HE—"Is your sister perfectly independent on her wheel now?"

LITTLE BROTHER—"Gracious, yes; she's run over six people to-day without giving any warning."

A GENTLEMAN being asked what difference there was between a clock and a woman, instantly replied, "A clock serves to point out the hours and a woman to make us forget them."

"So you have got a wife," said Gibbs, to a newly married man. "I don't know—don't know," replied the man with evident hesitation. "Sometimes I think I've got her, and sometimes I think she's got me. You see, I've only been married a few months, and I can't tell just yet how the combination is going to turn out."

KIND words cost nothing. They make us rich if we use them. They bless the world if we employ them. We can bless those around us if we scatter sunshine as we go. The dog will love you if you treat him kindly. Human hearts will open to you, if you only come in love to them.

To give a new name to a dog is always a difficult matter, but Charles Reade, the novelist, found a characteristic name for one of his dogs. He called it "Tonic," because he said it was a mixture of bark, steal, and whine.

AUTHOR—"Why do you persist in abusing my book? I have been told by many people that it is an exceedingly rare work."

CARTIC—"Exactly, so rare that it needed roasting."
