WOMEN MAKE GOOD IN WAR ACTIVITY

Miss Florence King Speaks at Business Women's Club Meeting.

Miss Florence King, president of the American Women's Association of Commerce, was the chief speaker at the meeting of members of the Business Women's Club held at the Toronto Conservatory of Music last night. Miss King, who is an eminent lawyer in Chicago, prefaced her remarks by an expression of the pleasure she felt at being again with the women of the Business Club. Miss King said that a good deal of history had been made in the 12 months that had elapsed since her last visit. One of the things which she foresaw would come out of the war, said the speaker, that in the days to come there would be no separation of the sheep from the goats—men would no longer go off and hold executive meetings in the cities which concerned the general interests without women. Women will not have gone far enough in advance if they fail to figure out where they are going to stand in the time of reconstruction.

Speaking for herself Miss King said that working on the point of obtaining equal pay for equal work for men and women alike had brought her hairs to her head. Since the war, the Government of the United States has established the precedent and manufacturers had had to follow. She also emphasized her opinion that women had done things equally as well as men in science, in the professions and in other ways, but there had been no shouting about it. The fact and no monuments built to perpetuate the memory of their achievements.

Speaking of conditions in the time of reconstruction, Miss King said it would take the best grey matter that men had to put women back into their homes and make them stay there. Miss King concluded by expressing her opinion that the progress of the business woman was the eighth wonder of the world, and her assurance that in the time of reconstruction the business woman would do her part. "Reconstruction" was the subject of Miss Marjory MacMurphy's address. The speaker said that the work of women in munitions had given them added respect from men and women. The success of the farm girl had given her a permanent place on the land. Women supervisors in munition factories had given proof that women may satisfactorily oversee other women at work. The work of Canadian nurses was an outstanding achievement for which there should be a national monument.

Canadian women, said Miss MacMurphy, have a genius for organization, an example of which was found in the women's institutes, which were organized at St. Mary's, and on the Ontario model they were now established in England, Scotland and Wales.

Kenneth Dunstan presided and gave some interesting insights on his trip overseas. Miss Wiseman, president of the Business Women's Club, seconded by Miss Mary McMahon, vice-president, expressed the appreciation of the club to the speakers.

GUILTY OF SEDUCTION.

Alexander Skene was found guilty by a jury at the sessions yesterday on the charge of seduction. The offence was alleged to have been committed on a little girl under the age of 19 in August, 1917, in a motor car on the Kingston road, and a child was born this year. A technical point, T. C. Robinson, K.C., who appeared for accused, asked for a reserve case for the court of appeal, which was granted, bail being fixed at \$2000.

PARCELS MUST HAVE PROPER DECLARATION

The attention of the public is directed to the requirements that every parcel post packet for the United Kingdom, France, Italy and other destinations overseas, including those addressed to the soldiers, must be accompanied by a customs declaration affixed to the parcel by the sender, giving a definite statement as to the nature and value of the contents. The postoffice department advises that a large number of parcels reach the general postoffice daily which cannot be sent out, the senders declaring the contents indefinitely as "soldiers' comforts, clothing, dry-goods, eatables, sundries, etc." It is, therefore, necessary to return such packets to the senders in order that the declarations may be properly filled in. This not only entails unnecessary expense for the part of the postoffice officials, but may cause delay in despatch. Care should, therefore, be taken to see that the declarations are properly filled in as required by the postal regulations.

NO LAW TO PROSECUTE CONFESSIONED BIGAMIST

One of the peculiar clauses in Canadian criminal law was brought out in the police yesterday morning when Crown Attorney Corley confessed his inability to prosecute Hector Vatchell, a self-confessed bigamist. The man, appearing on a charge of failing to support his legal wife, enlisted in the early part of the war, and while in England married another woman. According to the law it is impossible to prosecute the man for an offence committed in England. Instructions will be given to have the woman and her child deported. The man was ordered to pay \$8 a week to his legal wife.

CHURCH'S WEAKNESS REVEALED BY WAR

Bishop Richardson Gives Account of His Work Overseas.

HEARD IN MASSEY HALL

Big Meeting Under Auspices of Laymen's Missionary Movement.

"The church by creed and canticle is asserting the supremacy of things above, and the members of the church are asserting the supremacy of earthly things. The failure of the church is not a matter of circumstances. War did not make the failure; war revealed the weaknesses; war has stripped it of its conventionalism and, has shown it as it was."

This was the message of Bishop Richardson of Fredericton, the official overseas delegate from the house of bishops of the Anglican church to the great mass meeting held in Massey Hall last night under the auspices of the laymen's missionary movement. The meeting was presided over by Justice Hodgins, who welcomed the members of the general synod to Toronto. Archbishop Worrell of Nova Scotia responded in the absence of the primate.

Bishop Richardson told of the noble deeds of the Canadians at Vimy Ridge, Ypres and other places. He pictured the lives as they were taken at the front and in the hospitals. "There are great moral evils existing and we cannot make light of them," he said, "but men have stood up well against them. Only once in my year overseas did I see a man intoxicated. Speaking to Sir Arthur Currie one day on the social evil, he said, 'Not one Canadian soldier has ever been charged with a crime against a woman.'"

GOT SEVERAL PRIZES AT OTTAWA EXHIBITION

Many prizes at the Central Canada Exhibition, Ottawa, were carried off by the Kemptville Agricultural School, it was stated at the department of agriculture, parliament buildings, yesterday. The dairy herd took first prize. The aged bull exhibits took two second prizes. In the graded herd classes five third prizes, two fourth and two fifth prizes were won. This is the first time that the cattle of a provincial institute have been shown at a fair in Ontario, and is considered a good showing, especially in this case, when competition was very strong.

