

## County Council Stands By Agreement Will Contribute \$4,000 To Hospital

### Scheme for a Sanatorium for Consumptives Is Now Well Under Way.

The chief question before the county council yesterday afternoon was that of the tubercular hospital. In the end the council decided to make a grant of \$4,000 toward the hospital.

A delegation from the city council was present, and explained the various points to the council. The delegation comprised Ald. Stevely and Drs. John D. Wilson and Niven.

Ald. Stevely explained that while the motion to contribute \$6,000 had only passed by a vote of 5 to 5 in the city council, the reading of the bylaw had passed unanimously.

Ald. Stevely also read a portion of the new bylaw. His idea was that the Blair offer of \$20,000 should be used as a reserve fund, owing to the fact that interest must be paid on the money during the donor's life. If it were used it would be necessary to provide other money to furnish the interest required.

Special legislation would be necessary for the county council to issue the debentures necessary to carry out the scheme proposed.

Special legislation would also be required in order that the city might accept the money offered by Mr. Blair under the conditions imposed.

#### Heartily in Favor.

Councillor Glass stated that he was heartily in favor of the scheme, and was sure that the Government would make grants of \$4,000 each to the county of Middlesex and the city of London. Mr. Glass went on to say that upon the occasion of the special committee's visit to Provincial Secretary Hanna, the latter had strongly disapproved of the scheme suggested by Woodstock re asking the various counties to unite in a request to the Government to provide a hospital of the nature desired.

There were only two available methods whereby the county could raise the \$4,000 required as its share toward the hospital. One was by way of special legislation, and the other by taking the money from the county funds. To place the matter before the people, Mr. Glass argued, was impractical, as the taking of a vote would cost over \$1,200.

#### Wanted Delay.

A motion was made by Councillor Glen to have the section referring to the percentage to be paid by the city and council for patients referred back to the committee to be reported on at the present session.

Councillor Glass argued that it would make a bit of difference whether or not the city sent more patients to the hospital than the county. The more the city sent the lower would be the per capita tax.

Ald. Stevely said that he would like to see the bylaw go through the way it was, as any delay at this time

would look like a balk on the part of the county council.

#### Motion Carried.

Councillor Turnbull couldn't see how the bylaw could be changed even if the council decided to do so, as the city council had already advertised the bylaw and had gone to a great deal of expense in the matter.

Councillor Knapton then moved that the report of the tuberculosis committee be adopted in the whole. Motion carried by 12 to 7.

#### A Pitiable Case.

The question of what disposition should be made of Pericles Hinton, the unfortunate young Englishman who became almost totally paralyzed as a result of a fall from an apple tree several years ago, was discussed at length. This young man came over from England some five years ago and went to work at Dorchester. After taking treatment at various local institutions he was placed in the Home for incurables, where he is at present.

It was finally moved that the matter of making permanent arrangements for the care of the county patients in the Home for Incurables be referred to Councillors Gillies, Glass and R. W. Jackson to investigate and report at the January session, and that in the meantime the council confirm and continue the present agreement made for his care at the home, where he now is. Carried.

#### Another Case.

Albert Hughes, the unfortunate young man who has been suffering from an incurable disease of the muscles, addressed the council, and thanked them for their efforts in his behalf. Hughes has been under treatment at Victoria Hospital, and the house of refuge.

Later he has been under the treatment of Dr. Hadley Williams, who has successfully operated on the young man's arm twice, affording him much relief, which promises to give him the use of one hand.

Hughes desires that the council assist him in some small business as soon as he gains the use of one hand.

Dr. Williams at present is ill, but will shortly perform another operation on the young fellow.

#### Toward Appeal Expenses.

After a discussion lasting perhaps an hour it was decided by a unanimous vote on motion of Councillors Kimball and Glass that in the event of the township of Westminster taking an appeal from the recent decision of Mr. Justice Mulock in the Moore vs. Westminster case, the county grant the sum of \$150 toward the expense of the appeal.

The following motion by Councillor McFarlane was also carried: That this council grant the sum of \$120, being half the amount of sale money of Plover Mills bridge to the township of West Nisour, and that the full amount (\$240) be applied to the credit of West Nisour county rate.

The county then adjourned until 2 o'clock this afternoon.

## Orangemen May Vote for Catholics

A Toronto dispatch says: No discrimination against Catholics is the line of policy laid down by Dr. T. S. Sproule, grand master of the Grand Orange Lodge of British North America. The resolution recently passed by the County Orange Lodge forbidding leaders of the order to appear on the platform or in any way assist in the election to political power of any member of the Roman Catholic Church, comes in for severe censure from the grand master in a letter which it is understood has been sent to Mr. Joseph E. Thompson, county master.

The letter points out, first, that it is not within the power of any subordinate body to pass such a resolution, and declares that the resolution itself is contrary to all the ideals and principles of Orangemen. Every elector, says Dr. Sproule, should vote of his own free will for the man he thinks best. If such a rule as was proposed was carried out, it would be a boycott such as was established by Roman Catholics in Ireland, and Orangemen should not pass resolutions of the kind as they would resent if they were passed by Roman Catholics.

