coins and even mummies.

Along the bank on the Luxor side of the river, in the shop of Ahmed Abd-el-Rahin, there is an astounding bargain in mummified babies and one in particu-lar, which he pretends is 3,000 years old, is offered for the trifling sum of \$12. The circumstance is not without its pathetic side; nevertheless, the first impulse of the average man is to laugh when the honorable Ahmed comes forth with the gay little case covered with hieroglyphics and tells you it is a baby and urges that it be taken to America.

The curious part of it is that many tourists do buy these tiny mummies, which to all appearances are genuine as to age. Tourists buy also the mummy cloths attend and the mummy cloths attend and the mummy cloths attend and the same as to age. cloths tattered and torn and stained, although wonderful in color and design, that have been wrapped around the dead bodies of the ancient Egyptians. Also the vendors of separate hands and feet seem

It is in Luxor especially that mummics are sold, and tourists are frequently seen dickering with boy venders on the street for their store of detached hands,

street for their store of detached hands, feet or fincers. Selling dead things seems to be a mania in Luxor.

While our party was returning from a visit to the tombs of the kings a veiled woman riding a donkey offered for sale a becautiful green beetle which she had found on a palm tree and had impaled. A little further on a small sirl carried A little further on a small girl carried a dead sparrow which from pure instinct she held out for sale

Dealers in scarabs are in evidence everywhere on the streets and the traveller can buy these quaint ornaments by the hundred, by the dozen or by the in the way of antiquities aside from pieces of mummies, for when they do find in the way pieces of mummies, for when they do line them they sell them at good prices to shonkeepers, who know where to dis-

Tiny clay or mud statues of the great Ramesea II. are for sale at any price. It would no doubt please the great King, who so desired to be remembered that he erected dozens of temples to his glorification, to know that a Rameses bar in Luxor dispenses whiskey and soda to weary travellers and there is a Rameses antiqueshop and any number of don-keys are named after the ancient ruler.

keys are named after the ancient ruler.

Donkey riding in Luxor is one of the joys of the tourists, for the best aniall Egypt are to be found here. and a visit to the native shops and later a gallop along the banks of the Nile by mains long in the memory. Donkeys are hired by the day or by the hour, the price by the day being only two shillings with a small backsheeth for the donkey boy who runs constantly behind.

These donkey boys are marvels in the matter of endurance. It is fully twelve miles to the Tombs of the Kings and re-turn, yet the donkey boys keep close be-hird all the way, whether one gallops or trots, and in addition they carry lunch baskets, cameras or any other parapher-nalia that the tourise may wish to have

along.

The dragomans of Luxor are also exenormous key which he uses only as a paperweight. One day a patient, point-tues and stating their experience, trust-tworthiness, etc. One rather clever at reading faces picks out the Americans at onec and tells them that he was dragoman to Bishop Potter, who made the Nile trip last year.

Another and the arrival of train or steam of the uses only as a paperweight. One day a patient, point-tworthiness, etc. One rather clever at reading faces picks out the Americans at one and tells them that he was dragoman to Bishop Potter, who made the Nile trip last year.

Another and a very good one Mo-hammed Abdalla claims attention because he helped George Ade to find the temples and tombs. Both had books filled with recommendations and it was interesting to note the names and addresses from across the Atlantic. Some of the dragomans speak several languages in a quaint fashion, although quite well enough the male. ough to make themselves understood.
French is the principal language of Egypt
aside from the native Arabe.

traversing the Nile is now almost un-heard of, for the majority of dahabeahs are constantly becalmed, or they get stuck in the mud and have to be pulled off so often that the romance and com-fort flee, and the choice is given to an up to date steamer with strong engines and a competent crew of native naviga-tors.

tors.
No river in the world is more difficult Five hundred miles up the Nile, at Luxor, the thing which most impresses the average tourist is that there, hundreds of miles from the modern world, with the desort on one side and the mysterious river on the other, there is a veritable Palm Beach of hotels marking the foreign invasion of the last few years. All Egypt seems to be imbued with the spirit of digging, says Leslie's Weekly. Everywhere one will see men and women, and even enilleren, poking about in the sand and among the rocks in search of secreted tombs. In Luxor the diggers are frequently rewarded with finds of beads, coins and even mummies.

No river in the world is more difficult to negotiate than the Nile for it has as many moods as there are hourse in the ourself of the sure are hourse in such a short time that while one day the deepest part of the sine in the very middle, the next day finds it safer for the steamers to keep clere to the bank. For this reason, escepis, the same and women, and even children, poking about in the same and the current of the same and the current of the sire amany moods as there are hourse in the world is more difficult to negotiate than the Nile for it has as many moods as there are hourse in such a short time that while one day the deepest part of the river to the bank. For this reason, escepis, the next day finds it safer for the steamers to keep clere to the bank. For this reason, escepis, the next day finds it safer for the steamers to keep clere to the bank. For this reason, escepis, the next day finds it safer for the steamers to keep clere to the bank. For that while one day the deepest part of the river to the current of the same and the current of t

coffee in small kettles, then grind and boll it over the same fire. The women with their water jars also form pictuesque groups along the banks for all water for household use is brough by the women from the river. Many of the women are unable to lift the heavy jars when they are filled, but after they have once been hoisted by their companions the weight is so balanced that it is not felt.

