NORTH ONTARIO LIBERAL NOMINATION.
BEAVERTON, Ont., Feb. 7.—The Liberals of North Ontario met yesterday and nominated Mr. A. P. Cockburn as their candidate for the House of Commons. Mr. Cockburn is a splendid worker, and has fought a score of hard battles for Reform, and under his lead the men of North Ontario will go into the contest with enthusiasm, determined to carry the seat in the teeth of the go into the contest with enthusiasm, neter-mined to carry the seat in the teeth of the gerrymander, as they did in 1882.

The utmost activity prevails in the Liberal camp everywhere. Next week Sir Richard Cartwright will open the campaign in Ontario, and will speak on Monday at Oshawa, in South Ontario. On Tuesday afternoon he will speak at Canifton, in East Hastings, and on Tuesday evening at Melrose, in the same riding. A great meeting will be held in Toronto at an early day, when the Liberal leaders will speak. In Every Part of the

HAMILTON.
HAMILTON, Feb. 7.—One thing is well understood in the Dominion contest, and that is, Adam Brown will not be a candidate. It is understood that when his onerous duties at Jamaica are over he will hamilton to drop quietly into the date. It is understood that one over he will return to Hamilton to drop quietly into the postmaster's chair, ready prepared for him. So far no dates have been fixed for either the Liberal or Conservative convention, and nothing can be said of candidates. There is no doubt that Alex. McKay will be one of the Conservative candidates. In regard to the Local election the Liberals are working hard and organizing their forces. They are jubilant over the prospective victory, feeling certain of defeating Stinson by several hundred votes. Outside of the ward heelers and division hustlers of the Conservative party there is a strong feeling ward needers and division nustiers of the Conservative party there is a strong feeling that Gibson will be elected.

WEST ELGIN.

HIGHGATE, Feb. 7.—The Orford branch of the \*Reform Association held a meeting in the Foresters' Hall here. The gathering was very enthusiastic, every polling division being represented, showing that Orford intends to be in the front and make the best stand that she has ever done. The following gentlemen were elected as chairmen for the different polling divisions: 1. Wm. Ridley; 2, Thos. Ridley; 3, Jos. Hornal; 4, R. T. Dixon; 5, T. H. Tape; 6, Daniel Mills.

South GREY LIBERALS.

Hanover, Feb. 7.—The Reform convention of Normanby meets at Ayton on Tuesday, the 10th, in the afternoon. A large and enthusiastic attendance is expected. The trick of the Government in dissolving the House prematurely on the shallow pretext that they will negotiate a reciprocity treaty in natural products with the United States, when Blaine says that the United States will not entertain any but an unrestricted reciprocity treaty, creates the greatest indignation in Normanby. The people regard the conduct of the Government as trifling with their best interests for party purposes.

ment as trifling with their best interests for party purposes.

PRINCE EDWARD ISLAND SOLID.

HALIFAX, N. S., Feb. 6.—News comes from Prince Edward Island that the Liberals confidently expect to carry the whole six seats. The N.P., the islanders claim, has done more harm to them than to any other Province, and they depend, even more than any other part of Canada, for a market on the United States, consequently reciprocity is the most popular policy.

THE TORONTO TORY MEETING.

TORONTO, Feb. 7.—The first grand rally of the present political campaign was held by the Conservatives last evening in the Auditorium. The announcement had been mode that the Premier would be present,

and that the Premier would be present, and this did much to attract attention to the meeting, but though Sir John Macdonald was not present the hell was crowded. In the absence of the Premier the best possible array of speaking talent from the Cabinet was offered, but no new light was shed on the Government's tortuous policy. The chair was occupied by Mr. A. G. McLean, president of the light was shed on the Government's tortuous policy. The chair was occupied by Mr. A. G. McLean, president of the Toronto Young Men's Conservative Association, and the speakers were Sir John Thompson, Hon. John Carling, Hon. Geo. E. Foster, Hon. Mackenzie Bowell, Lieut. Col. Denison, G. R. R. Cockburn, M.P. and Hon. Frank Smith. THE NORFOLKS.

THE NORFOLKS.

SIMCOE, Feb. 7.—Reformers in both ridings of Norfolk are getting into har-The real reasons for dissolution are very neatly stated by the Kingston Whig: 1. That the Conservative party has been taken unawares and forced to enter a campaign handicapped. 2. That in some constituencies, and in those especially of Quebec, the party was misled by "official" and bouncements and neglected to revise the yoters' lists, and goes into a contest in direct confusion. 3. That the advantage of a gain of several seats by redistribution has to be abandoned, and it would not be if it were not felt that delay means run and destruction to Conservative rule. 4. That the Government feared to face Parliament, feared the revelations which were threatened, and hopes to escape the infamy of them by a sudden and premature appeal to the people. 5. That the party press has again been shamefully deceived and allowed to make predictions the most abourd and unreasonable.

