# THE "SIMONDS" SAWS

R. H. SMITH & CO., St. Catharines, Ont.

Sole Manufacturers for Dominion of Canada.

OUR Circular Saws, manufactured by the above patent process, having been in use by a large number of Millmen and Manufacturers for the past ten years, have won a reputation never attained by any other make in the Dominion.

### WE ATTRIBUTE THIS SUCCESS

First—To the superior quality of the STEEL, which is of a finer texture than is or can be used by any other process, and for which we pay a far higher price, being manufactured expressly for us.

Second—Our patented process of TREATING the steel, producing a uniformity and quality of temper never before attained.

Third—To our patented method of ADJUSTING, which insures a perfect running saw when correct cutting speed is given.

IF YOU WANT THE BEST CIRCULAR SAW MADE,

One that will stand up to its work better, and run longer without hammering than any other make, buy the

**SIMONDS**

OUR NEW CROSS-CUT SAW—"THE LEADER,"

Four gauges thinner on the back than teeth, ahead of all others, will be on the market shortly. Ask your Hardware men for them.

All Communications or Orders will receive prompt attention.

Life Insurance Company.

Head Office, - - 38 King Street East, TORONTO, ONT.

Incorporated by Special Act of the Dominion Parliament.

AUTHORIZED CAPITAL & OTHER ASSETS

OVER \$2,000,000.

Full Deposit with the Dominion Government.

The following is taken from the *Monetary Times*, of Jan. 20th. "When the announcement was made that a life assurance company was being formed under the above title, with the Premier of the Dominion as its president, and influential manufacturers and capitalists as its vice-presidents and directors, it was natural that considering the esprit corps of our manufacturers and the bonds which hold them together; considering, too, the prestige of the names at its head, a liberal support would be accorded the new company and a large business would be done.

"The result of some five months' business of this company shows even greater success in securing business than the most sanguine of its friends deemed likely. In that period no less than \$2,564,000 of insurance has been written, the premiums on which amount to \$62,000. The amount of stock subscribed reaches \$621,000, and of this \$126,000 has been paid up. It is clear that extraordinary energy has been put into the work of securing business, and the result justifies the effort. The agencies of the company are spread over all Canada and the volume of business secured surpasses anything done, to our knowledge, by a Canadian company under like conditions. The low ratio of cost of which the Manufacturers can point is in part accounted for by the large proportion—one-fifth—done at the head office, which either came unsolicited or was secured under circumstances which lessened its cost to the Company. Offered such a volume of risks for approval, it is of the gravest importance that the actuarial and medical departments of a new company shall be adequate to their task. It was made evident at the annual meeting that care and discrimination have been shown by the medical men and it is testimony to the reasonableness of the company's plans that they are approved by Mr. Standen, a New York actuary. The Manufacturers' has what is known in the States as "a good send off," it does not lack for enthusiastic workers and able directors, and it has great reason to look for continued success.

Agents Wanted in Unrepresented Districts.
