Rev. and Dear Sir,—I see by the last number of The Church that you have copied a petition to the Lord Bishop of Toronto for my removal from this mission. I should not have thought it necessary to notice the said petition, or the other papers published with it, had it not appeared in The Church. As it is, I shall only remark in general, that the facts and circumstances connected with the getting up and of the publication of the said petition, are of such a nature, that, were they known to the public, you would very much that, were they known to the public, you would very much regret that you had noticed it, and more deeply regret that

DIOCESE OF TORONTO.

NEWMARKET AND ST. ALBAN'S SUNDAY SCHOOLS. A fete was given to the children of these Schools on Wednesday, the 1st inst., at the Parsonage. Some hundreds of visitors and children were present on this interesting occaon: altogether, it was a very imposing and cheering scene. The day was beautiful; several flags were flying, and two bands playing. Tea was prepared for 400. Some pretty trees on the glebe were so cut as to form natural bowers; beneath which the tables were spread. After Divine Service, the Rev. S. F. Ramsey, the Incumbent, in his Robes, ascended the platform, and addressed the company assembled. He dwelt at some length on the importance of secular instruction, and then showed the far greater alue of religious instruction, without which human learning could be of little avail; said that day twelvemonth the resent very flourishing schools were not in existence. He had been told it was futile to make the attempt; he asked is friends to look at these children, and then enquire if the rch had failed in instructing, in the principles Church, the younger members of Christ's flock. The Rev. Gentleman then made a separate and suitable address to the teachers, the children, and the parents; after which, he referred to his long official connexion with Canada, as Secrerred to his long official collection with Canada, as secre-ty to the Upper Canada Clergy Society. He did not con-er himself as a Canadian clergyman of one year's standing, of cleven—having laboured he might say, without exag-ation, assiduously for this Diocese during ten years in England. For the good of Canada, he had for years relin-quished a moiety of his salary. For a long period he had a great desire to come out; and so far back as 1841, the Bishop, being aware of that desire, had in the kindest manner offered him an appointment on the other side of the Lake. He had now been above a twelvemonth among them, and he could say with perfect truth that he had not been disappointed in any one particular; that although there were more Dissenters, and a greater number of sects perhaps in this District—might he not say than in any other ps in this District—might he not say than in any other it of the world? (a laugh)—he still had met with uni-rsal kindness, and had never had an unkind word with y human being. Such had been the case for fourteen ars in London; and trusted that should God spare his life so long a period amongst them, he should at the concluof his labours be able to make a similar remark. When came, the Churches were comparatively empty; they re now full; and he did not believe that in any part of Diocese could there be found sounder, more intelligent, above all, more truly-Christian and spiritual Church n. He had been warned against Newmarket as the orn hope of the Church; the soldier considered the forlorn he as the post of honour, and should not the spiritual lier of Jesus Christ do the same? COMMERCIAL AND MONEY.—Commercial affairs on

COMMERCIAL AND MONEY.—Commercial affairs on the 21st July, continued active, and the business done during the week ending at that date, has been large and in general at improved prices. The produce markets are well supplied, a healthy feeling continues to prevail, and a fair extent of business has been done at steady prices. Cotton has continued in favour, at advancing prices, and money, to a considerable extent, is being invested in the article. The consumption of cotton is now greater than it was ever known to be, and the conclusion of the armistice between the Germans and Danes just announced at London, will doubtless increase the present demand. At Manchester and other manufacturing marts, the market has been firm, and spinners, influenced by the buoyant state of the cotton market, have claimed in many instances an advance of half-penny per pound, and additional prices have also been demanded on goods.

The metal trade is firm, and within the last few days

there has been an increased demand for all kinds of iron.
Scotch pig has advanced two shillings per ton. THE HARVEST .- The prospects of the harvest throughout all parts of the United Kingdom are encouraging and

state of the growing crops are conflicting; but, upon the whole, the appearance of the growing crops is encouraging.

The armistice between Prussia and Denmark has been ratified. A suspension of hostilities, both by sea and land, for six months, is agreed to. At the close of this period the armistice, if not to be renewed, is to continue six months longer.

The blockade is to be raised as soon as the German

troops have been moved to the south of Flensburg.

The captured vessels, with their cargoes, are to be restored, on both sides.

During the continuance of the armistice the Duchy of Schleswig is to be governed by a commission, of which one member is to be nominated by the King of Denmark

and one by the King of Prussia.

The Queen of England is to be requested to nominate a third member, who is to decide in all cases where the other

two cannot agree.

The north of Germany is again quiet, but in the south re insurgents still hold out, within the fortress of Radstadt. The whole of the Grand Duchy of Baden, with that exception, is occupied by the Prussian troops. The lives of the captive republicans are to be spared, and Gen-Radowitz has ordered to transport them to the United

The Pope has addressed an antograph letter to General Oudinot on the occasion of receiving the keys of the city of Rome. His Holiness congratulates the General on the triumph of order in Rome, and expresses his hope that Divine Providence will remove the difficulties that may still exist. He adds that he does not cease to direct his prayers to Heaven for the General, the army, and the French nation. The letter was dated Gaeta, July 5.

The French are doing all they can, distributing money,

&c., to get up a cry in his favour, but in vain.

The Roman troops, who had agreed in the first instance to do the duty conjointly with the French, are all leaving, and the whole force remaining now amounts to less than 1,000 men. Of these many were anxious to leave, but Gen. Oudinot would not give consent. The Pope's engineers having been asked to make a demonstration in his favor, preferred quitting his service. Thirty out of forty three resigned, and all the rank and file were disbanded. The same occurred in the artillery—all the officers having resigned with the exception of three captains and a sergeant. The reason given is, that the French authorities refused to give them any promise or guaranty, as to the protection of the rights of the people. Garibaldi has succeeded in making his escape good

from the French division, who were put upon a false scent, and he is now on the mountains of Arbuzzi. Previous to his departure from Rome, he had secured the ammunition and military stores. Another account states that Garibaldi is on the Neapolitan frontier, where he has been joined by The Rev. E. G. W. Although numerically considered, the hostile forces are of appalling superiority, the Hungarians are very far, indeed, from being in any desperate extremity.

Advices from Vienna to the 18th of July state, that Buda-Pesth surrendered to the Anstro-Russian troops on the 11th inst., without resistance. From a report of General Haynau, addressed to the Emperor of Russia, it

appears that a very sharp conflict took place on the 11th before Comorn, between the combined armies and the Magyars. The Hungarians fought with furious impetuosity, but the Austrians claim the victory. Another, and probably a more reliable account of this battle, states that 180 pieces of cannon were brought into the field by the Hungarians, and the loss sustained by the the field by the Hungarians, and the loss sustained by the latter in artillery and men, may be estimated from the circumstance, that several of the guns had to be served latterly by the Dutchmeistu infantry. Nothing could be more complete than the defeat of the united Russo-Austrian armies under Hagnau. Bem has collected all his troops near Szegedin, to make head against the Russians. The Banholds the enemy in check, making successful sorties.

Comorn will soon be invested. The corps of Gen. Grabbe were marching on it. The Hungarian Gen. Georgey is still alive and in the field, in spite of the Vienna press, which has not only wounded and killed him, but

press, which has not only wounded, and killed him, but also deprived him of his command. In Comorn, a white and black flag were waving on the battlements as symbols of the contest for life or death.

A Hungarian, Descetints Gallarra, so much feared the fact of the kingdom being placed in a state of siege, affords some foundation for the contemplated rising in that country in connection with the Hungarian movement. The Polish frontier is so strictly guarded, that nothing but the Poste can page
