The winner's were: 1, C. Mahony; 2, J. Whittaker; 3, M. Coul. Out of a possible 100 the boys respectively received, 93, 02 1-2, and 02, and as Mr. Palmer made such a rigid examination this speaks volumes for the teachers as well as the pupils.

PRESENTATION TO THE REV. JAS.

P. DOLLARD.

St. Mary's Branch of the Catholic Truth Society, with which the Rev. Jas. B. Dollard has been so longs connected, decided not to allow him to leave the city without in some way testifying their regard for him, and at the same time try to acknowledge in some feeble manner, their appreciation of his encouragement of this society, and the noble work in which it is engaged, and as a result of this, a committee composed of the members of the societ took the matter in hand upon very short notice indeed; as the Rev. Father, with his accustomed modesty, departed from their midst without giving an opportunity to his friends to express their regard in any tangible manner.

Nevertheless, on the evening in question (Thursday, June 13), there was a representative meeting of the society present in the hall of the Catholic Young Men's Literary and Athletic Association of St. Mary's parish, to greet the Reverend Father.

The presentation was made by the

We would ask you then, Rev. and Dear Father, to accept from us the accompanying purse of money as a slight memento, and with the heartfeit prayer that God will abundant by bless and make fruitful your efforts in your new field of labor.

The Rev. Wm. McCann spoke at some length, paying an eloquent and feeling tribute to the departing priest, and testifying to the great regard in which Ft. Dollard was held by his fellow priests at St. Mary's, and the congregation among which he has labe. I of faithfully and well during the four years he has worked in the parish. His work was done unoscentatiously, but surely, and he had gradually crept into the nearts of the propho of the parish, by whom he would be very much missed, and had also succeeded in winning the affections of his conferers at St. Mary's.

Messes. E. J. Hearn, D. A. Carey and Geo. Evans also paid glowing tribute to the many good qualities possessed by the reverend geniteman; nor did they omit to dwell on the fame he was winning, and justly so, in the literary world, and of the credit he had done himself and the parish with which he had been connected.

The Rev Father, who as completely taken by surprise, responded in his usual upt and spontaneous manner, volching the regret he felt in severing his connection with his pany friends in St Mary's C. T. S. and in the parish at large.

With a hearty God-speed to the Rev. Father, the meeding dispersed.

use the end was not so soon anticipated.

We vonture to say that among the prominent Catholies of Toronto, there were fow held in more respect and affection by those who knew him. Upright in character, sympathetic to rare degree, and devout in duty both as regards religion and country, it is but the simple truth to say that it was a privilege to have known him.

Edward Murphy was born in the County of Cayan, and received a classical education. He emigrated to this country at the age of 18 years. He landed at Brockville and at once secured employment on the staff of engineers during the construction of the Grand Trunk Rallway. Subsequently he was transferred to the locomotive department, where he zetel as clork. In 1887 he began contracting on the Northern Rallway for the supply of wood. In 1882 he removed from Nowmarket, where he had resided for twelvy years, to Toronto, and was associated with the late Hugh Ryan in the construction of a section of the Canadian Pacific Rallway, cast and of Toronto. Afterwards he had a contract at Collingwood for the improvement of the harbor. He also had important harbor work at Oakville. His largest contract was building a breakwater at Cape Tormontine, N. B., which occupied a period of five years, and was finished about seem years age. In 1897 he built a section of the Crow's Nost Rallway, which was the last contract work he ever did.

In politics Mr. Marphy was a Conservative, and contested North York with Sheriff Widdifield, being defeated by the narrowest majority that had been given for years in that riding. In private life he was known by his numerous friends by the high deals of honor and integrity which characterized his dally conduct in his social and business relations with his fellow men. Kind hearted and generous to a fault, he will long be remembered as one of the highest types of manhood. He furnished an life-long example of the oxcellences of human character.

Mr. Murphy was connected for many years with this paper as one of its directors, when The Register was

BINDER TWINZ PRICE.

The Ontario Government Fixes it at Eight Cents.

A Big Improvement Has Also Been Made in the Method of Parcelling It-Packing Material Will be Useful.

(From the foroute Globe.)

(From the foroute Globe,)

The Hen. Mr. Scratten Provincial Sceretary, and the Inspector of Prisons have decided upon the price (8 cents per pound) at which farmers can be supplied with binder twine from the Ontario Contral Prison for the season of 1901. This year there is only one quality that will be supplied, and that the best, of which every ball and every ounce is guaranteed, and any farmer who purchases this twine and does not find it satisfactory, can by returning it have the price paid for the twine returned. This condition, however, is not likely to arise, for there is no question of the quality of the twine supplied the farmerities as good as the best twine that will be placed upon the market this year.

There will be besides a decided, Year.
There will be besides a decided,

There will be besides a decided, and, to the farmer, profitable, improvement in the mode of parcelling. Heretofore it has been the practice of binder-twine manufacturers to ship in ordinary jute bags, which were useless to the farmer after the twine was received, and the lashings, of loosely twisted tow, were also useless after their temporary purpose was served. The weight of those sacks and lashings was six percent, of the weight of the bale.

But this is now changed as regards the twine from the Contral Prison, and there will be no six percent, loss to the farmer. The twine will hereafter be shipped in two-bushel, 10-oz, cotton grain bags of excellent quality, which will be of permanent use to the farmer, as will also the hashings, which consists of two inne-feet rope halters, with snap and ring ready for use. The value of the grain bag is greater than an equal weight of twine, and the same applies to the halters. The twine balls are twelve to the bag—of a length of five hundred feet to the pound, and of uniform quality throughout.

A STORY OF POPE PIUS IX.

In the days of Plus IX, a priest went on a pilgrimage to Rome. On the eve of his departure a poor, hardworking woman same to him and-requested him to take a sum of money along with him for the Holy Father as her Peter pence offering. It was a very considerable sum. The priest was surprised that a poor woman should offer for this purpose so much money-a sum altogether disproportionate to her condition in life. He was curious to know how she came by it, and ques-

"Father," soid she, in her simple way, "I have saved it up."

"How old are you, my good woman?" asked the priest.

"I do not exactly know; I can other read nor write. But I must be over 50 years."

"And how long did it take you to save up this sum?"

"Oh, very long; I have been serving out since I was 11 years old."

"And what had you in mind to do with the money before you learned that the Holy Father was in such straitened circumstances?"