SERVED REFRESHMENTS.

Mrs. Anderson of Howard street conducted a wonderful buffet at the Institute during the "tag" of yesterday, where the workers of the near districts, some 150 in number, were served refreshments.

FROM ISLAND OF ORLEANS.

The summer residents of the Island of Orleans have sent \$100 to the treasurer of the prisoners of war society. The gift can be seen in the collection of the Municipal Chapter of Quebec L.O.E.

Shaughnessy Predicts the Finish Of the War Within a Year

Winnipeg, Sept. 12.—Within a year the great world war will be over, in the opinion of Lord Shaughnessy, president of the C.P.R., who, accompanied by directors of the big railway, was in the city on an inspection trip. The president expressed the view that Germany must succumb to the terrible blows she had endured and would experience on the west front.

POULTRY WAS POISONED.

Chatham, Sept. 12.—It would appear as if an organized killing off of poultry is under way. William Merritt of Raleigh Township brought in fifteen dead chickens yesterday morning. They have been sent to Toronto to be examined by experts. In the past three or four weeks, Merritt has lost approximately two hundred geese, ducks and hens. Mrs. Bagnall of Dover complains she has lost all her poultry stock and there are other complaints.

HOCKEY PLAYER KILLED.

Ingersoll, Sept. 12.—That Pte. Harvey Wilson, a well-known local boy, son of Mrs. Samuel Wilson, had been killed in action on April 30 was the official word received today. Pte. Wilson was one of the town's prominent hockey players. He went overseas with the 16th Battalion. Another local boy, Pte. Geo. M. McMillan, son of John McMillan, was today reported wounded.

MAY PROBE FINANCES OF THE NEWSPAPERS

Commissioner on Newsprint Declines to Postpone Enquiry as Urged.

MUST FIX THE PRICE

An Order Will Have to Be Issued Before End of Present Month.

Ottawa, Sept. 12.—The inquiry into the cost of the production of newsprint in Canada, resumed here today by Commissioner Pringle, will be followed by the fixing of a price for newsprint by the commissioner in his capacity as controller. The price will probably apply to a six months' period.

Oct. 1, 1918, to April 1, 1919. The manufacturers of newsprint, with the exception of the Price Bros. and Belgo-Canadian Mills, who have withdrawn from being parties to the inquiry, alone were represented at the hearing today. The Canadian Press Association, which had protested against the inquiry proceedings, on the ground that the notice given was too brief, was not represented.

Referring to the absence of counsel for the Canadian Press Association, Commissioner Pringle expressed his regret, but said that, in view of the necessity of action being taken this month, he would have proceeded along the line of the inquiry. A feature of the proceedings was an application by George Montgomery, K.C., to the commissioner to enlarge the scope of the inquiry so as to include investigation into the present financial position of the newspapers and the extent to which they have passed the increased cost of newsprint along to the public.

The examination of production costs for the purpose of showing how the award of the war labor board in the United States and the new freight rates added to the cost of manufacturing newsprint paper, showed that to the Spanish River mills the increase in the new wage award added \$2.44 per ton, and the increase in freight rates added about two dollars per ton. Wood costs increased by \$2.00 per ton, and as one and one-half cords of wood was used per ton of newsprint, the total increase was \$3.06. For the wages added, the increase in the wages added, about \$3.67. To the St. Maurice, pulp and paper Co., the increase in wages amounted to \$3.00 per ton, and freight rates on materials \$1.75 per ton.

The June cost of the Laurentide Co., the cost of the report of the official auditors, Messrs. Clark and Sharpe, was \$42.31, and the May cost \$39.87. The May cost of the Fort Pelly Company was \$62.50. The inquiry will be continued on Friday.

AWAKENED SUDDENLY; STEPPED OFF TRAIN

Ingersoll, Sept. 12.—Injuries of a serious nature, including concussion of the brain, were sustained this morning by Harold Hill, 18 years of age, of West Oxford, when he stepped off a rapidly-moving Grand Trunk passenger train from the west. Hill had been in attendance at the Western Fair yesterday, and was evidently sleeping on the way home. He is supposed to have been aroused so quickly when "Ingersoll" was called, that he stepped and stepped off. He was removed to the Alexandra Hospital.

Carbolic Acid on Rubber Rings Was Not Enough to Kill a Fly

Galt, Sept. 12.—When some more alleged poisoned rubber rings were submitted today by Dr. Radford, M.O.H., to a test, he found that while there was no doubt that carbolic acid on some of them, it was not in sufficient quantities to kill a fly. The idea of Ger- man agents was dispelled when it was found that the rings were made in Toronto.

COL. BICKFORD MAY COMMAND.

Ottawa, Sept. 12.—It is unofficially stated here that Lieut.-Col. H. C. Bickford, who has for a time been acting officer in command of the Toronto military district, is booked for the position of brigadier-general in command of infantry division of the Canadian Siberian Expedition.

You Feel Fine

Fatigue is the result of poisons in the system, the waste matter resulting from the activities of life. The kidneys have failed to filter these poisons from the blood and you are tired.

But awaken the kidneys and liver by using Dr. Chase's Kidney-Liver Pills and you soon feel fine. The poisons are swept from the system, the pains and aches are gone and you are ready for work and for play.
