20 to 1 SHOT To-day I will "unbelt" on what, in my opinion, is the "surest winning bet" I have sent out this week The "trick" has been kept under "cover" by one of the "wisest" trainers in the business, whose "dark lantern" methods have never failed to get him 15 or 20 to 1 against a horse that should naturally be a 1—2 shot. He is an "adept" at placing his "racing machine" in a "joke field," and "to-day" this trick will leave the dogs he's entered with as though they were tied at "the post." They won't know which way he went. This is the spot to bet your limit.
