DYKEMAN'S Remarkable Selling of 1913 Shirtwaists

We ordered our new Waists early this year. They came in in December and were nearly all sold by the first of January and that made it necessary for us to order a complete new supply for our spring demands. The first shipment of these new creations in 1913 waists have arrived and are on sale. They are the daintiest conception of waist building for moderate prices that it has been our experience to handle.

A big lot of them are priced for quick selling at \$1.00 each. You will say at the first glance that they are equal to many waists sold at \$1.50. All sizes at this popular price.

Of course, there are other's prices from 50 cents to \$5.00. The great annual Whitewear Sale still continues.

ST. JOHN MUST BE ON ITS GUARD

Government to Swing Trade Via Boston?

THAT IS THE REPORT

West Indies Subsidy Said to Permit Calls at American Port Both and Coming to and Going From Here

There is some uneasiness in commercial circles owing to a report that the dominion government, in subsidizing a new West Indies steamship line to the extent of \$400,000 a year, is going to allow the steamers to call at Boston on both the inward and outward trips, as well as at St. John and Halifax.

This would be a return to Hon. Mr. Foster's old-time policy of subsidizing American ports.

If those steamers, heavily subsidized by Canada, were to call at Boston, that port would be in a fair way to handle most of the upper Canadian business with the West Indies, because it would be the first port touched on the run from the West Indies to Canada, and the last port of call on the outward voyage, and it has quick railroad connections with Montreal.

The Montreal Wharves, in one of its issues last week, published a circumstantial dispatch from Ottawa, intimating that Boston is to figure in the contract in the way indicated here.

The main idea in modernizing the Canada-West Indies service was to give a quick and direct business between the two cities and Canada. This main idea would be defeated by the inclusion of Boston in the way mentioned.

Business men will ask the St. John Board of Trade to look into the matter if it has not already become the subject of enquiry by the board.

NEARLY 300 MEN HAVE ACCEPTED

Success of The Get-Together Meeting Assured

TOMORROW'S BANQUET

All Who Will Attend Will Be Welcome — Mr. Chase Well Pleased With Fine Spirit Shown by Citizens

When the Board of Trade council first announced a get-together meeting for the business men and citizens of St. John, "quite a number" others expressed skeptical belief that "nothing would come of it," but this morning's announcement that there were over 290 acceptances in, and a probability that it would go above 300, gave them more confidence. The get-together idea sounded good, in fact, better than anyone had any idea, and the bringing together of 300 citizens, a common footing, at no small thing, and is expected to be fraught with excellent results for St. John.

The committee in charge of issuing the invitations, deems it to be understood that if there were any persons overlooked who want to join in this meeting and will so signify by telephone, messenger or by mail, invitations will be issued and reservation will be made for dinner tickets.

Said Mr. Chase this morning: "It is inspiring to find the citizens and business men entering into this get-together movement with a spirit seldom shown in any other undertaking, and it speaks volumes for the standard of citizenship and civic patriotism of St. John."

However, it must not be forgotten that there are other steps, in fact, a long flight of steps, all leading upward, and we are to get anywhere we must keep on climbing. One step alone means nothing; it were better not to start at all than to go only half way. This meeting means the beginning of a new era of activity for St. John, in which all should join, and if called upon to help, give it all the time and effort necessary to make it a great success.

"Let us make tomorrow night the dividing line, leave all our petty grievances and little jealousies behind us, convince ourselves that we are too big and broad-minded to recognize anything but the community welfare of St. John; to turn our backs on the past with any fractional differences and altogether look to the future. If we can do this, we will have covered about ninety per cent. in the race for the supremacy of St. John's mercantile, industrial and maritime interests."

TALK OF INDUSTRY FOR CARLETON MILL POND

Proposals on behalf of a large industry which is looking for a site in St. John were made to the city commissioners in a letter from J. Simeon Armstrong, C. E., submitted by Commissioner Schofield this morning. The site suggested is the old mill pond in the middle of Carleton which could be reclaimed for the purpose. The letter was merely preliminary and did not contain anything definite but it may lead to negotiations for the use of the large section which has lain idle for many years.

A large and enthusiastic meeting of Court Frederick No. 38, I. O. F., was held in the Oddfellows' Hall, Carleton on last Friday evening. Twelve candidates were initiated by a degree team from La Tour. After the initiation, the meeting was opened for visiting friends of the members present.

Lester—Treasurer, C. D. Harry Sealey—S. W. William Thompson—J. W. H. Gallant—S. B. Fred Embleton—J. B. Doctors Day and Kenney—Court physicians.
