TO-DAY'S LIST:

Canada, re Mooney and Western Company, Davis v. Pringle, S. T. Ry. Co., Bennett v. Bennett,

NIAGARA FALLS NOTES.

The M.C.R. Company have had a big rush of freight business during the past three weeks, and the employes in the freight offices and the customs officers have been kept husting. The average number of cars handled on the cantilever bridge during the past week is one car per minute in a day of 24 hours. This week's business will probably exceed that.

The bills presented to the Ontario Government by W. M. German, M.L.A. for Welland county, asking for a charter for an electric road from Chippewa to Fort Erie to be exempt from that clause of the Electric Railway Act relating to Sunday operations, received severe criticisms in several of the church pulpits last night. The pulpit will evidently use its influence to fight any attempt to run Sunday street cars.

Neminations for councilors to fill the

will evidently use its influence to fight any attempt to run Sunday street cars.

Nominations for councillors to fill the vacancy in Niagara Falls South Village Council were held in the Town Hall, Niagara Falls South, this afternoon. The Conservatives nominated J. W. Speck, who was defeated by only a few votes in the recent election, and Herman Misener. The Reformers nominated James Willox and George Piper. There is a runior that Misener will withdraw, leaving but one Conservative in the field. In that case Speck is sure of election, and that will give the Conservatives a majority in the council. Political feeling is running high, and a hot contest is expected.

A large number of American visitors are around the Falls to-day, celebrating Washington's birthday.

The Niagara Falls Lodge, Chosen Friends, hold a grand banquet in Lundy's Hall to-night.

Yesterday afternoon a photographer of Philadelphia, whose name is unknown, undertook to slide down the ice mountain under the American Falls, as he saw all the little boys doing. He had been on top of the mountain taking a photo of the Falls and when finished a boy offered him a hand-sleigh. This he took, and with his camera in his hand started down the hill. He was unable to stop at the bottom, and went into the river. A man named McCoy, who runs the incline railway elevator, fished him out.

The Snake Hill Dummy Road.

Fort Erie, Feb. 22.—(Special.)—It is now a certainty that the charter of the Snake Hill dummy raifroad will be taken over by a company of large capitalists, who will extend the line during the coming season. Whether the present holders of the charter will enlarge their company or sell out to another is not yet known, but the probability is that the charter will be transferred. Messrs. E. and B. Baxter, who are interested in the ferry company, accompanied by an engineer representing New York capitalists, have been going over the route of the proposed extension, and consulting maps of the surrounding country. The road at present running from the docks to the grove will be extended lato a belt line, passing by the Fort Brie Jockey Club's track, and through Bridgeburg back to Fort Erie. A branch will also be built to Crystal Beach and Ridgeway, about eight miles up the lake, with the idea of extending it to Port Colborne next year. The road for this season will be operated by steam, but will be converted into an electric line in the near future. Fort Erie Fort Erie are a laage number of summer residences, is also controlled by the charter.

Chleago Record.

Westminster Hall is now witnessing a nifique trial which in some particulars suggests the great historical spectacle when Warren Hastings bowed his knee at the bar in the same hall more than 100 years ago. Ceel Rhodes, like Hastings, has built up a great-empire for England, and, being yet in the prime of life, a man of indomitable will and great resources, with South Africa zeal-ously loyal to him, he is even a greater personage than was Warren Hastings during site of the Tailors of Toronto.

Three-fourths of the Tailors of Toronto his trial as regard future possibilities. This fact the committee appointed by Parlia-fact the committee appointed by Parlia-fact the committee appointed by Parlia-fact the candire into the Transval raid fully appreciates, and so far Rhodes has been treated with all possible courtesy. But he is clearly chafing under what is to him the impertinence of any enquiry into his conduct, and sensational developments may occur at any time. His manner is said to be absorbed and defant, and he submits to questioning with but bad grace, and does

not hesitate in turn to question his questioners.

He has, however, in a few sentences, presented his own case very clearly, and that he is quick to avail himself of every ettence, was shown in his reply to a question of Sir William Vermon Harcourt last Tuesday: "I have very probably done wrong, but there is another movement now which has much support—namely, the incursion of the Greeks. That's wrong, too, no doubt."

The tu quoque was admirable. The Liberal party, of which Harcourt is the real leader, is just now working itself into the claims of Greece, and Rhodes cleverly placed Harcourt in the box with himself. The progress of this trial, which promises to be a famous one, will be watched with great interest, not only by the English nation, which is in pretence condemning what at heart it does not condemn, but also by Cape Colony and the stern burghers of the Transval, it is not at all improbable that the Parliamentary committee is more worried than Rhodes. Certainly it has a difficult and delicate task before it, from witch it would doubtless willingly escape if it could find an honorable way of exit.

BLINDS FOR BAR ROUMS.

BLINDS FOR BAR ROOMS.

Niagara Falls, Ont., Feb. 22.—(Special.)—Work on the new bridge at the Canadian end is still delayed by the non-arrival of iron from the shops in Steelton, Pa. Only a very small force are at work.

Peter Hay, a resident of this place, and fireman on an M.C.R. engine, met with an accident in the N.Y.C. yards across the river this morning. He was olling and wiping his engine, when it suddenly started and caught his hand in the drive bar, tearing the flesh from the back of his hand. He was brought to this side and medical assistance called. Eight stitches had to be put in the wound.

Trainmaster Cunningham of Hamitton and General Passenger Agent M. C. Dickson of Toronto were in town on official duties to-day.

We have made rapid strides lately, and in the right direction. A problem confronted us some little time ago—whether it was better to do a credit business with its big prices and big risks, or a cash business of large proportions at the closest cash prices. We decided in favor of the latter, and the wisdom of prices. We decided in favor of the latter, and the wisdom of the decision is evidenced by the colossal proportions to which our business has attained. The enormous number of garments sold for cash, the almost amazing buying facilities we possess and our unique knowledge of the woolen markets, are the factors which enable us to sell a Scotch Tweed Suit that formerly cost \$28 for \$20. A direct—a substantial—saving of \$8. For an Evening Dress Suit which used to cost \$50 we now charge \$35. Lined all through with silk and A I in every particular.

What a revolution was created in the Trousering trade when we started our "Guineas," \$5.25 spot cash! Thousands have worn them and are wearing them with satisfaction. Some may persist in paying \$8 and \$9 for similar goods, but if they are satisfied to do so all we can say is: "Where ignorance is bliss, 'tis folly to be wise."

American securities are higher in some

inactivity in trade, the conditions in that market are likewise encouraging from a speculative and investment point of view. While the disturbed political conditions in Europe preciude the possibility of an immediate considerable favorable foreign interest in American securities, it was made clear on Monday last that there is no floating supply of American stocks in London which could be thrown over on Wall-street, as was done in the Venezuelan pant. The current stagnation in the stock market detracts from the value of any detailed comment upon its features, but there is every reason to believe that when public interest is once more active in Wall-street, it will be upon the constructive side of the market, as almost all the fundamental features of the situation indicate a prolonged period of prosperity for this country.
