GREEK SCULPTURE ILLUSTRATED. Mr. Adam Carruthers, lecturer in Greek at the University of Toronto, gave a very interesting lecture in the College Institute last evening, on the subject being "Greek Sculpture." He traced the history of the great art of the ancients through the centuries immediately preceding and following the birth of Christ, showing the characteristics of each of the great sculptors. He also pointed out how the Greeks idealized the human face and figure in their sculpture, while the sterner Roman artists were inclined to give exact portraits of actual personages. Thus, the lecture pointed out the statues of Augustus, Julius Caesar and other great Romans, which have been preserved, are actual representations of those personages. Mr. Carruthers went on to treat of the comparatively recent discoveries of ancient statues in Pompeii, the bottom of the Tiber and other places. Especially interesting was the picture of a piece of sculpture supposed to have been done by Praxiteles, and recently found at the bottom of the Adriatic Sea. It is supposed that it belonged to the dictator, Sulla. A number of thanks were tendered Mr. Carruthers, on motion of Prof. James and Inspector Edwards.

Board of Trade Elects Officers for the Year—A. W. White the New President.

The board of trade held a meeting last evening, at which nominations for the officers and committees for the year were made. Mr. Arthur W. White became president by acclamation. The elections for the remaining positions will be held at the next meeting. President Minihinnick was in the chair.

A communication from the Ottawa Board of Trade expressed the opinion that the leaders of the Opposition in both Provincial and Dominion Legislatures should receive salaries equivalent to those of the premiers, on the ground that the leader of the Opposition must be an able man, and does a great deal of work. The communication asked that the leaders of the Opposition in Ontario should be paid \$5,000 a year, and forward the same to Ottawa. Copies of similar communications are being sent to the various boards of trade throughout Canada. A motion, agreeing with the sentiments of the Ottawa board, was carried.

A communication from the Single Tax Association of Canada, asking that the board subscribe to a petition to the Ontario legislature, in regard to the exemption of the C. P. R. from taxation in the Northwest, was laid over.

The De Forrest Wireless Telegraph Company asked the co-operation of the board in placing \$5,000 worth of the company's stock in this city. The company will start operations in Ontario and Quebec, and offers shares at \$5 each. When 1,000 of these shares are subscribed for in London, the company
