EVANGELICAL ALLIANCE.

THE third Annual Conference of the British Organization of the Evangelical Alliance commenced its proceedings on the 10th of the last month, by a public meeting in the City Hall, Glasgow. The platform, it is stated, was occupied by a number of the most distinguished friends and advocates of Christian Union, and dispersed throughout the audience were Ministers belonging to all denominations, and from all parts of the country. The sittings continued three days. Several admirable Speeches or Addresses were delivered on the increasingly important subject of the union of Christians, and produ-In the meantime, to assist in securing ced a hallowed effect. In the course of the business, T. P. The subject was not pursued; but the Correspondent of the Watchman, previously quoted, states that expressions of respect for the character of DR. Mr. John Simpson states-" My own speech was, that it was a tissue of falsehood, misrepresentation, and perversion of fact, and characterized by the most spiteful feelings. The first part of Mr. Everett's speech was a tirade of the most malignant abuse of Dr. Bunting, showing the bitter, and inveterate hatred with which the Doctor is regarded.-I scarcely know how to characterize Mr. Griffith's speech. There was the same disregard to truth, and the same display of malicious feelings as in the other two.-It may seem harsh, but the feeling produced on my mind is such, that I cannot give them credit for having a spark of religion left, un less they are most strangely and unaccoun bly deceiving themselves, thinking they are doing God's service when they are sowing discord and disunion among the churches. -railing at the whole body of Ministers, and especially the Conference, and attributing to them a bad motive for every action they perform, and showing such a spirit of falsehood, envy, hatred, malice, and uncharitableness, as I think no christian can do. Where such men are the leaders, Methodism has nothing to fear from agitation."

Rev. John Bedford writes thus,-Their rpeeches frequently indicated that their bearts were full to overflowing, with the deadliest venom, against some of the most excellent and bonoured Ministers of the Connexion .- But their violence will defeat its object. Not a few of our pious and rightminded members, who ventured within the precincts of the Hall have since declared that if they had not been previously satisfled of the necessity of Mesers. Everett. Dunn, and Griffith's expulsion, they were abundantly convinced of it in that meeting. One individual I have heard of in the Birmingham East Circuit, who had left the Society because he disapproved of their expulsion, who has said that in the meeting he was convinced the Conference had done right, and that he would immediately return to
