

Since the first establishment of this work several important additions have been made, amongst which the STATISTICAL TABLES formed from the ASSESSMENT ROLLS, and the POPULATION RETURNS, are perhaps the most valuable, as they will show at one view, when the whole are collected, what are the resources of the country, in a manner that must be perfectly clear and indisputable; and, a comparison of years, will prove the amount of increase, or decrease.

A very comprehensive CHRONOLOGY has been likewise added, to mark some interesting epochs in the History of the World.