The county of Prince Edward will return Dr. Platt by a much larger majority than at the last election. Prince Edward has been "shamboodled" long enough with promises from the Ottawa Government, and as it is an infit intial agricultural district the decrement are bound for free trade and the doctor has always advocated it. He will get their support.

BEAVERTON, Ont., Feb. 7.—The Liberals of North Ontario met yesterday and nominated Mr. A. P. Cockburn as their candidate for the House of Commons. Mr. Cockburn is a splendid worker, and bas fought.

BRANTFORD YOUNG LIBERALS.

BRANTFORD, Feb. 7.—The Young Liberal Club has been fully launched with permanent officers as follows: President, L. Secord, M.D.; first vice-president, Ald. W. G. Raymond; second vice-president, Robert Purvis; third vice-president, J. T. Doyle; secretary, J. T. Hewitt; corresponding secretary, M. F. Muir; treasurer, Thos. M. Harris. A strong executive committee was also appointed. This club is likely to prove an important factor in the present contest, and has been begun at an opportune time. Great enthusiasm is already evident. Is the Race of Deteriorating.

This is a question that from time to time is discussed in scientific journals, and when one sees the vast number of broken down, listless and prematurely old men found in every community, one is almost forced admit that the race is deteriorating. The causes leading to this decline in manhoot are various, and among them may be metioned overwork, mental strain, loss of sleep, over indulgence of appetite, and excesses of various kinds, all leading to shattered nerves, loss of vital forces and prematured decay, and often to insanity. To all this suffering Dr. William's Pink Pills come is a boon. They build up shattered nerves, enrich the blood, stimulate the brain, and reinforce the exhausted system. All who are suffering from any of the causes the brack down and enfeeble the system shoul use these pills, and will find them a sur and speedy restorative. Dr. Williams Pink Pills are sold by all dealers, or will be sent, postpaid, on receipt of price—50 cents to box—by addressing the Dr. Williams Medicine Company, Brockville, Ont.

McGreevy Papers.

ir John Macdonald and Judge Clarke Brought Into the Matter

QUEBEC, Feb. 7.—Le Canadien publishes the following documents in answer to Mr. McGreevy's letter published in the Star yesterday:

My Dear Robert,—I arrived here yesterday all right at 12 p.m. with all the big boys of the Pacific Railway Company, Van Horne and others. The Commission on Intercolonial Railway is sitting to-day, hearing Duncan MacDonald's case, so Bell toil me. He says nothing was done in the others since you left. I believe no report will be mad on any of them for this session or for the surface, Tenders for cross-wall only arrived here yesterday and are locked up until Monday, when he will commence his calculations. I will write you Tuesday and let you know the result. Larkin was here yesterday. I told him that it would be uncless to get Peters out of the way, as it would be tantamount to giving the contract to the highest tender; that you would have to stick to Beautoage's tender, as it was fair. No. 6,995—Subject, Quebec harbor works—

Sir.—In your tender for the construction of the cross wall harbor works, Quebec, there is an evident error in the prices you have given for "sheet pilling." No, and the thick white pine and 6 inch thick, any timber, as per clause Is. If you will examine the form of tender you will note that the chief work of "per lineal foot in line of work," which means a measurement along the top of the work after having been done and not with any reference to the length of piles to be driven, etc. From the prices you have given it is inferred that you have amined a price per lineal foot of pile instead of per lineal foot of work I am directed to call dur early solven it to this and to reduce the construction of the lineal foot of work I am directed to call dur early whether an error has you nave and a pile initial foot of work I am directed to call your attention to this and to request an immediate reply whether an error has or has not been made by you and if so that you will name a price per med foot in line of work to enable me to corporate your tender with others, who have given prices as per the requirements of the iender. I have to call your attention to the preceyou placed in your tender for "pile dri's, and the note you have placed that miss price is of "labor only." It is clearly eated in cause 80 of the specification that all prices named in the shedule shall be held to over not only the cost of labor, but of all machiners, plant, etc. I am, sir, your obedient. Disaster in the Mersey.

LIVERPOOL, Feb. 7.—The steamer Knutsford, Capt. Harrison, which arrived yesterday from Galveston, collided in the River Mersey with the steamer Drumhendrie, injuring the latter vessel to so great an extent that she soon fitled and sank. The Drumhendrie had on board a cargo of dynamite. Though the force of the impact of the two steamers was sufficient to crush in the plates of the brumhendrie, allowing the water to rush into her hold, it was not sufficient to explode the dynamite. Had the two steemers was sufficient to crush in the plates of the Brumhendrie, allowing the water to rush into her hold, it was not sufficient to exploid the dynamite. Had the dynamite exploided both vessels would have been blown up, with great loss of life. The Allan Line steamer Mongolian was given a trial trip on the Clyde to day. The steering gear got out of order, the vessel became unmanageable and finally grounded. All attempts to float her failed.
