across the river, C paying him for his half. This year, however, it has been reversed, and C has put a few strands of barbed wire on to turn the cattle, but it will not keep out A's pigs, which go through the fence, and then have a chance to go on both B's and C's land; but, as B has grain on his place, the pigs do him the most damage. A notifies C to repair fence, and C, who does not reside on his lot, comes up and puts in a half dozen staples to hold wire, and then tells A he has it repaired so that they could not get through; and then he goes to B and tells him that his fence will turn cattle all right, and if A's pigs get in, he (C) is not obliged to fence to keep out pigs, and B can look to A for damages. Is this correct, when, if this fence was kept in repair the pigs could not get in, but would pasture in A's bush?

2. If the deeds of B and C read: the land lying north and south of the river, could they make A fence river, as neither owns land on the opposite bank, or could they compel A to build fence without their aid?

3. In the early spring I bought a pig (sow) from a breeder, he, in his description, stating that sows were sired by a noted show boar, and also from a prize-winning sow, giving, in his description, the name of boar. Lately, I received pedigree of sow, but found that, according to same, she was sired by a different boar than was named in description. I immediately wrote for an explanation, and the breeder wrote that the sow's breeding was given correctly enough, as he paid five dollars for service, but, later, when the man who owned the boar could not buy the boar pigs back at his own price, he refused to fill out certificate of service to this boar, and filled it out to another boar he had, not as noted a prizewinner, nor as good a boar, which breeder No. 1 accepted and registered his stock as given above, which pedigree I have, and which is not correct nor worth the paper it is printed on. I, in my turn, before I received the registered pedigree, described the breeding of sow and her litter, and have sold some of her pigs, before I knew of this tangle. As a result, party is holding money till furnished with pedigree, which I cannot give. Give instructions as to what I should do.

FARMER.

Ontario.

Ans.—1. No.

2. No.

3. You ought first to take return of the pigs you sold, and then make return of sow to the breeder, and demand a refund of the money you paid him, following such demand up, if necessary, by suit in the Division Court.

Tudhope Carriages

hold their good looks, just as they hold their strength. A special feature is made of the painting and finishing. And Tudhopes retain their gloss—look new—when other makes, bought at the same time, have lost their pristine brightness.

TUDHOPE No. 45

is one of the easiest carriages we make. It's built especially for the man who uses his buggy constantly—and besides making riding a pleasure—stands hard driving and rough roads. Supplied with rubber tires if desired.

Our free catalogue tells all about it. Write for a copy.

THE TUDHOPE CARRIAGE CO., Limited

ONTEARIO, Ont.

Porter's Golden Fawn St. Lambert and Golden Lad JERSEY HERD.

I AM now breeding the two most popular and productive families of the Jersey breed known—the St. Lambert and Golden Lad. And what is more, my foundation stock of both families was purchased from the two most noted and best breeders of Jerseys on the continent: The St. L.'s from the late Wm. Rolph, of "Glen Rouge"; and the Golden Lads from T. S. Cooper, Linden Grove, U.S.A. My Golden Lads are headed by Blue Bell's Fox of Linden Grove—a grandson of Mr. T. S. Cooper's high-priced cow, Blue Bell, which was sold at his 1904 sale for \$3,600. I have a few animals of both sexes for sale. R. R. Station, Toronto Junction, G. T. R. & C. P. R. THOMPSON PORTER, Carleton West, Ont.

SPRINGHILL AYRSHIRES. LAST IMPORTATION OF 45 HEAD

Arrived home, and we now have a selection that cannot be excelled of cows and heifers, all ages, fifteen due to freshen in August and September. Bargains in bull and heifer calves, most of them imported or imp.-in dam. Oldest bull 12 months (imp.). Everything for sale at reasonable prices.

ROBT. HUNTER & SONS, - - Maxville, Ont.
Long-distance 'Phone, Maxville 33.