Mr. Thompson was asked last night regarding the letter, but beyond stating that he had received a communication, would say nothing.

## Bad Cooking Drawback to Matrimony

Is the lack of a knowledge of the art of cooking tending to drive young men farther from the matrimonial idea?

A certain lady, Mrs. Colin Campbell, of Goderich, says it is, and she accounts for the many husbandless women in this Province by pointing to a lack of cooking knowledge. She comes out strongly for domestic science.

At a session of the Dufferin Farmers' and Women's Institute, held at Orangeville, Mrs. Campbell, the lady referred to above, said that young girls should be taught a knowledge of domestic science. Many a girl is forced to learn, music, painting, and drawing, when she would prefer to learn how to get up a good meal. Is it not important, Mrs. Campbell naively inquired, to learn how to feed a man as a horse? Scrubbing a floor, the speaker affirmed, was fraught with no more danger to the average girl than the dance of twelve numbers. Years ago girls got married about the age of 18; now plenty are single at 30. The inference was the young men are afraid to trust their digestion to the girl who can't cook.

## RAID ON CHINESE PIRATES

British Flotilla to Stop Outrages Near Hongkong Despite Native Pride.

Hongkong, Dec. 3.—Three British torpedo boats and four destroyers, fully equipped, will leave this port tomorrow morning for the West River, on an expedition for the suppression of piracy.

The resentment among the Chinese is intense. Recently Vice-Admiral Sir Arthur Moore, commander-in-chief of the British China station, visited the viceroy and demanded indemnity for damage done to British commerce by the pirates.

The admiral found that the viceroy

was in sympathy with the Chinese in resenting foreign interference with matters that were the concern of the Chinese Government and declined to consider the matter of British aid in suppressing the marauders. The admiral gave him until the end of the month (November) to reconsider his decision.

The flotilla that is to sail tomorrow will protect British commerce irrespective of Chinese sensibilities. An excited mass meeting was held at Canton the other day at which resolutions were passed demanding that the Chinese Government assert its sovereign rights.

#### HAVE A BALLOON TRIP.

Berlin, Dec. 4.—A new aeronautical society has been founded here for the purpose of arranging pleasure trips in the air both by steerable and spherical balloons. It is stated that the society has placed an order for a dirigible in the United States.

#### FATAL WRECK ON B. AND O.

Baltimore, Dec. 4.—Three persons were killed and about 20 others injured in a rear-end collision between local passenger trains, numbers 142 and 144, on the Baltimore and Ohio Railroad at Hanover, Md., 12 miles west of here this morning. Some of the injured are badly hurt and may die. The three killed were negro track hands. Relief trains were made up, the dead and injured were brought to Baltimore and later placed in hospitals.

## What the Clergyman Said.

Hanover, Ont., Dec. 4.—No other class of men have the opportunity to do as much good, and be such helpful influences as the clergy. Not only in their sermons, but in their daily life, they can teach us the better way of living. The example of the Rev. Mr. Brand, of Hanover, is one to be followed in every home in Canada. Owing to the arduous duties incidental to his parish, the reverend gentleman suffered severely with liver trouble accompanied with constipation and indigestion. But he quickly found relief, and in a letter, tells how. "I can say I like Fruit-a-tives very much, as I am troubled with liver trouble and shall continue to use them."

"Fruit-a-tives" are made of fruit juices of valuable tonics—and form the ideal combination for the treatment of biliousness, constipation, headache and all stomach, bowel, kidney and skin troubles. 50c a box.

At Jacksonville, Ill., A. Perry, aged 20, committed suicide by taking carbolic acid.

Three occupants of a gasoline launch were drowned at Plaquemine, La. The craft upset.

Portland, Me., is recaptured by the Republicans after four years of Democratic administration.

Seven hundred cigarmakers have been laid off at Quakertown, Pa., during the last two weeks.

Nearly 3,000 persons are employed by the Federal Government in the Philippine civil service.

William Mackmillan, of Ashland, Wis., recently bagged four bears and a deer in a hunting expedition.

For converting the mayor of Jewell, Kan., Socialist Biederswolf was given a free will offering of \$1,000.

Hunters yesterday discovered several hundred pounds of butter hidden in a woods near North Lima, Ohio.

Edwin Peckham, aged 64, a well-known businessman of Utica, N. Y., was asphyxiated in his home by gas.

Miss Kate Johnson died at Bedford, Ind., from lung fever due to her clothing catching fire from an open grate.

A 13-year-old Russian boy is held at Ellis Island, N. Y., as the outcome of his seventh attempt to break into this country.

Albert Rabska, two years old, was burned to death last night, while smoking his father's pipe, in his home in Chicago.

At Upper Sandusky, Ohio, Frank Harris had his left arm amputated yesterday on account of an injury received in wrestling.

Trial sermons have been preached by 68 candidates in the Butler, Pa., United Presbyterian Church, and still the officers are not suited.

The Mosier Oil Company, of Butler, Pa., composed entirely of women, has taken up a large block of leases in Franklin Township, Pa.

