Scrofula

This root of many evils-

Glandular tumors, abscesses, pimples, and other cutaneous eruptions, sore ears, inflamed eyelids, rickets, dyspepsia, catarrh, readiness to catch cold and inability to get rid of it easily, paleness, nervousness, the consumptive tendency, and other ailments --

Can be completely and permanently removed, no matter how young or old the sufferer.

Hood's Sarsaparilla was given the daughter of Silas Vernooy, Wawarsing. N. Y., who had broken out with scrofula sores all over her face and head. The first bottle helped her and when she had taken six the sores were all healed and her face was smooth. He writes that she has never shown any sign of the serofula returning

GOVERNMENT SALARY IS NO INDUCEMENT.

Legal Adviser of Hunter Commission Resigns to Practice on His Own Account.

[Special to The Advertiser.] Ottawa, July 22 .- A private dispatch from Vancouver, B. C., says that Mr. Congdon, the legal adviser of the Hunter commission at Dawson City, has resigned his position and will practice law at Dawson on his own account. Mr. Congdon was formerly of Halifax, N. S., and was appointed a few months ago to take the position of Mr. Cle-ment, K.C., who had resigned as legal adviser and a member of the Yukon commission. It would appear that the salaries paid to lawyers by the government in the Yukon is not at all equal to what they can make on their own account.

Judgments Delivered by Chief Justice Meredith in Which Local People Are Interested.

Before Meredith, C. J.—Re Tatham—Judgment (H.) on originating notice under rule 938, heard at London. Held (1) that the widow is entitled to the goods and chattels in dispute under R. S. O., chap. 77, sec. 4; R. S. O., chap. 127, sec. 4 must be read with R. S. O. chap. 77, and sec. 4 of the former as subject to the provisions of sec. 4 of the latter; (2) that if the widow takes the piano, which is owned by her, but specifically bequeathed to a son of the testator, she must make good to the son its value out of the property bequeathed to her; (3) the amount of insurance policy, but for the apportionment by the will of \$500 to the son and \$1,500 to the widow, would under R. S. O. \$1,500 to the widow, would under R. S. O., chap. 203, sec. 159, sub-sec. 7, be divided equally between them, but owing to the apportionment, and there being nothing in apportionment, and there being nothing in the will to indicate a contrary intention, and there being no reference to the debt due the insurance company on the polley, the gift to the widow must be specific and therefore so much of the debt as is not satisfied out of the general personal estate must be paid pro rata out of the respective shares of son and is not satisfied out of the general personal estate must be paid pro rata out of the respective shares of son and widow; re Butler, 3 Ch. D., 250. Costs of executors to be paid out of insurance moneys. No costs to other parties. A. O. Jeffery (London) for executors; T. H. Luscombe (London) for the son; R. K. Cowan (London) for the widow.

Before Meredith, C. J.—Bennett vs. Wortman—Judgment (H.) in action tried at London on the question reserved as to the right of defendant to sell the sadirons manufactured by him during the four months he was assignee of the plaintiff's patent, after the expiration of that time, and after he had elected not to purchase the patent and reassigned to plaintiff. Held, that whatever may be the effect of R. S. O., chap. 61, sec. 28, the court by sec. 31, has jurisdiction to restrain the sale of a patented article by one who has no legal right to sell it (and that is the remedy which the plaintiff here seeks), and a sale of the sad-irons is constituted. that is the remedy which the plainting here seeks), and a sale of the sad-irons in question would be an infringement of the patent; Bloomer vs. Quewan, 14 How per Taney, C.J., U.S., at pp. 549. See also Bloomer vs. Millinger, 1 Wallace 340, Brooks vs. Bicknell, 4 McLean at pp. 67. Injunction granted restraining defendant to make the second of the sec from selling. Defendant to pay costs of action except as to matters in which he has succeeded, the costs of which plaintiff must pay. U. A. Buchner (London) for plaintiff; I. F. Hellmuth and T. H. Rheumatismisa Constitutional Disease Rheumatismisa Constitutional Disease

The pain and localized conditions are mere results of constitutional conditions. Poisoned blood sends its evil influence to various parts of the body, and to cure permanently you must treat it constitutionally. Nothing so completely dispels these poisons from the system as Ferrozone. It makes new blood. It imparts vitality and vigor, enabling the system to throw off the poisons that engender rheumatism. Ferrozone also fortifies the system against the weakening effects of rheumatism, and cures, not simply relieves, as most medicines do. Sold by W. T. Strong & Co.

