## CUT SERVICE ON VALLEY LINE?

Mr. Brady Gives Intimation  
in Fredericton—Says Earn-  
ings Far Below Operating  
Cost.

(Special to Times).  
Fredericton, N. B., Sept. 21.—A cur-  
tialment in the train service on the St.  
John and Quebec Railway, which is under  
C. N. R. operation, was forecasted by  
P. P. Brady, general manager of C.  
N. R. eastern lines, here yesterday. He  
said the curtailment had not been de-  
finitely decided upon, but that it was prob-  
ably early in January after the rush of  
holiday traffic.

When asked why Mr. Brady said that  
the St. John and Quebec Railway be-  
tween Centreville and St. John was pro-  
ducing sufficient revenue to warrant  
the continuation of a daily service and  
that the suggestion was to change it to a  
tri-weekly service as formerly, he said  
the cost of operation per train mile was  
from \$3 to \$5.50 but that the revenue  
earned by the passenger trains ran  
only from forty-five cents to sixty cents  
per train mile.

Mr. Brady said that he was not able  
to differentiate between the Centreville  
Fredericton section of the line and the  
Fredericton-St. John section in the mat-  
ter of earnings, but the revenue which  
he mentioned was the total from passen-  
gers, express business and mail. He  
believed the returns were as large as  
could be expected from the country tra-  
versed by the line and fair for a new rail-  
way.

A big protest will be caused by this  
contemplated change in trains on the  
Valley Railway. It is taken to forecast  
abandonment of the Quebec-St. John  
buffet eating car service via McGivney  
and a return to a mixed train service  
on three days a week between Centre-  
ville and St. John. Boards of trade prob-  
ably will take this matter up.

## AUSTRALIA'S NEW TARIFF.

Rates on Beer, Spirits and Tobacco  
Have Been Much Raised.

Rates of duty on beer, spirits and to-  
bacco products have been increased by  
Australia. These alterations affect cus-  
tomers tariff which went into operation  
on March 25 of this year and which is  
now being discussed by the Parliament  
of that country. The changes so far re-  
ported were put into effect on last Fri-  
day.

The rate on beer in bulk has been in-  
creased to 3 shillings per gallon and the  
bottle to 3 shillings 6 pence per gal-  
lon. The former rate was 6 pence for  
both. The duty on spirits has been raised  
from 3 shillings a gallon to 3 shillings  
on brandy, 3 shillings on whiskey  
and 2 shillings on gin. On manufac-  
tured tobacco will be levied 5 shillings a  
pound instead of 8 pence, and on  
cut tobacco 5 shillings 7 pence. Cigar-  
ettes and cigars now have to pay 12 shil-  
lings a pound.

Similar increases, it is said, have been  
made in excise rates on the above goods  
manufactured in Australia.

## GOOD THINGS COMING TO THEATRES OF ST. JOHN

AUDIENCE SAW THE  
STAGING OF SHOW

"Maid of the Mountain" a  
Tremendous Success in  
Halifax Last Night—Some  
Amusing Incidents.

Manager John P. O'Connell of the  
Majestic Theatre, Halifax, in a long-dis-  
tance telephone conversation, today re-  
ported that in spite of a chain of cir-  
cumstances, which might as well be con-  
sidered humorous as otherwise since  
everything turned out all right, "The  
Maid of the Mountain" show was a  
tremendous success at its opening last  
night. Transportation delays and the  
magnitude of the production kept the  
curtain-raising back until after ten  
o'clock, but as a novelty the patient  
audience was allowed to witness the "set-  
ting" of the show. However, in spite  
of all delays and mental strain the pre-  
sentation of the famous comic opera was  
marvelous and when the audience arose  
to sing the National Anthem at 1.30 this  
morning the tribute of applause was  
thunderous.

"The only thing that approaches this  
Maid show in quality," phoned Mr.  
O'Connell, "was Savage's Merry Widow  
over ten years ago."

"The Maid of the Mountain" will reach  
St. John at 6 o'clock on Monday  
morning, giving plenty of time for hang-  
ing and staging. The seat sale will open  
Friday at 10 a. m., but mail orders are  
being accepted now.

## LOOKS MORE LIKE STRIKE OLD COUNTRY

London, Sept. 21.—The executive of  
the miners' federation informed repre-  
sentatives of the men today that in the  
opinion of the committee nothing had  
been taken place during its negotiations with  
the government to justify the prevention  
of a strike of the miners at the expira-  
tion next Saturday of the strike notices  
previously handed in.

Robert Smilie, the miners' leader said  
the men had abandoned their demand  
for a reduction of the price of domestic  
coal, but were unable to obtain the gov-  
ernment's consent to an increase of two  
shillings a day in wages. Sir Robert  
Horne's proposition was to an independ-  
ent tribunal, while the federation insisted  
that the increase should be granted  
immediately.

