

IS NOT FOE TO CAUSE OF SCIENCE

Sir Bertram Windle Explains the Position of Catholic Church.

That the Catholic Church is not inimical to science was the text of a lecture given by Sir Bertram Windle at Columbus Hall last night before a large audience under the auspices of the Catholic Truth Society. The array of names of eminent scientists who belonged to the Catholic Church, presented by the speaker in the course of his address, proved most conclusively, he argued, that the statement of hostility between the church and science was absurd.

Who Established Universities. If the charge of hostility had any foundation, how do you suppose the oldest universities came into existence?

The story of the bull of Pope Boniface VIII, in which it is said he excommunicated the study of human anatomy, was altogether false, said Sir Bertram. There was no bull.

That the Pope did was to condemn the practice then in vogue of cutting up the bodies of the crusaders and sending their bones only home to their friends, because of shortage of ships and having no process of embalming. It was a noted scientist of Louvain who at the age of 22 revolutionized the entire science of anatomy.

His Grace Archbishop McNeil expressed the appreciation of the audience to Sir Bertram for his address. F. P. Murray, president of the Catholic Truth Society, made an appeal for an increase in membership.

Church Forward Drive. Baptist churches in the maritime provinces have failed to reach their objectives in the interchurch movement. There are still 250 churches to hear from in these provinces.

The Congregationalists' objective called for \$100,000 and this also was exceeded by \$16,000. Five million dollars set by the Methodist churches as their objective, was met in a short of this figure, which up to today is \$4,775,986.

IN MOTHERHOOD

A woman needs all the strength possible to take good care of her baby. The reflections of a married woman are not pleasant if she is delicate, run-down, or over-worked. She feels "played out."

Dr. Pierce's Favorite Prescription regulates and promotes all the proper functions of womanhood, enriches the blood, dispels aches and pains, melancholia and nervousness, brings refreshing sleep, restores health and strength. It overcomes those disorders and derangements of womanhood. It makes weak women strong and sick women well. All druggists. Liquid or tablets.

Stratford, Ont.—"I am very enthusiastic in praise of Dr. Pierce's Favorite Prescription as a tonic for expectant mothers. I have had experience both with the 'Prescription' and without, and am in a position to know that there is a vast difference. I was never nauseated or sick at all with my 'Prescription' babies, but was extremely uncomfortable with the others, and my suffering was greater when I had not taken the Favorite Prescription."—MRS. LEOLA M. PEPPER No. 114 Grange Street.

THAT WELL-DRESSED LOOK

There are times when very usual beginnings have unusual ends, and so they do result in a designer starts a suit with one material and ends it with another. The spring season has burst forth in a very riot of color. It would seem that before have we found the more brilliant, more inspiring. Materials are exquisite in color and quality.

black, straw is almost covered with soft cotton of various kinds. The rainbow effect starts at the top of the crown, and, as if becoming more graceful, droops and falls with becoming grace over the brow.
