A BOY'S STRUGGLE FOR LIFE TWICE DELIVERED FROM DEATH

Mr. S. J. New of 154 Baldwin St., Toronto, says: "I can trace my son Harold's trouble to when he had the measles five years ago, from which he never really recovered. Some of the best physicians attended him, but with months of suffering he in turn contracted whooping cough, bronchitis, and then pneumonia."

"MY POOR BOY WAS REDUCED TO A SHADOW." "Month after month went by that we shall not soon forget; months of sleepless nights, fearful coughs, weakening night sweats, left my boy a mere shadow. He had no appetite, and my heart ached to see how he was wasting away. He spent one whole summer at the Lakeside Home for sick children, and came home greatly improved, but the cold winds of October took him off his feet again. The doctor advised me to send him to Muskoka, but heavy doctor's bills had depleted my financial resources and such a step seemed out of the question. Scores of friends advised the use of PSYCHINE, but I was inclined to place PSYCHINE on a par with many advertised remedies and cheap nostrums. However, my friends proved such strong advocates of it that I at last consented to try it."

"HUMAN LIPS CANNOT DESCRIBE THE CHANGE." "We tried PSYCHINE and human lips cannot describe the change that took place. No words can express the thankfulness of his mother and myself when we saw the crisis was over and realized that our boy was fighting his way back to life and health. PSYCHINE had mastered that which all the doctors' prescriptions

had failed to check. Day by day Harold grew stronger and all through the winter of 1906 although continually out of doors he failed to take cold, and he put on flesh very quickly. By the spring my son was completely cured, and developed into a strong, sturdy lad.

HAROLD AGAIN FALLS A VICTIM TO DISEASE. "About last Christmas he was again attacked, this time with diphtheria; and had this dread disease very badly. After spending some time in the Isolation Hospital he returned home cured of his illness, but oh I in such a pitlable state of emaciation. The latest struggle with the grim monster death had reduced him to a skeleton almost, and the boy could scarcely stand, he was so weak."

PSYCHINE AGAIN GIVES GOOD SERVICE. "Again we began to give him PSYCHINE and before one bottle had been used he showed a marked improvement. We continued the treatment, and in a very short time Harold was as strong as ever and able to go to school. We haven't any need for a doctor in our home since we started using PSYCHINE. It is certainly a wonderful remedy. Can you wonder that I am never tired of proclaiming its merits?

"Though not in such a marked degree, I may say that my other children have been greatly benefited by this medicine. It saved my boy Harold's life without doubt, and no sufferers should despair until they have given PSYCHINE a trial."

PSYCHINE is the greatest strength restorer and system builder known to medical science. PSYCHINE regulates and tones up all the vital organs. It cures stome troubles, aids digestion, destroys disease germs in the system. The greatest of tonics, it makes blood pure, rich and healthy, giving renewed vigor and energy to those who are weak and tired run down. It revitalizes every part of the system, and cures when all else fails. At all Druf 50c. and \$1.00. DR. T. A. SLOCUM, LIMITED, Slocum Building, Spadina Avenue, Toron

A SCIENTIFIC WONDER.

The Secret of a Famous Healing Balm

The re-discovery of a secret that has lain hidden in the dust of 20 centuries is an event full of fascinating interest, and the story of Zam-Buk, the worldfamed first-aid and skin-cure will always enlist attention. Zam-Buk is the rtual descendant of those wonderful and mysterious herbal balms by the use of which the manly athletes of Ancient Greece and the stalwart glad-in the past Tororto nearly more than lators of Rome ensured the healthiness and ready-healing of their skin.

Many are the attempts that were made to produce a perfect balm for the skin, but only in Zam-Buk has the ideal been realized. Since its dis-

covery Zam-Buk has been welcomed in mansion and cottage, and the people two hemispheres realized that they have been placed in possession of an absolutely unique cure for skin complaints.

The reasons for this triumph of science are simple and few. Taking a lesson from the Ancients, the proprietors of Zam-Buk first of all wisely decided that theordeal balm must be purely herbal and contain not the slightest trace of rancid animal fats poisonous minerals. Thus Zam-Buk

is made solely from rich and pure essences obtained from certain rar medicinal herbs. These juices and extracts are prepared and refined by ingenious scientific processes and then so skilfully blended that a unique,