## STOKERS GIVE AFTER TWO DAYS OF HUNGER STRIKE

Montreal, Sept. 21.—Nine stokers of  
the Norwegian freighter G. S. Gilbert,  
while that vessel was in the Montreal  
harbor, decided on a hunger strike. The  
strike was caused by the refusal of Cap-  
tain Ericsson to give the men all the  
wages due them because he feared they  
were planning to desert, but he offered  
them \$10 each. They told him they  
would not work, while he told them that  
until the boilers were cleaned they would  
not get anything to eat. At the end of  
the second day the hunger strikers gave  
in.

## UNREST PREVAILS IN BRITISH LABOR

Discontent Made Strong Im-  
pression Upon Rev.  
W. D. Reid

Fierce Liquor Contest—Bel-  
gium Making Rapid Strides  
in Reconstruction Without  
Thought of 8-Hour Day.

(Montreal Gaze).  
The feeling of unrest and discontent  
that permeates the labor ranks of  
England was so borne in upon the Rev.  
W. D. Reid, of Stanley Presbyterian  
Church, who has recently returned from  
a three months' vacation spent in the  
British Isles, and Europe, that he stated  
last night from his pulpit that it had  
made upon him perhaps the strongest  
impression of his entire trip abroad.

"Almost every organization of workers  
in the country," said the speaker, "is  
either striking or talking strike. A re-  
cent edition of the Scotsman contained  
over a column of notices of strikes. I  
think it has been proved without a doubt  
that the Bolshevism of Russia has much  
to do with it, that large sums of Bolshe-  
vist money are being sent into Britain,  
and the impression is abroad that many  
of the labor leaders would declare for a  
Soviet Government tomorrow if they  
dared."

Continuing with a brief summary of  
impressions gathered in the older civi-  
lizations, Dr. Reid touched on the tem-  
perance situation in England and Scotland.  
There seems to be considerable growth  
of temperance sentiment in both coun-  
tries, especially in Scotland, and there is  
every reason to expect a fierce contest  
between the supporters of both sides of  
the liquor question in Scotland during  
autumn when a plebiscite is to be  
taken. The brewers and distillers have  
engaged speakers to tour the country in  
their interests, and a poster campaign  
has been inaugurated.

The already been inaugurated poster  
campaign has been inaugurated. The tem-  
perance forces are equally active in pre-  
paration. The latter have a bitter grievance  
against Lloyd George, namely, that,  
although while in power he was a great  
supporter of temperance, since  
coming into power he has done absolutely  
nothing to advance the cause.

There is no man in Britain about whom  
there are such diverse opinions held,"  
said the speaker, "as about the  
little Welsh Premier. He is either con-  
demned as a political opportunist with-  
out any of the qualities of statesmanship,  
or lauded as the greatest man that  
Britain has produced since the new  
liberalism in Scotland, which is strong-  
ly prevalent."

## Church Unions Favored

Religiously, things were said to be in  
much the same condition as in this  
country, the speaker having been in Scot-  
land in returning to pre-war conditions  
in the matter of attendance and church life  
generally. There is a strong tendency  
in the direction of church union, espe-  
cially in Scotland, where a determined  
attempt is being made to re-unite all the  
churches of the Presbyterian family to  
form one, great United Church of Scot-  
land. The non-conformist churches in  
England are looking in the same direc-  
tion of union and it has been expected  
along this line from the great Lambeth  
Conference. Considerable disappoint-  
ment was expressed as to the result of  
the conference, especially on the part of  
the rather meagre concessions ad-  
vanced by that great body.

As to emigration from Britain to Can-  
ada, Dr. Reid said that he had been  
informed that the Canadian govern-  
ment means could be provided  
for aiding young men and women to  
come over for settlement on the land,  
and enable them to get a start in this  
country. If some scheme could be de-  
vised to provide such funds there would  
be an influx of respectable young Brit-  
ishers, not by the thousands, but by the  
millions.

A few words were said by Dr. Reid  
in addressing the children of the con-  
gregation by the way of closing. He re-  
garded the home as the cradle of the  
dogged determination of the Belgians to  
regain their pre-war prosperity with the  
discontented, uncertain attitude of the  
workers of Great Britain. Dr. Reid  
stated that the Belgians were indulging  
in no conversation about an 8-hour day,  
but, by continual diligence were rapidly  
bringing the home wrought by the war.  
Everywhere throughout the country were  
to be seen earnest toilers working from  
dawn to dusk, striving to bring the  
battlefields to a state for cultivation.  
Many of the battlefields were said to be  
already waving with grain.

With the great desire in Ypres Mr. Reid  
encountered 400 men delving with pick  
and shovel striving to bring order out of  
the chaos of that devastated city. The  
scene everywhere is the same in the  
country where there obtains long days  
of arduous toil on the part of the workers  
of the soil, with little interruption for  
conversations as to conditions of work  
or compensation expected. The speaker  
stated it to be his opinion from present  
indications that within a few years Bel-  
gium will be dint of the diligence of her  
population, have recovered a great mea-  
sure of her former prosperity and beauty.

