When it comes to the question of buying clothes, there are several things to be con sidered.

You want good material, you want perfect fitting qualities, and you want your clothes to be made fashionable and stylish, and then you

## **Be Careful**

OF YOUR EYES. Don't let them become strained or overtaxed when the use of glasses will obviate any weakness or difficulty of vision. If you need spectacles the sooner you will get them the greater service they will render you. If you will let us examine your sight, we can determine the question of what you need, and supply the proper glasses.

By procuring from us you save the exorbitant charges too often made by agents and avoid the possibility of getting a wrong glass with no chance of changing.

If not convenient to come in, and you send us some particulars of your requirements we could mail a pair of eyeglasses or spectacles out for you to try, but a visit to us would be more satis-

Easy to use, requires no tools and mends quickly Every housewife knows what it is to discover a hole in a pan, kettle or boiler just when she wants to use that article. Few things are more provoking and cause more inconvenience, a little leak in a much wanted pot or pan will often spoil a whole mornings work.

The housewife has, for many years been wanting something with which she could herself, in her own home, mend such leaks quickly, easily and permantly, and she has never found it.

What has been needed is a mender like "VOL-PEEK. that will repair the article neatly and quickly and at the same time be always at hand, easily applied and inexpen-

A package of " VOL-PEEK" will mend from 30 to 50 air sized holes.

"VOL-PEEK "is in the form of a still puty, simply cut off a small piece enough to fill the hole, then Burn the mend over the flame of a lamp, candle or open fire for two minutes, then the article will be ready for use.

Sent Post Paid to any address on receipt of 15 cents in Silver or Stamps
