A Marvelous Discovery Which Grows Hair in 30 Days—"Crysolis"

\$1,000.00 REWARD IF THEY FAIL

CUT OUT FREE COUPON BELOW AND MAIL TO-DAY.

Why Wear Puffs, Pompadours, Hats and Braids of Dead, Filthy Chinese Hair, When Crysolis Grows New Hair in 30 days?

Everybody will be pleased to learn that the alarming increase of baldness has been checked at last by the discovery of a remarkable drug which actually grows hair.

No longer need the prospects of having to wear a wig distress men and women who are rapidly becoming bald, or who have already lost most of their hair.

"Crysolis"—the name given to this wonderful drug—has been found that it will actually cover the human head with hair, providing that the hair roots have not been destroyed, in about 30 days.

The properties are so remarkable that not only does it grow hair, but it also improves the quality of the existing hair if it is gray or faded, and it will frequently restore it to its natural color within ten to fourteen days.

No stronger argument can be used in its favor than that people who have tried almost every known thing for promoting hair growth, such as tonics, liniments, etc., with no tangible result, have found that Crysolis will do what they have been unable to do.

Since its discovery, a little over a year ago, it has taken the world by storm, and thousands of men and women are now living proofs of its efficacy.

It has been found that almost every known hair trouble will succumb to its influence, and minor cases of scalp or hair diseases, such as dandruff, itching scalp, etc., have been completely cured with two or three applications.

It was reasonably argued that if "Crysolis" would promote human hair growth, it would also promote the growth of hair upon animals of various descriptions. Test after test was made with almost

miraculous results, and lovers of cats, dogs, horses, etc., will welcome it as a means of restoring the coats of pets to their natural beauty when disfigured by hair defects. As a hair dressing "Crysolis" is undoubtedly unequalled.

It contains no oil whatever, yet it makes the hair soft and glossy, with a tendency to flourish.

The managers of the Creslo Laboratories have such strong faith in Crysolis that they have decided to make the following remarkable offer:—They will forfeit \$1,000.00 in gold if they fail to prove that Crysolis actually grows hair. They will forfeit \$1,000.00 in gold if any one can prove they were not the first discoverers of Crysolis. They will forfeit \$1,000.00 in gold if it can be proved that it contains any oil, dye or coloring matter of any kind. They will forfeit \$1,000.00 in gold if every testimonial and sworn statement which they publish is not absolutely genuine.

Arrangements have been made with the Laboratories to furnish free information in regard to this new process to all World readers. Merely cut out and send in the coupon below and you will receive free particulars of this marvelous new product by return mail.

Baldness, Dandruff, Itching Scalp, etc.

Mr. Starratt Home From Paris.

C. A. Starratt, the Globe editorial staff has returned after a two months' trip to the British Isles and France. Mr. Starratt visited many important cities and places in England, Ireland and Scotland, after which he crossed over to see the Frenchmen at home in Paris.

Paris is beautiful, says Mr. Starratt, but the Parisians are a nuisance. Everywhere one goes the persistency of street gulls is most annoying. They crowd in front, behind and all around, impeding the visitor to be conducted to the "sights" of Paris. Calcey and entry are almost useless in getting these commercialists off the trail. Even when perforce you are compelled to call a policeman for assistance, he does not appear to understand what the visitor is talking about.

Drank Carbolic.

Wearied in the battle of life, William Melville, sixty-seven years of age, formerly a member of the 13th Hussars at Aldershot, England, committed suicide Monday by drinking carbolic acid in a lane off Spadina avenue. He was found immediately behind the establishment of Harry Rankin, inspector of anatomy, who takes charge of the unclaimed bodies for medical purposes, when the body was found.

THIRD HARBOR IN CANADA

Engineer Sing Conducted City Officials and Press Around the Bay.

Yesterday afternoon the new harbor commission, the board of trade and the board of control were conducted around the bay by Government Engineer Sing. The object of the trip was that those on board might inspect the work being done at the western and eastern channels, and also at Ashbridge's Bay, where the city docks are being erected.

Controller Spence voiced his opinion by saying the work being done at these places is excellent and that the harbor will be greatly improved by the new gap and docks.

Mayor Geary was also highly delighted with the accomplishments made, and said he hoped the new commission would follow up the good work and that before long Toronto would have the harbor of a city of its size should own.

The trip took about an hour and it gave the next commission a good knowledge of the possibilities of making the Toronto harbor at least the third best in the country.

The new commission hopes that great transformation will take place in the near future and that the shipping facilities by water will be bettered. The improvements along the harbor front, they believe, will be of inestimable value to the manufacturer and also be a means of drawing more pleasure craft to the city.

TELLS THE FACTS OF A MINISTER'S EXPERIENCE

WHITE HEAD, N.S., Aug. 15.—Rev. Dr. Smith had a very trying time with chronic catarrh, but he is quite well again, having used Catarrhoxone. Although his throat and nose were inflamed and stuffed up, the soreness has disappeared and to-day there isn't the slightest sign of his former trouble. Practically every minister, teacher and public speaker in this locality now uses Catarrhoxone, which is guaranteed to cure all throat troubles, bronchitis, catarrh. The large dollar package of Catarrhoxone lasts two months—very economical; sample, 25c. Better use Catarrhoxone yourself!

