I expect a great expansion of the foreign trade when we control our trade solution in the when we control our trade routes, and our manufacturers and our shtpping will develop. It will provide control of our waterways in addition to the control of our railways. in addition to the control of our failways. The shippers scattered throughout Can-We must therefore trust to the railway commission to look after their interests. I therefore appeal to every member of this committee to vote for this amendment. The saying, "not worth a continen-tal," came from the fact that the Continental currency, issued by the Continental Congress, was worthless, or nearly so, during the American revolution and after. As the Con-tinental Congress had no power to levy taxes it was unable to redeem its promises to pay. Besides, the country was flooded with counterfeits which could not be detected.