STRIKE LEADER IS CONFIDENT!

Says the Companies' Plans Have Been Frustrated.

HIGH COURT CASES Striking Steel Workers Claim to Have the Upper Hand in Present Contest.

> Cleveland, Ohio, July 22.-John F. Ward, vice-president of the Amalgamated Association of Iron, Steel and Tin Workers, for the sixth district, says that he has completely frustrated any attempt of the American Steel Wire Company to start its Newburg hoop plant in operation, despite contrary reports made by the com-

> "It has been reported to me, from time to time," says Mr. Ward, "that the company is attempting to lure away from the union affiliations to start them to work. I have heard that they are trying to stampede the union men who are sympathetically with us. Their efforts are useless. They can do nothing. We have anticipated their every move, and their efforts will appear ridiculous later on."

MEETING OF DELEGATES. St. Louis, July 22.-The first meeting of the delegates of the different metal trades unions assembled in St. Louis

for the purpose of forming a national metal trades council, will be held this afternoon. The national body is designed as an organization to embrace all local metal trades councils which are themselves the governing bodies of the various metal workers unions in the towns where they are situated. The movement was launched at the convention of the American Federation of Labor at Louisville, Ky., Dec. 6, 1900. More than a hundred leaders of the metal workers will sit in the convention, which will extend its ses-sions over the greater part of the week. Presidents of the national bodies have promised to be in attendance, representing the following unions: Pattern Makers' League of America, Metal Polishers, Buffers, Platers and Brass Workers' International Union. International Association of Machinists, International Union of Allied Metal Mechanics, United Metal International Union, Iron Workers' Molders' Union of North America, Core Makers' International Union, Boiler Makers' and Iron Ship Builders' International Union, International Brotherhood of Blacksmiths', Stove Molders' and Steel Range Workers' International Union, International Union of

Scranton, Pa., July 22.-The striking boilermakers, machinists and foun-drymen at the shops of the Delaware, Lackawanna and Western Railroad returned to work at the old rate of wages today, notice having been postthe company, following a sion of the men to return, that all the 573 men who went on strike eight weeks ago would be taken back. Two men were discharged for cause. 900 men employed by the Allis-Chalmers Company remain out pending a settlement at the shops of the company

A DECISION REVERSED. London, July 22.-The House of Lords has reversed the decision of the appeal court dissolving the injunction rendered Aug. 30, 1900, by Justice Far-

Cook's Cotton Root Compound

well, in the high court of justice, which enjoined General Secretary Bell of the Amalgamated Society of Railway Servants, and Organizing Secre-tary Holmes from "watching and betting" the Great Western Railroad stations and approaches with a view of inducing non-unionists to refrain from taking the places of Taff Vale Railroad strikers. This action of the House of Lords restores Justice Farwell's judgment. The House held that it was not the intention of the Legis. lature to prevent a trades union from being sued if, through its officers, it were guity of illegalities.

STRIKERS ARE ON THE ALERT.

A Keen Lookout Is Kept for Non-Union Workmen.

President Shaffer Sags the Amalgamated Association is Prepared for a Long Siege.

Pittsburg, Pa., July 22.-The situation of the strike today is practically the same as on Saturday, Wellsville and McKeesport being the points around which the interest centers, and any new development will no doubt eminate from those places. The rumored accession to the force of the men to the Wellsville plant did not take place, and the 23 men who have stuck to the company went to work this morning as usual. It is expected that the company will endeavor to increase this number within the next few hours. Color is given to this by the report that the managers of the Pittsburg mills held a secret meeting in this city Saturday, when they decided that, owing to the weakness of Wellsville as an Amalgamated stronghold, they would start up that mill. The strikers at Wellsville have been watching very closely all the movements at the plant, and a close scrut-iny is kept upon the railroad stations for any strangers that might come into the town. None, however, have

as yet appeared. At McKeesport the Dewees-Wood Company did not make any attempt to go into operation as was expected. Rumors of great moment were rife yesterday and unusual excitement manifested itself. It was stated that the company would bring in new men this morning, and the strikers were watching every ingress to the city. Hundreds of men were parading the streets watching the railroads and also the river bank, as it was said the men would be brought in by boat up the Monongahala River.

