The St. Petersburg correspondent of the Daily Mail believes a statement has been issued officially that bad weather is checking the disembarkation of the entire Japanese army, and has compelled the comparatively small orce which landed to fall back. It is also suggested that the weather has hindered Gen. Kuroki's advance, regarding which nothing is reported except what is contained in Gen. Kouropatkin's despatch.

The St. Petersburg correspondent of the Daily Telegraph says that all interest is centered in the Liao-Tung Peninsula, upon the west coast of remishia, upon the west coast of which the Japanese are about to operate. Two divisions are presumed to have landed there already. General Cka's army will shortly number 30,000 near, with 72 guns, while 30,000 more, ith 54 guns, are ready to land at Thornton Bay, but will not be fully available before May 13. Perhaps an additional reason why Emperor Nicholas desires to meet the enemy is that he carries on his body the mark of a wound inflicted by a fanatical Japanese policeman when he was attacked in a theatre at Otsu, during his visit to Japan in 1891, only being saved from death by the noble action of his cousin, Prince George of Greece. Should he finally conclude to go His Majesty would not asume active command of the troops, but would have an Imperial headquarters, taking with him all the members of his military Cabinet. Being on the spot, the Emperor would more easily advise Gen, Kouropatkin in the event of any question of great military moment which he might desire to submit to His Majesty. It is noteworthy that superior arms and ammunition, manufactured at Lhassa, are being used by the enemy. The manufacture is rough but effective, and the range is about 1,000 yards. Yesterday I rode from the Karola to Gyangtse with a small party, leaving Col. Brander's force at Yatung. On the route the villagers were friendly, and ploughing and sowing were going on everywhere. We arrived here after dark, and found a striking change. The whole place is invested by Thibetans firing jingals from the jong (the old castle), and occupying large adjacent farmhouses.

Col. Younghusband and the garrison are in good health and in the best of spirits. The story of the attempted surprise on the morning of the 5th is dramatic. The Thibetans actually gained the walls of the compound unnoticed, but their shouting betrayed their intention just in time for the defenders to take up their positions. Otherwise, no doubt large numbers of the enemy would have followed. The sick men in the hospital insisted on joining in the fighting, and the mission servants were valuable, both in the defence of the walls and the subsequent chase of the enemy.
