

CORRUGATED IRON

"All corrugated looks alike to me," says the novice. "Looks alike, yes," replies the experienced builder, "but what a difference in quality!" . . . The contents of most buildings with corrugated iron roofing or siding are exceptionally valuable—factories, barns, warehouses, elevators, etc. . . . Only the best is good enough for such structures—Metallic Roofing Co.'s Corrugated Iron. . . . Absolutely free from defects—made from very finest sheets. . . . Each sheet is accurately squared, and the corrugations pressed one at a time—not rolled—giving an exact fit without waste. . . . Any desired size or gauge—galvanized or painted—straight or curved. Send us your specifications.

N.B.—Insure the safety of your grain. A **Metallic Portable Corrugated Granary** protects against loss by lightning, fire and vermin—rats, mice, etc. Write us to-day for information. Also ask us to mail you our new illustrated catalogue, No. 70.

Purebred Registered
HOLSTEIN CATTLE
The most profitable dairy breed, greatest in size, milk, butterfat and in vitality. Send for FREE illustrated descriptive booklets. **Holstein-Friesian Assn.,** F. L. Houghton, Sec'y, Box 127, Brattleboro, Vt.

WELCOME STOCK FARM HOLSTEINS—We have direct descendants of these unequalled performers, Peitertje Hengerveld Count De Kol, sire of three daughters above 32 lbs.; Pontiac Korndyke, two daughters above 37 lbs.; Hengerveld De Kol, with the longest list of A. R. O. sons and daughters; Blanch Lyons, dam of two daughters above 33 lbs.; Colantha 4th Johanna, whose yearly production of butter and milk stands unequalled. Our main stock bull, King Lyons Nederland, is a fine individual, whose two gran-dams and dam's sister average 34.22. Both sexes for sale. **C. COLLERT & J. LEUSZLER, Tavistock, R. R. No. 6.**

A GREAT COMBINATION

Bulls eight months old for sale, combining the blood of Pontiac Korndyke and Hengerveld De Kol, with five 30-lb. cows in their pedigree, whose milk contains over 4 per cent. fat. These are the two greatest Holstein-Friesian bulls in America.

A. A. Farewell. Oshawa, Ontario

MAPLE SOIL STOCK FARM

Holstein yearling heifers with A. R. O. testing over 20 lbs., got by Idalin's Paul Veeman, his dam testing 24.79 lbs., served by King Segis Pieterje, his dam 30.51; also a few bull calves from 3 to 6 months old.

Belmont Sta., C. P. R.

H. C. Holtby, Belmont, P.O., Ont.

The Maples record of Merit Holstein Herd

A few choice bulls ready for service, sired by King Posch De Kol; also a few young bull calves, sired by Prince Aaggie Mechthilde, whose dam won first at Toronto, 1911, and sire's dam first in dairy test at Guelph, 1908 and 1909; his three nearest dams average over 25 lbs. butter in 7 days.

WALBURN & VFRS, PO. DEN'S, ONTARIO

HOMESTEAD HOLSTEINS

Headed by Canary Rachel Clothilde, whose dam, sire's dam and two gran-dams average over 27 lbs. butter in 7 days. Yearling bulls and bull calves, also one bull rising two for sale.

QUESTIONS AND ANSWERS. Miscellaneous.

TREATMENT FOR ECZEMA.

Please print a cure for eczema in horse. My horse is a four-year-old, and the veterinary says he has eczema, but what he gave me does not cure him. Could you advise me what to do for him?

W. N.

Ans.—In the absence of any description, we must presume the diagnosis to be correct. Eczema is, in many cases, very hard to treat. Unless his hair is quite short, get him clipped. Give a thorough washing with strong, warm soft-soap suds, well applied with a scrubbing brush. After this, dress thoroughly twice daily with corrosive sublimate, 20 grains to a quart of water. Give him 1 ounce Fowler's Solution of Arsenic, mixed with a pint of cold water, and mixed with chop or bran, or as a drench, twice daily every second week for six weeks. Keep him in a comfortable stable and blanket well, and do not expose to cold, as it is dangerous to clip in cold weather, unless great care be taken, while it is very hard to treat a case without clipping.

HAY MIXTURE, FODDER, AND POTATO QUERIES.

1. Can you tell me what mixture would be best to sow as a hay crop on cleaned alder flats, flooded in the spring? Timothy and alsike clover seem to be the usual thing, but how would cocksfoot and rye grass do with them? Would this make too coarse a cut? What amounts should be sown?

2. What variety of oats to be cut as fodder would be best to sow on broken sod plowed last fall?

3. What potato is a good, average cropper, to be sown on cleared alder flat?

4. If I sow red clover with the oats, and feed off in the fall with sheep, would turnips do well the following spring?

NEMO.

Ans.—1. Try a mixture of 2 lbs. of orchard grass, 3 lbs. of redtop, 3 lbs. of timothy, and 3 lbs. of alsike. The cocksfoot or orchard grass, in a thick mixture, will not be likely to grow too coarse for good hay. Redtop does well on wet soil. The rye grasses are short-lived, and make rather a large amount of hay, but it has not been extensively grown in America.

2. The variety matters very little. One of the later varieties would likely produce more fodder, while an early variety could be used where early fodder was required. Siberian, New Zealand, Newmarket, Ligowo, and many others should do well for the former, and Alaska or Daubeney are good early varieties.

3. Many varieties should do well. Carman No. 1, Empire State, American Wonder, Rural New Yorker No. 2, Eureka, Early Puritan, and Early Fortune (the latter three being early varieties), are good.

4. Yes; provided the land is manured and in a good state of cultivation.
