

MAJESTIC COAL AND WOOD

CHUTES

"Model" Coal Chute,
Open.

Every Architect, Contractor and Builder should know the merits of a "Majestic" or "Model" Coal and Wood Chute. This is the new way by which to put fuel into the basement. By using such a chute you do away with the annoyance of demolished window frames and broken windows. The door when open protects the wall above the chute, and when closed locks automatically, and is positively burglar-proof.

Made in three sizes:
No. 1—16x22. No. 2—16x27. No. 3—18x33.
Write for descriptive booklet.

WHY

MONARCH
METAL

WEATHER
STRIPS

Are the Best on the Market.

BECAUSE

Metal slides in metal, therefore no wear.
Only real interlocking strip in the world.
No need to take out strip to remove sash cord.
All rattling prevented on account of interlocking shape.
Rise in popularity never been equalled.
Cannot be bent, because they are tubular.
Have us call and give free quotations.
