Special Despatches of Interest to Shareholders in Two Mining Companies.

## ABOUT THE CHAMBER OF MINES

Recently Formed to Foster Mining Development in Central Canada—Mining Stocks.

The Central Canada Chamber of Mines was established this month, with headquarters at Winnipeg. The patrons of the association are the Right Hon. the Earl of Minto, Lord Strathcona, Sir Wilfrid Laurier, Hon. C. J. Patterson and Sir Oliver Mowat. The Hon. Hugh John Macdonald and Hon. W. Ross are honorary presidents. F. W. Stobart of Winnipeg is president, and D. W. Hole, Winnipeg, Mayor Chudwick, Port Arthur, vice-presidents.

The membership is limited to one hundred, but the number of associate members is unlimited. The objects of the chamber are to advance, promote and protect the mining interests of Central Canada, and to disseminate absolutely reliable information concerning them. Mr. F. H. Macdonald, late of Johannesburg, S.A., is the organizer of the association. In his address at the inaugural meeting, he pointed out the importance of the chamber in the eyes of the world.

The chamber is to be a clearing house for all mining news, and to act as a medium for the exchange of information between the mining community and the public.

The chamber is to be a medium for the exchange of information between the mining community and the public.

TRUSTEES

THE TRUSTS AND GUARANTEE CO., LIMITED, OF TORONTO, is acting as Trustee, Treasurer and Registrar for the Mining Stock Investors Co.

Offices—Sun Life Building, Hamilton, Ont.

OFFICIAL BROKERS

WILSON BARR & SONS, Hamilton and Toronto.

Objects

The Mining Stock Investors Co. has been incorporated with the following recited objects, viz: To purchase, own and sell mining stocks, bonds and options and to conduct a general brokerage business.

The central idea of the company is the banding together for their mutual advantage of individual investors and speculators in mining stocks.

As is well known the individual speculator has, single-handed, to contend with many disadvantages, not the least of which is his inability unaided to adequately inform himself concerning the real merits and possibilities of the propositions into which he buys. Another disadvantage under which he labors is the fact that he is at the mercy of the ruling factors which control the market.

The reader will readily recognize that a strong organization of this kind with considerable capital at its disposal will possess advantages which the single operator upon the market does not enjoy. It will have special facilities for investigating the merits of mines and the standing of mining companies, and will therefore be in a position to intelligently discriminate in its investments.

The company's operations will be directed by a board of management which will have in its employ one or more mining engineers and several financial experts. The duties of the engineers will include such special examination of particular mines as the board may see fit to order from time to time, and the financial experts will advise the Directors of the technical state of the market from day to day and as to the opportune moments at which to buy and sell.

It will be generally admitted that a company thus equipped will be in a position to minimize the risks of investment and speculation, and that the individual who could not alone employ experts to advise him will, as a shareholder in this company, have such a service. Besides, instead of investing his funds in one or more issues, he will enjoy the advantage of having his money spread over a wide field of well-investigated stocks, and thus escape the danger of risking all his eggs in one basket.

Moreover, a corporation formed on the basis of this company will have some weight on the market, and in cases where it may be deemed advisable it may secure control of special issues and thus be enabled to dominate the market price for particular stocks.

Further, being strong, the Mining Stock Investors Co. will have the expert advice and the confidence necessary to take advantage of such opportunities as the present, when, owing to the South African war and the labor troubles in British Columbia, the bottom is out of the market. The time to buy is when everybody else is afraid to, and that is just what the individual seldom has the courage to do.

The Mining Stock Investors Co. will devote its attention chiefly to dividend-paying mines and to properties approaching that status. An important feature of the company's programme is its intention to extend its operations to the United States, Great Britain and France. Many investors in these countries look with interest upon Canadian mines, and the market for Canadian mining stocks can be greatly broadened by operating amongst them.

By way of recapitulation it may be pointed out that by taking shares in this company the investor simply puts his money into carefully investigated stocks instead of risking it in propositions concerning which he is in a position to know nothing.

Two hundred and fifty thousand shares in the Mining Stock Investors Co. are now offered the public at par, and subscriptions varying in amount from \$10 upwards will be received. Ten dollars buys ten shares.

As above indicated an arrangement has been made whereby the Trusts and Guarantee Company, Limited, 14 King Street West, Toronto, undertake to act as treasurers, trustees and registrars for the Investors Company.

Subscribers will, therefore, send applications for stock, together with remittances in payment for same, to 14 King Street West, Toronto. The subscription books will open this morning and remain open for a limited period.

In view of the possibility of the whole lot of stock being oversubscribed, the company reserves the right to allot the shares pro rata according to size of the applications received.

## GIVES MEN Strength.

ELECTRICITY—the Fountain of Youth, the perpetual energy which sustains all animal life. It is the source from which springs the bubbling spirit of joy in young manhood. It is the vital element which keeps up the nerve force in old men to a grand old age. When the body is charged with it the vital powers are strong. Confidence flashes from the eye and the step is firm. Without it—well, how is it with you? Are you weak, gloomy, wanting physical and brain force? If so you should begin at once using my famous appliance for weak men—The

Dr. Sanden Electric Belt,

now known and used in all parts of the world for these nervous disorders of men which result from youthful errors or later excesses. You place the Dr. Sanden Electric Belt comfortably around your waist at night when retiring. Use it this way for two or three months and feel the new vigor and energy which is sure to come to you.

Attachment for Men.

The new suspensory attachment for the DR. SANDEN ELECTRIC BELT applies current directly to the weakened parts.

Beware of those concerns and individuals who try to live upon the reputation we have made. They offer old style Dr. Sanden Electric Belts along with their own worthless imitations. The latest model Dr. Sanden Belt can be had only at my office.

FREE BOOK.

Write to-day for my little descriptive book, sent sealed free, or drop in and consult me at my office. No charge for advice either by mail or in private consultation.
