In the course of his address he said: "In spite of our utmost exertions our Cured by Dr. Hamilton's Pills losses in members was about six hundred. These losses were nearly all in the rural districts, though some county courts did not report the loss of a single member. This loss was not all occasioned directly by the change of rate. Some of our financial secretaries, especially where regular meetings are not held, have the habit of paying the assessments of members out of the court funds. As a consequence many members owed the courts large sums on the first of last October, when the changed rates came into effect. A large proportion of these dropped out instead of paying their arrears. They other conditions. That we have passed through a critical period in our or-der's history since last we met, no one will be disposed to deny. That this crisis was inevitable we now believe. that our order stands upon a securer foundation than ever before is apparent to the most casual observer, what s there, then, to hinder a vigorous forward movement? I might answer nothing but our own apathy, or our own shortsightedness. We have courts all over our province, showing with what zeal the planting has been done

F. W. Emmerson, High Secretary, in his annual report, said in part: "It is now twenty-five years since you have elected me to the honorable post of High Secretary of this High Court. Many changes have taken place since then both in the personnel of the members of this High Court and in the numbers thereof. When I was first elected we had only ninety-eight members in this Province, whereas now we have nearly eight thousand. Then we only had eight present at tations. By mail from The Catarrhothe High Court, today we probably have over two hundred."

#### "Life a Perfect Burden carried on, but in spite of this six Untold

To produce such striking evidence, such satisfying proof as Mrs. E. D. Dupont gives in her letter, makes it self evident that in Dr. Hamilton's Pills every suffering man and woman is offered a real cure for all stomach ailments. From her home at Oak

torture with biliousness and indiges-

trouble was first manifested with blinding headaches and feeling of dizziness and fullness in the head Such dreadful turns of giddiness came over me that at times I reeled and staggered. The attacks were accompanied with violent pains in the stomach and distension of the liver. Spots flitted before my eyes, and to think of eating made me miserable. I was unable to digest my food, lost weight and got sleepless. When so low spirited and despondent that I despaired of getting well, I read of how Mrs. Helton had been so wonderfully cured by Dr. Hamilton's Pills, and got five boxes at once. To my delight the first box of Dr. Hamilton's Pills gave me relief. I began to eat, sleep and enjoy my meals. The stomach and liver pains passed away. I improved steadily and when five boxes of Dr. Hamilton's Pills were used I was a

new woman, crued, happy, well and strong." ## BUSINESS NOW SERIOUSLY, RICH FIND OF AFFECTED IN CAPE BRETON BY STRIKE AT COLLIERIES

Outcome of Struggle is DIPLOMATS SEE WRIGHTS BUMP Viewed With Greatest Apprehension

Both Sides Powerful Enough to Prolong Fight Indefinitely

Company Appear to Think They Have Strike Broken

dent of Tying Up Mines

GLACE BAY, N. S., July 13,-How long will the strike last is the question that is being most frequently asked in Glace Bay now. Business is becoming very seriously affected through the struggle between the Dominion Coal Company and the U. M. W., and the outcome of the conflict is being viewed with the gravest apprehension. Both sides are powerful enough to make the present struggle as great as any that has ever been experienced in the Dominion, and the result of the fight is being looked to with forebod ing. Business has suffered already, and merchants fear it will suffer still more very shortly.

There is yet one more pay to come to the men on strike. Under the system under which the company pays they are always a fortnight in arrears, and the money that the employes earned up to the end of June will be received by them on Saturday. At the end of the month those who worked up to the time of the strike was called and the relief offered by the U. M. W. and the subsistence necessary for the five hundred troops who are garrisoning the various mines will help

The company appear to think that they have the strike pretty well broken now although they may be handicapped for some time. They assert that the output today was slightly better than on Monday, which was the best day so far since the arrival of the troops, and that it is now only a matter of time until they have every-Point, Mrs. Dupont writes a vivid and thing running fairly smoothly With the miners and bank head they

touching account of her four years of lately, and while this is only about week or two. On the other hand, the U. M. W. are

just as positive as ever that they are steadily tying up the company's collieries. They assert that the outputs are only about half what the company claims they are. But as the coal is measured by independent check weighmen at the pit mouth and the company pays royalty on these figures, there is a general disposition to take their statements as correct. It is freely stated that the U. M. W. is prepared to make a long fight of this. According to fairly well informed persons, President Lewis is taking a deep interest in this fight on acount of his being in Cape Breton himself. He is acceeding to all the requests of the men in charge of the fight here. The amount most generally named as coming into Glace Bay to support the strike is twenty thousand dollars a week, and the U. M. W. men say that if they need any more they can get it.

the anniversary of the founding of the Church of England in Canada, which is to be held next August, has and mental strength. been received here and is causing a certain amount of resentment, inasgramme is to be carried out in Halifax, Annapolis being a mere addenda. Why this is, is the queston our ctizens are asking. Of course there are reasons, but they ought to be many and weighty. This town was the birth of the Church in this Dominion, here it was cradled, nurtured and ad-vanced from strength to strength for over half a century before ever the world knew that there was such a place as Halifax, Nova Scotia. On inquiry we are given to understand that the reason is that the cathedral in Halifax is to be ercted as a fitting monument to the founding of opening of that building is most worthy of that commemoration, Granted. "is not the life more than meat?" Will it not seem incongruous to listen to papers, addresses, speeches, read or delivered, the burden of which is Annapolis. The natural inference would be that this place, Annapolis, is like unto some Babylonian city, that once was but now is not. It is hoped that the authorities in charge of the cele-bration will reconsider the programme, and that Annapolis, instead of having the last day on the programme, will have at least the first, if not both the book,
