

ARTICLE I

For the purpose of this Agreement:

“appropriate governmental authority” means for Canada, the Canadian Nuclear Safety Commission, and for Jordan, the Jordan Nuclear Regulatory Commission;

“equipment” means any of the equipment listed in Annex A to this Agreement;

“material” means any of the material listed in Annex B to this Agreement;

“nuclear material” means any source material or any special fissionable material as these terms are defined in Article XX of the Statute of the IAEA, which is attached as Annex C to this Agreement. Any determination by the Board of Governors of the IAEA under Article XX of the Statute of the IAEA that amends the list of material considered to be “source material” or “special fissionable material”, shall have effect under this Agreement only when the Parties to this Agreement have informed each other in writing that they accept that determination;

“persons” means individuals, firms, corporations, companies, partnerships, associations and other entities, private or governmental whether possessed of legal personality and their respective agents; and

“technology” means technical data that the supplier Party has designated, prior to transfer and after consultation with the recipient Party, as being relevant in terms of non-proliferation and important for the design, production, operation or maintenance of equipment or for the processing of nuclear material or material and

- (i) includes, but is not limited to, technical drawings, photographic negatives and prints, recordings, design data and technical and operating manuals; but
- (ii) excludes data available to the public.
