Marshall, Spader & Co. 10 Marshall, Spader & Co. to Beaty:

The wheat market showed for a time this morning a very decided improvement in tone, stimulated by the revival of cash wheat demand on the declines.

Outside markets have shown a better tone even than ours, a good demand for their wheat.

Foreign conditions continue bearish and short selling of a belated kind as well as by disgusted longs, was responsible for the severe break which came near the close. The following were the last prices made at the call board of the Toronto Board of Trade. Prices are for outside shipping points, except when mentioned:

Manitoba wheat—No. 1 northern, no quotations, North Bay; No. 2, no quotations, North Bay.

the severe break which came near the close.

We are not disposed to press the selling side further, not because we do not think values are too high, for we still hold that view, but believe that opportunities for fallies are in the market on which a better sale basis can be had.

Ennis & Stoppani wired to J. L. Mitchell at the close:

Wheat—The opening in wheat was somewhat of a surprise to many, but was largely due to the fact that shorts had placed orders to cover early anticipating lower initial prices. During most of the session firmness was the rule, with prices averaging from 1c to 1½c above yesterday, but just before the close a private cable was received stating Argentine shipments would be larger than ever. This was a signal for heavy selling, resulting in a sharp decline, the final figures being about yesterday's close. Foreign markets were all lower. We believe the market will rally from the veakness in the late session.

Corn and Oats—Ruled firm and active all day, prices at one time making a new high record. Towards the close there was free realizing sales and prices reacted a cent. We continue very friendly to corn and believe it a purchase on receiving the corn of business was light.

ernment had taken certain steps in accordance with assurances given last year. The board of health had given one proposal was to issue a commission so as to have complete information. There were many things which might be done in the meantime. Those who were unable thru ignorance to help themselves might be assisted to do so. Every doctor should be required to report in a strictly confidential way every case that came under his notice to the secretary of the provincial board of health. This would enable the secretary to put each family so affected in possession of the literature available, and to instruct them in the sanitary measures and hygienic precautions measures and hygienic precautions which should be taken. Chaotic Condition.

Winnipeg. March 11.—(Special.)—
While no definite action has been taken by yet by the Winnipeg Grain Exchange regarding the future of that organization, and while as a consequence there are no official wheat closing prices to govern purchase price of farmers' grain at the interior elevators, it may be stated with confidence that the sentiment of the members is crystallizing in determination of a distinct holding company, which will take over real estate and other assets of the exchange, including the quarter million dollar unfinished office building on Lombard-street.

Thus relieved from this weight the Winnipeg Grain Exchange will be formally disbanded, but its members will form themselves into a voluntary association. The pious hope is expressed that before long the militant Grain Growers' Association will see the folly of their way and adopt an attitude which will encourage grain men to seek a new charter. Meanwhile there is no intention of moving from Winnipeg. An interesting point is how far prices set by this voluntary association will be effective in setting official prices for grain purchases at interior elevators. Reports from country points show that trade is in a chaotic condition, resulting from the withdrawal of official Winnipeg daily quotations.
