### **GUYOT'S TAR** CONCENTRATED PROOF LIQUEUR

Mr Guyot has succeeded in depriving tar of its insupportable sourness and hitterness, and in rendering it very soluble. Profiting

by this happy discovery, he prepares a con-centrated liqueur of tar, which in a small volume contains a large proportion of the active principle. Gayot's tar possesses all the advantages of ordinary tar-water without any of its drawbacks A glass of excellent tar-water without any disagreeable taste may be instantaneously obtained by pouring a teaspoonful into a

glass of water.

Any one can thus prepare his glass of tarwater at the moment he requires it, thus economizing time, facilitating carriage and obviating the disagreeable necessity of hand-

# Ayer's Hair Vigor,

For restoring to Gray Hair its natural Vitality and Color.

A dressing which is at once agreeable. healthy, and effectual for preserving the hair. It soon restores fuded or gray hair to its original

color, with the gloss and freshness of youth. Thin hair is thickened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed; but such as remain can be saved by this application, and stimulated into activity, so that a new growth of heir is produced. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. The restoration of vitality it gives to the scalp arrests and prevents the formation of dandruff, which is often so uncleanly and offensive. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a HAIR DRESSING, nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich, glossy lustre, and a grateful perfume.