According to the Koran the men of the Mohammadan faith are required to wash their faces, hands and feet every time they pray. As they pray five times a day, the banks of the Nile present a sort

of perpetual bathing scene.

The women do not pray and consequently do not wash so frequently and their appearance is representative of what Egyptian cleanliness would be were t not for the Koran. At the various landings the natives swarm about with delicious oranges for sale.

Minard's Liniment Cures Colds, etc.

THE COLD KEY

A Popular and an Ancient Remedy for the Nosebleed.

In cases of hemorrhage, especially in those of bleeding from the nose, our forefathers applied to the forehead and to the nose ointments, and even the patient's own blood. They practised ligation of the limbs, a means devised by Apollonius in the reign of Nero, ligating the hundred, by the dozen or by the piece and at all prices. It is seldom that the street dealers have anything genuine to derivation by bleodletting. They

plugged the ears with tow, a procedure recommended by Galen. But above all they sought to produce fainting. Locally, the haemastatic most employed was spider's web, with which they filled the nasal fossa. Of all these empirical procedures the most widespread and the one cedures the most widespread and the one still most employed in popular medicine in the application of cold. The most available source of cold, because it is everywhere procurable, is water, consequently it has oftenest been employed. In epistaxis the ancient physicians advised bathing the face with very cold water and causing it to be held in the mouth; they also soaked the hands and

feet in cold water.
On the theory that cold things restrain op along the banks of the Nile by his a unique pleasure which relong in the memory. Donkeys are by the day or by the hour, the by the day being only two shillings small backsheeth for the donkey marble or articles of iron. Physicians pointed out, indeed, certain regions with which it was preferable to make the contact. They realized that it was the coldness of the object, not its nature, that did the work; no special property must be attributed to the iron, said Guyen-Dolois, for chains of gold, silver or lead would say a the arms. would serve the same purpose. In pepular medicine, however, iron has remained the material most employed in nasal along.

The dragomans of Luxor are also excellent and far better than those found in Cairo. Upon the arrival of train or steamer a small army of these guides rush up with cards extolling their virtues and stating their experience, trustitues and stating their experience trusting to this massive key, exclaimed: "It

> tain action in case of hemorrhage. It contracts the capillary vessels. When it is applied at a distance from the site of hemorrhage its efficiency may be a matter for discussion, but its effect is certain the site of the site. tain when it is applied to the actual seat of the bleeding, and rhinologists know of the bleeding, and rhinologists know the value of causing the patient to ordi-low ice. Possibly the cold key has no other haemastatic power than what is connected with the sensation of cold which it produces; a cold compress would probably act with more certainty, but it would be difficult to dethrone the key, which one always has in one's pock-et. There is certainly some wisdom is the resuorees of our ancestors, and of the common people, even as the alchemists of old were no fools, as is shown by our modern chemistry.—From the New York Medical Journal.

COST OF A 'POSSEM DINNER. A tourist in Georgia stopped overnight a the Palace Hotel, in a little village, and egpressed a desire to taste Georgia 'possum, acording to the Atlanta Constitution.

A whole 'possum cooked in genuine Geor-sia etyle, with 'taters on the side, was plac-ed before him. Two dollars extra for the 'possum," said landlord, when the guest came to set-

the.
"It's an outrage!" seid the guest.
"It's 'cordin' to the way you look at it,
't't's 'cordin' to the way you look at it,
estranger," said the landlore, "but it book
me six nights' swamp wadin' to ketch that
bossum, an' when I kotched him I kotched
the rheumatism with him."

Fudge for Hallowe'en.

At the same time to the seft ball stage. At the same time stir one cup of sugar over the fire until it becomes caramel. Pour the first mixture into the caramel, and let boil up once. Take from the fire, and beat until thick, adding at the last half a cup of citron, candied cherries, pincapple and plums cut fine, and one cup of pecan-nut meats. meats.

NO, INDEED.

Patient—Doctor, do you think that people are occasionally buried alive?
Doctor (reassuring)—It never happens to my patier.

For a city of more than two million nhabitants Vienna certainly enjoys an mazing immunity from fires. The report of the city fire department, just issued, shows that the total lesses from fire in 1906 were less than £26,000. The department cost the city about £60,000.

1 £60,000.

