## SPLINTS FOR SURGEON'S USE.

JAMES ELLIS has for some time past directed his attention to the manufacture of splints. They are made of Basswood, Whitewood and Pine, strong and light, and some of them ingeniously carved or hollowed out to fit the inequalities of the surface. The splint for Colles' fracture is one of the most striking, being a correct representation of Bond's splint, carved out of solid basswood. They are also very cheap and durable. Orders may be addressed to

J. H. NASMITH & CO., Druggists, London or Stratford

GARLAND & RUTHERFORD, Druggists, Hamilton.

H. J. ROSE, Druggist, Toronto.