## SIR WILFRID'S INK WELL DONATED FOR HOSPITAL

Niagara Falls, Ont., Sept. 21.—A unique  
souvenir of Canadian political history  
has come to Niagara Falls. It is the  
Ink well that was used by Sir Wilfrid  
Laurier in the old House of Commons  
in Ottawa before the great fire  
that destroyed the Parliament Buildings

by Ernest Green to be sold for the ben-  
efit of the Niagara Falls General Hospital

Bias Charged.  
(A. P. Correspondence.)  
Copenhagen, Sept. 21.—Danish papers  
have been outspoken in their criticism of  
alleged partiality in the judging of the  
Olympic games at Antwerp. They com-  
plain that awards were given on the  
principle of "Let the best man win if he  
is an ally."

The National Tidende's special corre-  
spondent at Antwerp charges that all  
games were umpired with a bias in fa-  
vor of the allies. Typical in this respect,  
the correspondent says, was the sword  
combat between Denmark and Italy. All  
experts were agreed, he states, that Den-  
mark were superior; nevertheless, the  
umpires gave the victory to Italy.

Lord Beaverbrook attended a luncheon  
in New York yesterday given in his  
honor by leaders of the moving picture  
industry in the United States.

## GROCERY REPORTS FROM THREE CITIES OF THE DOMINION

The following comment on the market  
situation as regards food stuffs appeared  
in Canadian Grocer last week.  
Some declines and some ad-  
vances noted in the market reports from Mon-  
treal, and in Toronto prices are for the  
most part steady with a slightly easier  
tendency in some directions. The sugar  
situation is still unchanged, but some  
second-hand lots are being offered be-  
low refiners' prices.

Montreal—Prices in some instances are  
lower in Montreal this week. Quota-  
tions on nuts have taken a decided  
dip, and dealers are anticipating a  
lower market in coffee. The black tea  
market is weaker and prices are inclined  
to be dull. Higher prices have been  
named on canned salmon, and dried  
fruits, particularly raisins and currants,  
are stronger. In Montreal the new  
freight rates have affected the price of  
sugar somewhat, and dealers are figuring  
the added charges in the quotations. Potatoes  
and vegetables are all inclined to be  
easier.

Toronto—The markets are generally  
steady with a slight shading on some  
lines. The sugar situation is unchanged,  
second-hand sugar is offered at several  
cents per pound less than refiners' prices,  
and the fact that American sugar can be  
laid down at a lower figure than quoted  
by Canadian refiners may have a  
tendency to force down Canadian prices.  
The syrup and molasses markets are  
quiet and unchanged. The tendency in  
the cereal market is downward in view  
of the easier condition of the grain mar-  
ket. Number one and two breakfast  
food has declined during the week.  
Shipments of new pack canned tomatoes  
have been made but prices remain open.  
One line of strawberry jam is reduced,  
also prepared coffee, marmalade and beef  
condensed. The spice market is rolling  
easy, and prices are fairly firm on every  
shipment. Shipments of new crop Spanish  
raisins are on the way but definite quotations  
are not yet named. The current mar-  
ket is strong and the crop estimate has  
been considerably reduced, this coupled  
with the increased demand in the United  
States for wine purposes tend to make  
prices higher. Opening prices on new  
crop Tarragon almonds and filberts in  
the shell are quoted materially lower  
than last year while new crop shelled  
almonds and walnuts are five to six cents  
per pound higher than last year. Nothing  
of interest has developed in the tea  
market during the week, the market is  
steady to firm. The condition in the pri-  
mary markets for coffee is weak with  
lower prices on futures; these lower  
prices will not affect this market until  
the end of October. The new chop Hon-  
duras and Blue Rose Texas rice opened  
at fully three cents per pound under  
last year's opening quotations. The first  
crop of Jersey sweet potatoes have ar-  
rived. Other vegetables are in abundance  
and prices are fairly moderate.

With the exception of potatoes which are  
in a weak market. Peaches are arriving  
in large quantities and are moving free-  
ly. Elbertas will begin about the latter  
part of next week. Plums are in heavy  
receipt and prices are lower. Oranges  
are holding firm and likely to remain so  
for the balance of the season. Coincid-  
ing with the increased freight rates flour  
advanced 25 cents a barrel and millfeeds  
\$2.50 a ton.

Fresh meats are easier with lower  
quotations on beef cuts and spring lamb.  
Barrel pork is a shade higher while  
smoked meats are unchanged. The but-  
ter market is steady with a large de-  
mand for the better grade which is re-  
quired, lower grades are not in de-  
mand, with prices of the same uncertain.
