RECIPROCITY OF TRADE.—The question RECIPROCITY OF TRADE.—The question of reciprocity is at present engaging the attention of some portion of the people of the United States. Suspension BRIDGE .- We learn from a correspondent at the Falls that from recent examinations of the banks on each side of the Niagara River, it is highly probable that the length of span of the Bridge will be reduced some 20 or 30 feet, which of course will lessen the expense, and con-sequently increase the value of Stock. The estimated length at first was 800 feet. The Contractors are now fairly under weigh and the foot Bridge is confidently expected to be passable by the first June next.
