

**"My GURNEY OXFORD jumped right in and helped with my housekeeping"**

Dear Edith,

In a general way I have wished you all the good things I know of, so now I am going to descend to the practical and give you some sound advice from the store I have accumulated since I started housekeeping.

Housekeeping naturally suggests the kitchen first—its equipment and management, or in other words, **THE RANGE**

My range, as you know, is a Gurney-Oxford. I never enjoyed much of a reputation as a cook in my younger days, so when I thought of being responsible for three meals a day my heart sank. I imagined myself battling all day with a sulky range, trying to coax it into a good humour, and covered with mortification because of late or spoiled meals. But my dear, my Gurney-Oxford seemed to sympathize with my inexperience. From the day it came it

jumped right in and helped. It has become my good right hand, and I go my way confident that my Gurney-Oxford will not disappoint me.

It has the cleverest arrangement for regulating the drafts, well named the Gurney Economizer. One small lever put up or down does everything. The fire will stay in all day, hardly burning any coal at all—then, presto! It is burning brightly, ready to bake or roast. An arrangement of flues keeps the oven always properly heated, so that the biscuits or bread come out light and crisp and brown. Yes, Edith, as Bob says, I have developed into "some cook," and I often tell him he must give at least half the credit to our Gurney-Oxford.

You will understand my enthusiasm better after you have had *your* Gurney-Oxford a month or so.

Sincerely Yours,

MARY HOUSEWIFE.
