French Government Accepts Franco Canadian Tariff.

FINANCE MINISTER FIELDING. Paris, July 13.—The Chamber of Depu ies to-day adopted almost unanimously he amended Franco-Canadian treaty, with the concurrence of the Senate.

Under the terms of this treaty Canada will receive all the minimum rates of the French tariff, with the exception of the rate on cattle fattened for slaughter, which will pay the general tariff. The treaty recently passed the Senate and Chamber, and was then referred back to the Tariff Commission following a supplementary arrangement which gave France additional advantages.

The report of the Tariff Commission was favorable, and the treaty as amended came up for discussion yesterday.

Ottawa, Ont., July 13.—A cable has been received from Paris by Sir Wilfrid Laurier announcing that the French Chamber of Deputies has finally ratified the Franco-Canadian Trade Conveltion as negotiated by Hon. Messrs. Fielding and Brodeur, in 1907, and amended in a few minor particulars by a sub-convention last January.

The new treaty, however, cannot come into force until the Canadian Parliament has ratified the additional sub-convention drafted last January. The main convention was ratified by Parliament in the session of 1908, but last session, owing to delay of the French Chambers in assenting to the new tariff, the Canadian Government decided to defer further action pending the outcome of the

Parliament will be asked early news. Parliament will be asked early nessession to formally endorce the sub-convention referred to. Then all that will remain to bring the new treaty into operation will be the formal exchange of ratifications at Paris. This will be arranged to suit the convenience of French and Canadians governments. It is unlikely, however, that this exchange of ratifications will take place before January 1st, next year, and possibly not until March 1st.

Believed to Have Been a Cutter In This City.

Toronto, July 13.-Mrs. George Rae was admitted to St. Michael's Hospital on Friday evening suffering from internal injuries and a broken arm, In explanation of her condition Mrs Rae told the doctor who attended her that her husband had beaten her with a broom handle. Yesterday morning the patient's condition taking a serious turn, the police were notified, and Detective Montgomery at once went over to ob tain particulars, and, if necessary arrange for an ante-mortem declaration. The husband, who resides at 390 Church street, was at once communicated with and informed of the statements made by his wife on her admission to the hospital. He was also cautioned as to their seriousness if borne out by the result of the investigation at once started by the police.

Rae denies emphatically that he laid hands on his wife or chastised her with a broom handle. He says that on Friday afternoon she accused him of stealing \$11 from her. She was then under the influence of liquor and he advised her to go down stairs again and cool off. Going down she kept referring to the money she claimed he had taken, and insisted that she could prove he had stolen at least \$7. This Rae repidiated, and in a fit of anger his wife threw at stolen at least \$7\$. This Rae repudiated, and in a fit of anger his wife threw at him a pair of scissors. Her aim was bad and the scissors struck the wall. At the same time she missed her footing and fell down stairs. She got up apparently uninjured, but soon after both she and her husband realized that she must have been hurt, and she was taken to the hospital.

Later on Mrs. Rae sold the property against her husbind's wishes for \$13,000, a sum much under its value, and the purchaser has since disposed of it for \$50,000.
