Luxuriant tresses dancing gracefully o'er the swan-like neck,

So much required to make, to mar the pleasing picture, Or to add to the already fair beauty's master piece,

Or to restore the wasted charms of the faded one,

Makes clean the pores, gives action to the capillaries,

By which all poisonous humors are ejected,—

BOGLE'S HYPERION FLUID,

FOR RESTORING PRESERVING, AND EMBELLISHING THE HAIR.

*The following Certificate, from Dr. Winslow Lewis, one of the most eminent Physicians of Boston, will show the estimation in which it is held by the scientific and learned, being one only of many similar ones.*

BOSTON, Feb. 15, 1849.

Mr. Wm. Bogle.—Sir,—The preparation invented by you for the hair, has been extensively used in my family, and they give it the decided preference over till other compositions of the kind. It invigorates and beautifies the hair, and the skin of all impurities, without producing any ultimate deleterious effects, which are so frequently the result of many well-known patented compounds.

WINSLOW LEWIS.

It is an indispensable article for the Ladies, as it keeps the hair in place and curl, and the skin soft, giving the hair free from dandruff and scurf. For children, it lays the foundation of a good head of hair.

BOGLE'S AMOLE,

A COMPOUND FOR SHAVING.

This delightful article is totally different and far superior to anything yet invented for shaving. The base of it is derived from the *Amole*, or "soap plant," of California, an article used by the natives of that country for washing, and they are the race of strong athletic no beards! to the skin, to be avoided. Its vegetable and detergent properties have the purest and most nourishing effects on the skin,—it soothes and allays irritation, and renders the most tender hand, when dry on the face. It is a decided luxury to be shaved with this incomparable soap. It is done up in elegant style, calculated either for the dressing case of the "sweps and ready" traveller, or the toilet of the most fastidious connoisseur.

BALDNESS CURED.

*The following is from Mr. J. F. Barrett, Saratoga Street, East Boston:*

EAST BOSTON, Feb. 6, 1847.

*Mr. William Bogle.*—Dear Sir,—Having several years ago, my wife has been troubled with baldness on the Crown of the head, about six or seven inches in circumference. After repeated failures of other so-called remedies, and the advice of friends, I was induced to use your Hyperion as a wash, for the purpose of restoring her lost locks, and I am happy to say that its effect has been to cause the hair to grow all over the bald spot, and in a short space of time the hair will be restored, and that very luxuriantly; and she used it clearer and more regular. I am convinced that the growth of the hair would have been more rapid, if she, poor creature, could have used it more frequently.

BOGLE'S HEBEAIONA,

FOR REFRESHING AND BEAUTIFYING THE COMPLEXION.

Eradicating Tetter, Pimples, and other eruptions of the skin, and producing a clear, healthy, and blooming. It is equally efficacious in protecting the skin from the hot sun of summer, and freezing blasts of winter, and is the most fragrant and delicious article to be found on the toilet table.

All the above articles have stood the test of the strictest investigation, and are WARRANTED superior to anything yet invented.

**SCROFULOUS AFFECTIONS, &c.**

In all these distressing and painful complaints, there is no question regarding the efficacy of this Medicine, as eminent Physician of this city, writes as follows:—

Dr. Sherwood's Galvanic Embrocation in regard to the best effections of all consumption for rheumatism affections of any children, a daughter of 5 years old, was afflicted with a very inveterate and protracted Scrofulous affection, which had continued its ravages more than years, various remedies, years tried but without effect.—The disease exhibited itself in several deep-seated sores the discharge from which was corrosive and very fœtid. At the urgent solicitation of a friend, with Dr. Sherwood's Galvanic Embrocation—the only remedy used in connection, was a decoction of Sarsaparilla. Which soon conquered the disease, and a complete cure was effected.

Society at large is indebted to William Bogle, 371 Washington Street, for a series of the most comprehensive toilet articles,—the result of his inventive research. His Hyperion Fluid is excessively used, and stands at the head of the list of preparations for beautifying the hair; his Amole, for shaving, is decidedly the greatest assistant in maintaining—also with the preservation and beautifying of the complexion his Hebeaiona. Sold by the principal agents as above.—*See Adv.* 337

**STRONG RECOMMENDATIONS.**

Regarding the merits of Dr. Sherwood's Galvanic Embrocation, from the Editor of the Morning Courier and New York Enquirer:—"The astonishing rapidity with which this preparation relieves pain in the most violent attacks of rheumatism, and the permanency of the cures effected by its use, are truly astonishing. Indeed, the discovery of this extraordinary combination deserves to be ranked among the most important discoveries of the Professions, seems to warrant the conclusion that it will ultimately supersede the use of all other remedies for the relief of pain. We have ourselves used it in our family with the most perfect success, and have no hesitation in saying that we consider it the best article we have ever used for the purpose."

From the Baltimore Daily Clipper:

In a great many instances we have known Sherwood's Galvanic Embrocation to be used, and in every instance with the most perfect success. We have ourselves used it in our family with the most perfect success, and have no hesitation in saying that we consider it the best article we have ever used for the purpose."

