

THE GLORIOUS STORY OF THE FIGHTING 26TH

The work of putting on record in permanent form the exploits of New Brunswick's one infantry battalion at the front, reinforced as it was from eight other units, was long ago begun by Messrs. S. K. Smith and R. W. Gould, at that time being members of the

staff of The Telegraph. The story as compiled by them, and published in serial form in the Montreal Standard is a thrilling one and it is satisfactory to know that it is being published in the form of a well-bound magazine with many additional cuts and the inclusion, as well, of the story of the battle of Passchendaele. This is really more than a history of the 26th. It is a history of the war with the more important dates and movements recorded. The original nominal roll, also contained in the work, will be treasured by many whose dear ones have kept the rendezvous with death. The whole work is a most creditable one and something not before attempted in Canada. The many fine illustrations, including several made especially for the book to full page size make it doubly interesting. Printed by J. & A. McMillan and distributed by the St. John News Company with the co-operation of women's societies this work should find a ready sale.

BAKER'S COCOA HAS GREAT FOOD VALUE

THE food value of cocoa has been proven by centuries of use, and dietitians and physicians the world over are enthusiastic in their endorsements of it. It is said to contain more nourishment than beef, in a more readily assimilated form. The choice, however, should be a high-grade cocoa—"Baker's" of course.

PLASTER ROCK DISTRICT MEETING

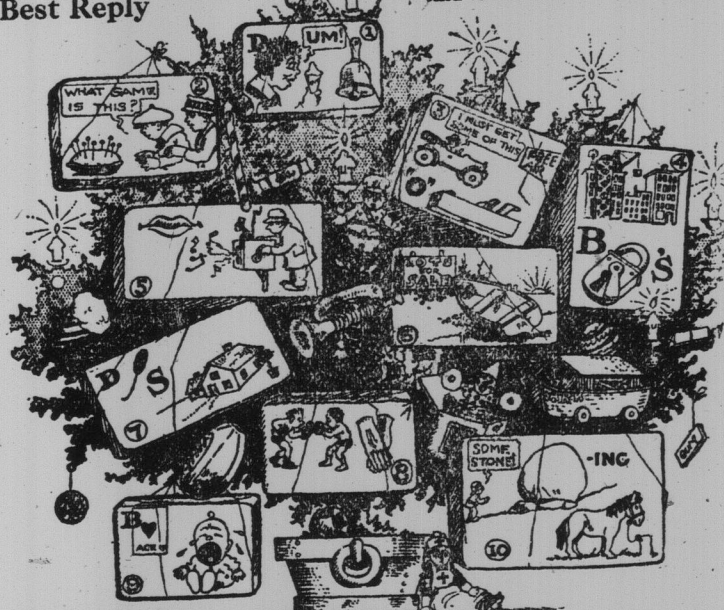

Plaster Rock, Dec. 12—On Thursday and Friday of last week the United Baptists of Upper St. John and Tobique rivers, known as District No. 1, met with the Plaster Rock congregation for their quarterly meeting. The gathering will be remembered among the best held in these parts. Every session was fraught with uncommon interest and enthusiasm. Among other things that very materially contributed toward the success of the meeting were the following: Unsurpassed co-operation on the part of the entertaining church, led by Pastor Richardson. The present and active support of all the pastors of the district save one. A few earnest and representative lay delegates, and last but not least, an atmosphere charged with evangelistic fervor.

The outline of the meeting centered around what is known as the five-year programme for United Baptist churches launched by the Maritime convention in 1916. The question of the various sessions was, "How may district No. 1 best relate its work toward the general aim of the programme?" The meeting was most fortunate in having present Rev. J. B. Ganong, who so admirably fills the office of field secretary of the provincial United Baptist Home Mission Board, who greatly assisted in the work of the various sessions. In connection with the meeting, the pastor of the local church, Licentiate Richardson, was examined by regular council with the happy result that at the last session he was formally ordained to the work of the ministry. Rev. J. S. McFadden, district chairman, offered the ordaining prayer. Rev. C. N. Barton gave the charge to the candidate, and Rev. C. O. Howlett the charge to the church. As a part of the meeting the district W. M. Society took over the conduct of the Friday afternoon session. This proved one of the very best sessions of the entire meeting, and henceforth the ladies will be asked to take similar prominence in succeeding meetings. Two sermons were delivered during the meeting: the ordination sermon "The Master's Minister" by Rev. J. B. Ganong, and "The Five Comes of the Bible," by Rev. C. O. Howlett. Both efforts were well received. On Saturday morning the district executive met and outlined a programme for the next meeting which will be held with the Ortonville congregation early in March. This meeting will be anticipated with much interest in view of the splendid optimism of the various churches concerned.

HOLLAND'S GIN PLANTS TO BE DENIED GRAIN FOR THEIR PRODUCE.

Amsterdam, Nov. 14—The 200 distilleries of Schiedam, which produce vast quantities of gin and other liquors, have been notified by the government's grain bureau, the "Telegraaf" reports, that after this week no more grain will be supplied for conversion into alcoholic products. This means the paralysis of one of the industries for which Holland is best known abroad. Thousands of men will be thrown out of employment.