Because of a slump of prices of live stock, C. E. Davis, of Savannah, Mo., blew out his brains with a shotgun in the presence of his family.

Mrs. Frederick Hemp, of Pittsburgh, accidentally overturned a pail of boiling water, which fell on her 14-month-old child, fatally injuring it.

Philander C. Royce, secretary of the Hartford Fire Insurance Company, died suddenly at the Grand Central station, New York, while waiting for a train.

A. W. Whitley and C. Kinley, bridge carpenters, of Lancaster, Ohio, were crushed to death by the collapse of a derrick near Walbridge. A guy wire broke.

Conscience-stricken because his own witnesses stood so strongly for him, Clarence Collins, charged with burglary, confessed his crime at Muskegon, Mich.

Dr. A. O. Wotring, aged 40 years, was instantly killed and several others were injured by the explosion of a gas plant in his home, Ogden Center, Mich.

Manus Slovinski was arrested at Homestead, Pa., for beating his wife on the head with a dishpan, and throwing his 18-month-old baby out onto the pavement.

Daniel Gearhart, returning in an automobile from Philadelphia, was attacked by thugs on Schuylkill county pike. He was struck on the face and head with rocks, and is in a serious condition.

**RAISED COAL PRICES.** Philadelphia, Dec. 4.—Several of the independent anthracite operators, after attempts to induce the Reading and some of the other big anthracite companies to take the initiative in further advancing the prices of steam coals of hard coal, have raised the price from 15 to 25 cents a ton at the mines.

**NO ABILITY TO DIGEST FOOD.** The digestive system is a wonderful piece of machinery, but power is necessary to make it effective. In this case the power is the nerve force contained in the body, and if the nerve force is lacking the digestive system becomes crippled and there is suffering from indigestion, nervous headaches, neuralgic pains, dizzy spells, weakness and disorientation.

Strength cannot be regained from the food you eat so long as digestion is so imperfect, but you can be restored by Dr. Chase's Nerve Food, which contains in condensed pill form the very elements of nature which go to form new nerve force.

Overwork, worry, anxiety and excessive mental effort exhaust the nervous system at a tremendous rate, and repair must be made before some dreadful form of nervous disease sets in. Dr. Chase's Nerve Food invigorates the nerves which control the digestive fluids, sharpens the appetite, is slightly laxative, so as to encourage the action of the bowels, and strengthens every organ of the body.

Fifty cents a box, at all dealers, or Edmondson, Bates & Co., Toronto.

## R. J. YOUNG & CO. A Rousing Friday Bargain Sale

Right in the need time—within a few weeks of Christmas. Phenomenal values in superb quality Drygoods, anyone of which will fill a home-need, or make an appreciated Christmas gift.

### All-Wool Llama Cashmere Hose For Women

Those who cannot call write us quick, as these bargains go quick.

**HEINTZMAN & CO.** 217 DUNDAS ST. COR CLARENCE. LONDON, ONT.

### A RED, RED, PLOT.

Paris, Dec. 4.—A Geneva dispatch received here states that the police have discovered a Russian terrorist plot to assassinate the Emperor, blow up the imperial palace and the duma and pillage the imperial bank of Russia. One agent has been made in connection with the alleged plot.

### ROYAL CONDOLENCES.

The Hague, Dec. 4.—Queen Wilhelmina sent a chamberlain today to Sir Henry Howard, the British minister to the Netherlands, to express her condolences in the death of his wife, Lady Howard, and to place a wreath upon the coffin. The body will leave here tomorrow for England, where the interment will take place.

Lady Howard was Miss Cecilia Riggs, daughter of the late George W. Riggs, of Washington. She died in this city yesterday, after a long illness.

### Dr. Julian P. Thomas, the aeronaut,

who was recently the victim of an automobile accident, is an absolute fatalist. He is entirely devoid of fear. He often has said himself that his continuous risking of his life in balloon and automobile trips was not due to unusual courage, but simply mental inability to feel fear.

The common sunflower is an American plant. Its original home is stated by eminent botanists to be Peru and Mexico. The Russian peasant seems to be convinced that the plant possesses properties against fever, and fever patients sleep upon a bed made of sunflower leaves and also cover themselves with them. This use has recently induced a Russian physician to experiment with a coloring matter prepared from sunflower leaves, and it is stated that he had good results with the coloring matter, and with alcoholic extracts from the flower and

### leaves. With 100 children from one month to twenty-one years old he has, in the majority of cases, effected as speedy a cure as otherwise with quinine.

## SOUTHWESTERN TRACTION CO.

Hourly Electric Service to St. Thomas Every Two Hours to Port Stanley

Cars leave London for St. Thomas every hour from 7 a.m. to 11 p.m.

The following cars continue through to Port Stanley: 7:00, 9:00, 11:00 a.m., 1:00, 3:00, 5:00, 7:00, 9:00 p.m.

Cars lay over at Port Stanley 40 minutes and leave at 7:20 a.m. and every two hours thereafter until 11:30 p.m.

Cars wait for London and St. Thomas theaters.