STRIKERS ELATED.

The Amalgamated people are greatly elated over the fact that they succeeded yesterday in organizing a lodge among the employes of the National Tube works. The formation of this new lodge of Amalgamated men at the National Tube Works may extend the conflict to that plant, inasmuch as the Amalgamated Association, say they would undoubtedly protect these men by calling out all the workers at the mill in case the company discharged them for having joined the union.

The situation this morning throughout Pittsburg and Alleghany, in the strike district, was about the same as Saturday. Contrary to the expectations of many no efforts were made on the part of any of the plants to run. FIREMEN REFUSED TO WORK.

Shamokin, Pa., July 22.-All the striking firemen refused to go to work this morning. President Schultz said none of the men will go back until ordered to do from headquarters at Wilkesbarre. He does not anticipate that any of the companies will refuse to reinstate the men if the strike is declared off. Most of the collieries hereabouts started up today with nonunion men in the fire-rooms. SHAFFER PLEASED.

Pittsburg. July 22.-When seen this morning President Shaffer was in a good humor. He would not discuss his plans for this week. Much depended on circumstances. The general plan of the Amalgamated Association were, of course, laid out, and would be followed to the letter. There are some startling surprises in store for the manu-

facturers when the proper time comes for springing them, he says. "Our people," said he, "have been saving, and have fortified themselves against such an emergency for three years. At present we are simply taking our much- needed vacations, when the cooler weather arrives we will be in shape to settle down for the winter, undisturbed by the conditions confronting us, for we have everything in readiness for just such a winter as will result if this strike is not settled."

Teamsters' Strike.

San Francisco, July 22.—It has been decided to make the strike of the teamsters a final issue between employers and employes in San Fran-This morning about 1,000 drivcisco. ers will go to their places of work as usual and will be discharged. This is according to programme. By nightfall it is expected every large draying establishment in the city will have its trucks in the barns. The teamsters state that they will pass the matter up to the employers and the final decision will be made by them. Estimates vary as to the number of men and the far-reaching effect of the teamster tie-up for the matter has not yet reached the proportions of a strike. There are over 4,000 men driving teams who are connected with the various unions that constitute the team drivers' executive council. Then this body is affiliated with the Water Front Federation, which embraces men that are more or less connected with or dependent upon the teaming This includes stevedores, business. porters, packers, warehouse men, marine firemen, engineers, and in affiliated branches, perhaps about 8,000 more. In the event of a strike being ordered all these would, in necessity, go out in sympathy. Non-union men will have to do the driving. In that event the longshoremen, it is expected, will refuse to handle the merchandise brought to the various vessels by the nonunion drivers, and the coasting vessels will either tie up or go away in ballast.

A New York dispatch says that Jas. Baum, a bookkeeper, was fatally stabbed and a panic ensued among the passengers on a crowded Staten Is-land ferry boat late last night. The police arrested three Italians, one of whom, Frank Rago, was identified by Baum as his assailant. The boat was on the trip from the island. A number of Italians on board were together singing. Baum, who was sitting near, told the men to be quiet, and, after some words he struck one of the Italians. Knives were drawn and Baum fell, blood flowing from his wound. The people nearest to the Italians made a rush for them, but police officers interferred and made the arrests.

The demand for farm hands has caused such a drain upon the labor supply of Kansas that advertisements in the large cities for unskilled men, even at double rates, are unheeded. SOME PERSONS have periodical attacks of Canadian cholera, dysentery or diarrhea, and have to use great precautions to avoid the disease. Change of water, cooking and green fruit is sure to bring on the attacks. To such persons we would recommend Dr. J. D. Kellogg's Dysentery Cordial as being the best medicine in the market for all summer complaints. If a few drops are taken in water when the symptoms are noticed, no further trouble will be experienced. SOME PERSONS have periodical at-
