the soldier's outfit and pay.

## THE VILLAGE BLACKSMITH

Certainly knows good tobacco when he smokes it—  
that's why he has adopted Master-Mason the tobacco  
which smokes easier, lasts longer, tastes better and  
gives more satisfaction than other tobaccos ready  
cut and sold in tins or  
paper packets.SMOKE  
Master-Mason

"IT'S GOOD TOBACCO"

it is made of selected,  
fully matured tobaccos,  
pressed into a solid plug  
so as to seal in, as-it-were, the natural moisture and  
fragrance of the tobacco and ensures that mellowness  
and smoothness so much appreciated by smokers.Equal by test to the very best,  
Much better than all the rest.

Say MASTER-MASON to your dealer—he knows.

## RUSSIAN MORALE IS HIGH

Correspondent Tells of Great Improve-  
ment in Army Service.London, Sept. 4.—A Times correspond-  
ent, in a dispatch from Rovo dealing  
with the morale of the Russian troops,  
says:"The recent fighting has shown that  
German shells and German numbers  
could not blast or bayonet the Russians  
out of their positions this year, when  
they had something with which to shoot  
and could at last listen to the music of  
their own shells bursting over the Teu-  
ton lines.""There is another matter in regard to  
the morale of the army this year to  
which General Braillo himself directed  
my attention. Now, as he said, the  
morale is a hundred times more vital and  
deep-rooted than during the early suc-  
cesses in Galicia in 1914. Then the sol-  
diers fought through discipline and with  
a meagre realization of what it was all  
about. This year it is quite different.What was at the beginning of a war be-  
tween governments has now become a  
war between peoples, and there is not a  
soldier in the army who does not under-  
stand now that he is fighting a hated  
enemy, and willing to die, if need be, to  
dislodge Germany from the soil of holy  
Russia. It is this conception which  
brings the troops forward singing at the  
top of their voices and longing to get  
at the Germans. The feeling against the  
Austrians is quite different—perfunctory  
hostility, I should call it.""In addition, one now notes an im-  
provement in technique in every branch  
of the Russian service. Their trenches  
are as good as if not better than those  
of the Teutons. Their transport is in-  
finitely better organized than ever be-  
fore, with the result that there is a sav-  
ing of time, which certainly has in-  
creased its efficiency 50 per cent.""The Iron Age says:—'Pig iron rather  
than steel has been the market leader of  
the week. The spectacular orders for  
shell and other war steel, with deliv-  
eries running six to ten months ahead,  
having been put on producers' books, in-  
terest in the steel trade centres on the  
balancing of supply and demand in the  
domestic market for the first half of  
1917. Yet it is evident that the Allies  
want much more steel from the United  
States.""Many orders now on the books of  
leading steel companies for this year's  
delivery must go over to 1917. Weeks  
of almost unbroken hot weather have  
aggravated an oversold condition, and  
consumers have not yet felt the full ef-  
fect of this exceptional curtailment. The  
recent increase in domestic buying for  
the first half of 1917 still leaves the to-  
tal much short of what some steel mak-  
ers had expected. But at present high  
prices consumers are cautious, in spite  
of warnings, that they may over-stay."Simpson had that rundown feeling,  
which frequently accompanies the flow-  
ers—and chills—of spring. So he had  
himself to a doctor, to be healed."Hum!" said the medicine man, ma-  
jority, after thumping and bumping  
poor Simpson black and blue, "what you  
want is fresh air. Get out into the  
country more than you do. You should  
take a long motor run every day.""But I haven't got a motor car," pro-  
tested the patient."That's soon rectified," said the doc-  
tor with a benign smile. "I'll sell  
you mine!"