**CRAMP AND PAIN-KILLER.**

THE MOST SUCCESSFUL REMEDY KNOWN For the Cure or all Rheumatic Affections—Pain in the Stomach, Back, Side or Limbs—Stitches in the Breast, Side or Limbs—Cramp in the Limbs or Stomach—Burning Pains, Bilious Cholic, Dysentery and Diarrhœa, Colds and Sore Throat, all cases of Local Inflammation—Cuts, Wounds, Bruises, Headache, Toothache, Burns, Scalds, Frozen Limbs, &c., &c.

THIS wonderful Medicine has effected many truly surprising cures in cases of the foregoing complaints. And we defy any one, hundreds and thousands who have used it will assert, Send ye say there is no Medicine discovered for this class of complaints, possessing properties equal to the power to relieve and cure of pain.

We solicit particular attention to the fact that it does not contain a particle of *Opium* in any form. Neither is it a genuine *Cholera Remedy*.

It is free from any deleterious article, and cannot, in any possible case, injure the patient.

If does not destroy the *Life Principle*, nor produce the nauseating drying, parching sensation, so much complained of in the use of other "Pain Killers."

It does not weaken the bestial, portion of the bowels, producing Costiveness and its attendant evils, but is a promoter of digestion, and of proper and healthy action in the stomach and intestine canal.

IN ALL RHEUMATIC AFFECTIONS,

*Local Pains, &c.*, it has proved *very* eminently successful, rarely failing to cure, even in the most desperate and long standing cases, which it is only necessary to name, and the patient can take it best, and the stomach and bowels freely bathed. And if in fifteen or twenty minutes the patient does not find relief, repeat the dose.

DYSENTERY OR DIARRHŒA.

Are speedily and easily cured by it. It should be given a teaspoonful at a time, once in an hour or two, or oftener in severe cases, and bathe the stomach and bowels with the same.

EVEN THE CHOLERA.

Which during the past season has swept off such fearful numbers, has been cured by it, we believe in every case; where it has been early and faithfully applied. In Hungary, where it proved singularly fatal, it was found to yield to this remedy, and CURTIS & PERKINS' *CRAMP AND PAIN KILLER*, was the Medicine recommended by the first Physicians, and by the Press, as the first, the surest remedy to be used.

As a dressing for *Cuts, Wounds, Bruises, &c.*, it is without a rival. As also in cases of *Burns, Scalds, Frozen, &c.*, relieving the pain and healing without scar.

FOR TOOTHACHE

It is, nine times out of ninth, a *CURE*. We believe it will *never fail*, unless the tooth is ulcerated. If the tooth is hollow, saturate a little flat and put it in the cavity. Hold some of it in the mouth. If the face is swollen bathe with it.

Bathing the head with it is generally a cure for the *Headache*.

We are constantly receiving certificates from every part of the country, many of which may be seen in newspapers, and in pamphlets, which may be obtained of any of our agents.

P. S.—It is the best *HORSE AND OX LINIMENT* in the world.

Please read the following statement from John Buchanan, Esq., of Dixmont, Me.:—

DIXMONT, July 11, 1848.

*Messrs. Curtis & Perkins.*—For two years past I have been entirely prostrated with the Rheumatism; both of my knees were swelled to twice their original size, and a large lump made its way on my breast bone, appearing like a part of the bone thrown out. Another bone was thrown out of my wrist. In short, I endured the most excruciating pain that any mortal ever did, and live. I obtained the best medical attendance the country afforded, and tried a great number of medicines and prescriptions without the least benefit or alleviation, when I had the good fortune to procure a bottle of Cramp and Pain Killer, prepared by Messrs. Curtis & Perkins, of Bangor. Soon after taking it I found I could get some rest nights, and the pain became less violent. I have continued to take it and apply it externally, until I have used eight bottles. I took much larger quantities than was recommended.—The swelling has all gone down both in my limbs and wrist, and I am entirely free from pain. I have been able to do a good day's work at any time for the last three months, for a man of my age. No description of my case can convey the vast amount of benefit I have received from this article. I believe it is the best article in the world for Rheumatism. I have also used it for cholic and pain in the stomach, and always found immediate relief.

No. 37, *Bedford Square, London.*

Doctor of Medicine, formerly Matriculated Member of the University of Edinburgh, Licentiate of Apothecaries' Hall, London, Honorary Member of the London Hospital Medical Society, &c.

This Work contains the most accurate and complete account of the Anatomy and Physiology of the Reproductive Organs, and of their relative conditions in health and disease, with plain and practical observations on the Treatment of cases, as well as the nature of the danger, are pointed out in clear and intelligible language. It deservedly requires a place in every family library, for what is there of more import one than the preservation of health, and of the physical capabilities of which every man should be possessed. It unfortunately happens that the unfortunate victims of excesses have recourse to pernicious habits, whether acquired in early life, or from the follies of advanced age, while suffering from their invariable consequences, obviously entertain a fear of applying to a Physician, lest erroneously, entertaining those complaints, but the possessor of an art, which alone can be beneficially, but erroneously, entertained