In all there were 1,100 fires, an average of a little more than three a day. Of these thirty-seven were classified as large, 156 medium and 976 small fires. Thirty-four were in public buildings, 426 in private houses and 109 in the streets. The small total of the aggregate less is due not early to the activity of the fire department, but also to the very solid construction of all buildings in the city public and private alike. While practically the whole population live in flats, it is seldom that a fire will extend beyond the apartment in which it breaks sut.—Vienna correspondence Pall Mall out.-Vienna correspondence Pall Mall Gazette.

TROUSERS OF RECENT ORIGIN.

A Hundred Years Ago Methodists

Thought Them Immoral. The modern custom of wearing trousers was taken from the military dress introduced into the army by the Duke of Wellington during the Peninsular war, says the Tailor and Cutter. In early days these were known as Wellingto

trousers, after the duke.

When they were coming into general use at the commencement of the teenth century, the religious world and the fashionable were most determined in their opposition. A clause in the original trust deed, dated 1820, of a Sheffield Nonconformist chapel provided that "under no circumstances whatever shall any preacher be allowed to occupy the ulpit who wears trousers."
But this was not all. Some doubts

were expressed in many quarters con-cerning the question whether a man cerning the question whether a man could be religious and appear in trou-sers. One of the founders of the Primitive Mothodist body remarked to a cal-league in the ministry that "trousers wearing, beer drinking so and so will never get to heaven."

Father Rece, a famous Methodist min-ister, twice president of the conference

laster, twice president of the conference (born in 1765, died in 1850), could not be induced to adopt trousers, and among the Methodists was the last to fellow popular fashion in this respect.

How to Clean Sewing Machine. Sewing is not half as hard as some people find it if the sewing machine is kept in good running order. When the sewing machine works hard and heavily take the needle and shuttle out and give take the needle and shuttle out and give every joint and bearing a generous bath of gaseline. Of course, there should not be a lighted lamp or fire of any kind in the room. Turn the wheels briskly for a few mements, to enable the gaseline to penetrate every part and to loosen and wash away the old oil and grime. When all the grime and oil has been removed oil with preser labricating oil running. oil with preper labricating oil, running the machine for two or three minutes before inserting the needle. Now, with piece of chamois skin, wipe away superfluone oil. It is a pleasure to sew on a machine treated in this manner.

Social Clubs in Cuba.

There are social distinctions in Cuba based upon celor; there are not one but several celor lines, though these are not eternal, hard, fast and unchangeable, as in the United States. In Cuba social life is run largely by social clubs. There are in almost every town and village negre clubs, two or three grades of mulatte clubs and white clubs. In one and at its functions may appear the husband, excluded the wife; in another the wife but not the husband; in a chird their children, but neither the father nor mother. To the world this will appea incredible, almost incomprehensible; here it is convention, fixed, settled, accepted and operative. These distinctions, however, run but for a lifetime. By crosses
from generation to generation, though
some deny it, men ascend. A little of
the blood if it but be decreasing is not
remembered against them forever.—
Army and Nayy Life.

To Cure a Dog's Fear of a Gun. Any dog can be cured of gun-shyness if you take enough trouble and exercise enough patience. The process proceeds on the inference that, since he is alarmed because of memory or fear of disagreeable circumstances, he must learn to associate the gun with the agreeable.

QUICKLY

It is best to apply the treatment when the dog is on game. In probably four cases out of five, he will quickly learn to disregard the gun, or like it, if you let him hunt up the game and chase ti, shooting when he is at a distance and shooting when he is at a distance and in hot pursuit. Often gun-shyness disappears the very day he makes his first solid point and becomes deeply interested in the business. In the midst of this new delight, he disregards and forgets other matters.

Sometimes the fear is too strong, and a regular treatment must be under-

and a regular treatment must be under-taken. Oftener the owner will have a short shooting season and does not care to take chances on a quick cure. His dog must be gendy for business when the season opens. So, it is necessary to know the systems which have been succossful in dealing with this trouble.

Once before I told about the man who

put his bird dog to chasing cats. When the eat was treed, he would clap his hands and "sick" the dog into excited attack. At this psychological moment he would fire blanks from a small pistol. Two or three treatments usually suffic-ed--From "Gun-Shy and Elinking Dogs," by Joseph A. Graham, in the Outing Magazine for October.

SELFISH SALVATION-SEEKING. To be saved means, net to get something, but to give something. When we have given ourselves and all that we have to Christ and his service, we rehave to Christ and his service, we receive, it is true, more than we can ever give; but if that is our ehief surpose in so doing we have not caught the spirit of Christ's message. "Individuals who seek religion for heaven alone are merely bargain-hunters," is the searching way a Chautauqua speaker is reported to have put the truth. Getting saved merely for what he can get out of it for ourselves is a selfish and unworthy way to seek salvation. But to come to Christ is jeyous aseptance of His salvation because only in Him can we live a life that counts, is to seek salvation for what it will make us worth to othfor what it will make us worth to others and that is what Christ wants us to ers and that is w think most about.
