vation of the Empire.

WEDNESDAY, MAY 18TH, 1904.

-Joseph Chamberlain is again in the fore-front of British politics, and in spite of reports to the contrary, seems to be possessed of both good health and sanity. His plea is for the preser-

-And now a clever trick has been performed by a young Russian. On a for J. H. Longmire & Son, dark night he went out from Port —Copies of the Monitor Arthur in a tiny naptha launch and torpedoed one of the Japanese cruisers and with his three men escaped unhurt. A few more launches and a raft or two may perhaps be secured to replace the Russian navy.

population of the province will hold a 1st recalls the story told of a wellknown Sambo of this county. On being asked in Court if he ever got drunk, he replied "Yes sah; on big days and hangin' days." July 1st will probably be the biggest kind of a "big" day the dusky race in Nova follow the rule of the above representative it is likely to be a wild one for

-In a reference to the tercentenary celebration of DeMonts' first visit to Annapolis, a typographical error in ary." The word had a suggestive look, but we trust it was far from being prophetic. The historic town will no doubt do justice to the grand occasion and make the celebration of the these shores a factor in drawing together the different elements of which our population has been formed, and which are the foundation of one of the grandest nationalities of the future.

portance to us than the war in the nent. The struggle between labor and capital is assuming more definite form. an old institution in America. Its growth in recent years has been rapid. In fact, it has outgrown its original purpose. From being used as a guard of his own servants. This is practinecessary help to carry them on. The great centres of wealth and population that the question will be fought out The development of the labor move ment to its present proportions has been so rapid that capital for a time failed to rate it at its true import. During the past couple of years, however, the situation has been clearly re vealed to capitalists and has given ris to a counter organization on their part, and the struggle between organsoon be the greatest question of the world of industry. When it is decided new system of industrial life in which capital and labor will stand in such altered relations as to be scarcely recognizable by our present standards

Improvement of the School Ground.

Improvements have been going for ward at the school grounds of late, and citizens of Bridgetown may nov have an unobstructed view of the handsome structure that has been provided for the education of their children. The fact that it has been provided pense, should be a matter of quite as much pride as the splendid grounds and buildings themselves. The recent imall traces of the old building, the cellar having been filled up and graded school building has been restored, and its basin put in a neat and pretty state of repair. The ground close to the building has been covered by neatly cut sod, and outside the walk has the special charge of Councillor Hoyt, and has been well done, the workman

ground in front or west of the school house will be used as a play-ground. The eastern end of the grounds will be devoted to the cultiva tion of flowers, a space being reserved for a times and croquet court. The gardening will be under the supervision of Commissioner Armstrong. The Will all teachers who can convenient grounds surrounding the fountain will do so please take their copies of "Tenbe divided and laid out in flower beds. | nyson's Princess' with them, and When all arranged, plots will be allotted to each of the different schools | the Executive Committee. or classes to care for. From what has already been done with what is outlined to do there promises to be an immense change in the appearance of grounds, and we feel safe in predicting beauty spots of Bridgetown .

Rood Roads Instruction.

government has been making enquiries regarding a suitable man as good setts, and prices there dropped 15 roads instructor for the province. Yesents in one day. At present the out terday the appointment of C. R. Cout- look for much further shipping to Boo lee, of Aylmer, Quebec, to the position a well-known member of the Canadian a well-known member of the Canadian Society of Civil Engineers, is about 40 years of age, and was educated in Kingston. Since he has graduated he has practised his profession on many important works from Montreal to Vancouver. He has had considerable practical experience in the construction of roads, and is said to be well acquainted with the general conditions of hichway construction. He is not an entire stranger to Nova Scotia, as he was at one time assistant to T. H. White, ekief engineer of the Halifax and South-Western railway.
