GENERAL OFFICES  
AND FACTORY,  
MONTREAL, CANADA.

TORONTO STORE,  
67 ADELAIDE STREET  
EAST.

## Does Your Advertisement reach any but those Interested? Should It?

WHY should you as a manufacturer of cement, cement machinery and supplies of every description, place your advertisement in a journal that (going to a few of the interested ones possibly) has a mixed circulation, probably the bulk of it being waste circulation so far as you are concerned? You may be in such a journal now, and yet you have been wondering why the results have not been forthcoming.

You may be just planning the advertising campaign, then start right and use only the journals that you know positively are going to actual purchasers of your goods.

As the only journal published in Canada, devoted exclusively to the cement and concrete interests of the Dominion, the Canadian Cement and Concrete Review has a circulation among none but those directly and actively interested in cement and concrete construction, the every day users of cement. **The very ones** who are at all times in the market for the various requisites. The growth of this industry in Canada is remarkable, and there can be no doubt but that there is a growing demand and a ready sale for the right kind of machinery and supplies. Are you getting your share of this business?

Reach the actual Purchaser direct. Advertising Rates and copy of Journal sent on request.
