Deaths	40
Remaining in January 1st	65
	110

Jan. 5th, '07.

WM. NICHOI, M.D.,
 House Physician.

" Dear Mrs. ———, friend,
 It nearly slipped my mind,
 Ten dollars to the "Grace" to send;
 They are so good and kind.

This is the third year of the five
 Of which I promised you;
 And I will pay, if I'm alive,
 Through you so kind and true.

Grace Hospital does a splendid work,
 And heals the sick, distress;
 And drives out every ill that lurks
 Within the human breast.

The old folks they make young again,
 The bowed down, raise up;
 And drive out every kind of pain,
 When death seems in the cup.

If by the ear our head's cut off,
 And without any pain
 They'll take it, like a fresh-made loaf,
 And put it on again.

ROBERT SWAN,
 162 King St. East.

Toronto, December 1896.

HINTS.

A correspondent of a German homeopathic
 journal recommends *Ledum pal.*, in one drop
 doses of the mother tincture, for bad coughs
 in persons of a rheumatic constitution; also,
 for coughs in those given to drinking.

Arnica internally, and the diluted tincture
 externally, is highly commended for inflam-
 mation of the knee joint. When *Arnica*
 tincture is used externally it should always
 be diluted, say half a teaspoonful in a half
 pint of water.

A few doses of *Belladonna* is the best
 known preventive of scarlet fever. Dr.
 Stierenart once gave it to two hundred per-
 sons exposed to the contagion, and not one
 contracted the disease. Fifty others refused