WESTERN HARVESTING

Expected to Be General Within Another Week.

WINNIPEG, Aug. 15.—If the Canadian Northern crop news can be accepted, harvesting will be general throughout Western Canada within one week. The weekly crop report issued to-day is most optimistic, predicting in some areas a yield in wheat of from thirty to forty bushels per acre. Generally speaking, the report forecasts general cutting earlier than other reliable sources. It claims that the yield, while not uniformly abnormal, is better than last year in all districts. Special press representatives in the western fields claim to-day that it will be between two and three weeks before cutting is general. A final chevron and Alberta. It is estimated to-day that 15,000 harvesters have arrived and been placed since the first of the month.

ATHLETES' CHURCH

Sundry Ways and Divers Manners to Raise Funds.

Preparatory to the opening of the lighting campaign in aid of the Athletes' Church, next Monday, the athletic committee met last evening in the Central Y. M. C. A. to discuss the report progress in the formation of the sub-committees.

The meeting waxed enthusiastic when it was announced that a cheque for \$25 had been received from the C. W. A., the proceeds of the bicycle meet at Waterloo, on July 1. Another gentleman donated lumber for the church to the extent of \$100. Several expressed the intention of promoting games or sports, the proceeds to go to the fund. Among them Alex. Orr, who offered the proceeds of the Orr Bros' bowling alley next Wednesday, in their entirety.

A number of letters received from outside points evince an even greater interest in the province than has been shown in the city. "Bobby" Kerr, Olympic sprinter, has declared his intention of working on behalf of the athletic committee in Hamilton.

The subscription lists will be mailed to the captains to-morrow. A final meeting, before the campaign, will be held in the Y. M. C. A. on Friday evening.

Mr. Morrow was not present.

EXHIBITION NOVELTIES.

The exhibition entry lists closed yesterday, and all day the clerks were in the words of John K. Munro, "grabbing dollars and entry forms." There will be a great many more entries this year than there were last.

The Hand Pioneers Company have commenced work on the scenery for the spectacle in front of the grand stand. S. R. G. Penner, the manager, says that the performance there this year will be altogether different from what it has been in previous years. Several decidedly novel and what promise to be "living" features, will be put on. The "living flag," and the lantern drill are two of them. In the living flag a number of men will march out in the darkness and form up. Then they will suddenly put their arms on each other's shoulders, thereby connecting electric wires, and electric lamps on each man will be lighted. The audience will see a large Canadian flag composed of differently colored lights. The lantern drill, to be performed by 500 men, will be a lighted figure in the darkness, lighted only by the lanterns.

The arena in which the spectacle will take place, will be a large one, and the men will not have to wade through mud, as in former years, in the event of a rainstorm.

MCCURDY A WINNER.

AVIATION FIELD, CHICAGO, Aug. 15.—J. A. D. McCurdy won the 12-mile airplane speed contest in 14 minutes 41 seconds. Lincoln Beachey made fastest time, but was penalized one lap for fouling a plane.

Beachey was the only one to finish the 12-mile passenger-carrying race. His time was 19 minutes 19.7 seconds.

Just What It Is Given First Place Among Military Bands.

The bands of the Brigades of Guards are admittedly the finest military bands in the world—even the Germans tell you so, and of the Guards Bands who have visited Canada, none has been so enthusiastically received everywhere as the Band of the Coldstream Guards, which come to the Canadian National Exhibition, Toronto, this year. This is probably because of the general excellence of the band. Mr. McKenzie Rogan adds an ability to inspire his audience with patriotic thrills. The following description of the band, from the "Massey Hall" Toronto when the Coldstreams last played there is taken from The Mail and Empire. It illustrates the point:

COLDSTREAM GUARDS BAND.

"A ponderous bass of unparalleled sweetness, a wood-wind perfect in its ensemble, and a full-toned brass entirely free from harshness—this in a few words describes the band of the Coldstream Guards. Last night Massey Hall was crowded to the roof with the band of the regiment. The music was of a high order, and the stirring old chords resounded the singing broke out again and the people 'Never, never, never' until the roof trembled with the volume of sound. Everyone was alike, from the dress-suited, white-shirted aristocrat in the top of the gallery. Then, too, it was played by the band of a regiment whose blood has been shed among a hundred hard-fought fields and which to-day stands unquestionably in the van of British bands."

Thousands in Swimming.

More persons are going bathing in Toronto these days than ever before. The figures of the Property Commissioner Harris show that last week 41,585 went bathing as compared with the same week of last year, when 18,718 bathed at the free stations.

Mr. Humphries' Wedding Gift.

A presentation of a purse of gold was made in the health department at the city hall yesterday to W. H. Humphries, a plumber, who is being married to-day. The presentation was made by Dr. Hastings, M.H.O., on behalf of the staff of the department.
