WHIMS OF THE DAY.

A century ago they were popular. To-day people want something easy to apply, certain in results, and, above all, a clean liniment. When Nerviline is applied aches and pains disappear as the pores absorb its soothing, healing properties. Nerviline penetrates to the core of the pain, cases instantly, and leaves no oily, had smelling memory behind. GREAT CARLIST CRISIS

MOST SERIOUS WHICH HAS ARIS-EN SINCE ALFONSO'S BIRTH.

This Time It Has the Support of Clergy and Religious Orders, Which Were Formerly Kept From Giving Free Rein to Their Sympathies by the Late Pope Leo-King Breaks With Vatican.

King Alfonso of Spain is confronted by the most serious Carlist crisis that has ever arisen in the peninsula since his birth, twenty years ago, writes the Marquise de Fontenoy. For on this occasion the Carlists have the support of the clergy and of the religious orders, whose influence over the masses of the whose influence over the masses of the population, particularly in the rural districts, is greater than anywhere else

districts, is greater than anywhere else in Europe.

As long as Leo XIII. was alive he exerted all his authority to prevent the clergy and the religious orders in Spain from giving free rein to their notorious sympathies for the Carlist cause. Young King Alfonso was his godson, and Cardinal Rampolla, his secretary of state and principal adviser, had been nuncio at Madrid at the time of the young king's birth and a trusted confidant and warm friend of the widowed queen regent. Leo was determined that his godson should remain on the throne, and threatened with all the pains and apparities of the widows. penalties of the church any of the Spanish ecolesiastics who should ven-ture to conspire against his royal pro-tege. That was King Buried in Iceland.

In Iceland it is the boast of the native that "only one king is buried here." That was King Roerek of Norway (vide Snorri Sturiuson's Saga, "Heimskringia"), whom Ring Olaf the Holy "shipped," with the significant hint that he need not be in any hurry to return to his native land. Roerek, who was a shrewd, peaceably minded monarch, took the hint, went to Iceland and a thousand odd years ago settled down to farming "at a little stead height, Calfskin, where were but few which prevails between the church and state in France. A remarkable feature about the pressent Carlist recrudescence is the large nums of money which now are being pent in connection with the movement and which are said to be furnished by he religious orders and grantagularly. the religious orders, and particularly by the Jesuits. One of the difficulties with which the Carlists have had to contend during the last two decades has been the lack of money, which is indispensable to the success of all poli-

tical or revolutionary movements. True Don Carlos himself is rich, thanks to his enjoyment of a life interest in the enormous fortune of his first wife and to his refusal to accord any share thereof to the children which she bore with his money, save where his own comfort and the extravagance of his present nonroyal wife, Bertha de Rohan, are concerned. He has resolutely declined to contribute a penny piece to the Carlist cause or even to relieve the wants and destitution of veterans of his cause who have sacrificed their property and their liberty for his sake, while he is so niggardly in his treatment of the four children by his first wife that two of his daughters are suing him for at least a share of their dead mother's at least a snare of their dead mother's fortune. It is certain, therefore, that it is not he who is furnishing the money in the present instance.

Nor does it come from his only son, Don Jaime, the active head of the move-

Don Jaime, the active head of the movement, whose allowance is so small that he has been obliged to pawn his jewelry in Paris, as revealed by a sensational lawsuit there last year. The nobles and capitalists in Spain possessed of wealth are not disposed to risk its confiscation for the sake of a pretender who declines to subscribe towards his own cause. It looks, therefore, as if the story were true according to which the religious orders are financing the present Carlist movement.

the menace of a full-fledged Carlist insurrection it is impossible to say. But
it is worthy of note that a number of influential Carlists have disappeared from their homes in Spain, presumably having gone to join Don Jaime, and that troops are being massed along the northern frontier line and sea coast to resist any Carlist descent upon the shores or invasion through the Pyre-

ness.

Don Jaime, the only son of Don Carlos and the acknowledged leader of the militant branch of the Carlist cause, is militant branch of the Carlist cause, is liable to prove a much more dangerous adversary than his father ever was. For, unlike the latter, he is a soldier by profession, has seen a considerable amount of active service in the Russian cavalry, and was one of the few princes of the blood who went through the war with Japan in Manchuria. He received his education at the Jesuit College of Beaumont in England, is a clever, forceful writer, an accomplished man, and possessed of much personal magnetism, which, combined with his reputation for reckless bravery, contributes to render him popular. In fact, he possesses all the qualities needed for the leader of an insurrection, and unless something unforeseen occurs, such as the complete surrender by the Spanish Government to the church, it will not be long before he will raise the standard of revolt in Spain and sol-

"Don't you think," said he, speaking with the greatest deliberation and solemnity, "I shall appear as a swift witness against you in the day of judgment?"

"I presume so," said one, "for the biggest rogues always turn State's evidence."
