The Greenland Trade

But the Greenland trade has also caused several barques of from 1000 to 1500 tons being built of late on the Bay of Fundy. They are strongly built so as to resist the ice, and bring a mineral called cryolite from Greenland to New York, the same being used for making glass.

The Output of Coal

Mr. Leckie says the output of coal from the Nova Scotia mines is far in excess of last year, although the Ottawa Government's policy is to restrict the iron industry will not fall to have an injurious effect. The Dominion Coal Company he states is now producing half of the amount required for the Iron industry, the total quantity being 1,000,000 tons, the rest being divided between the Pictou and Springhill mines.

Mr. Leckie says

Mr. Leckie says Hon. A. G. Jones of Halifax is very angry, and Mr. George Mitchell, the Liberal M. L. A. for Halifax, went to Ottawa to have it out with Mr. Fielding, but whenever the Finance Minister mentioned signs of weakening Sir Richard Cartwright invariably came to the rescue and their Halifax supporters returned to Nova Scotia sadder but wiser men.

Gold Mines are Paying

Mr. Leckie also discussed with interest the gold mining industry in this province, and declares that all the mines now running in Halifax, Hants, Guysboro, Queen's and other counties are paying properties, and happily most of them are controlled by local capitalists. New and improved machinery has been introduced and management secured, and gold mining is now a profitable enterprise.

ATTACK AND RETORT.

Messrs. Allan and Messrs. Peterson, Tate & Co. on the East Line.

The following letters are from The London Times: Sir—Mr. Chamberlain, replying to a question in the House last night, has explained that, subject to certain conditions, Her Majesty's Government have approved of the provisional agreement made between the Dominion Government and Messrs. Peterson, Tate & Co. for the establishment of a fast service, and he added that the representatives of other firms were fully considered before a decision was arrived at. He further explained that tenders were called for at the end of last year, and, as the only tenders received claimed a subsidy of half as much again as Messrs. Peterson, Tate & Co. offer, the firm which then tendered gave no indication of their readiness to provide a service fulfilling the advertised conditions on terms at all equal to those offered by Messrs. Peterson, Tate & Co. Her Majesty's Government decided that it was unnecessary to call for fresh tenders.

TO RELEASE M'ILLAN.

The Mayor Carries a Petition to Ottawa Asking That the Flinging be Given His Liberty.

Mayor Fleming left for Ottawa last night to interview the Dominion Government on municipal matters that require attention. It is understood that he will try to induce the Government to reduce the price of the land purchased by the city for the enlargement of the Cattle Market. The price agreed upon was \$22,000, but the Council think that is too large a sum. His Worship will also present a petition for the release of William McMillan, sentenced to a long term in Kingston Penitentiary for setting fire to the Osgoody buildings in 1895.

THE FINE PLAY BY THE LOYALISTS TO BE PRODUCED AT THE GRAND TERN.

Of all the attractions during the Jubilee celebrations, the play written by Miss Catherine Nina Merritt and to be presented at the Grand on the evenings of Thursday, Friday and Saturday this week, deserves the most liberal patronage of the public. The play is a historical drama, and commences in the days of the French Revolution, and afterwards follows the fortunes of two of the Loyalist families, who, with the faithful assistance of Ingonia, under their beloved leader, "Chief Johnson," were driven from their homes to the then wilds of Canada, and because they were loyal to King George III.
