Baseball
New Brunswick and Maine League
The defeat of the Marathons on the local grounds caused the Fredrickton to shoot ahead into the first place in the N. B. and Maine Baseball League. The games yesterday resulted as follows:
At St. John-Marathons, 3; St. Johns, 6.
At Woodstock-Woodstock, 7; St. Stephen, 2.
Today's games will be:
At Calais-St. John, 8; Calais, 4.
At Fredrickton-Marathons vs. Fredrickton.

The League Standing.
Woodstock, 7; Thistle, 2.

Woodstock, N. B., Aug. 9 (Special).—Heavy hitting made it easy for the locals to win a league game from St. Stephen this afternoon by a score of 7 to 2. Every man counted the pill for singles or doubles save O'Donnell and his long legs to deep centre were handled successfully by Finamore. Most pitched phenomenal ball. He had everything, speed, nice breaks and slow drops, his control was good, as he walked two men and pitched a no-run no-hit game. In the first of the ninth, however, Callahan placed a fly over shortstop and deep enough for centre or left to get it. Winchester, who took the place of McGowan, who split a finger in the second inning and who himself was playing with a sprained ankle, received a Fredrickton fly to O'Donnell. Malay was asked. De placed a single and Allon's lead throw to catch Callahan at third allowed Malay and Callahan to score. But he fled to Wilder, finishing the game. The hits by Callahan and Lee were the only ones made by the visitors. Martin pitched a good game but Woodstock was batting like fiends. He had no strikeouts, walked two and hit one man. Thirteen hits were made off his delivery. Catcher by Finamore and Kneaney and the infield work of De, Wessinger and Moser were the features of the game. The backstop work of O'Donnell was of a high order, while McGowan and Winchester in same positions, although crippled by accidents, had no errors charged against them.

Sinms' Team Wins.
The Sinms' baseball team was placed in the lead by winning a five-inning game from the Glenwoods by a score of 7 to 7, in their league yesterday afternoon. Howard pitched for the Sinms' team, and Murphy caught the box for the Glenwoods. Another league game will be played on Friday, when the East St. Johns will meet the Alerts.

Local Games.
The St. John's walloped the Marathons yesterday afternoon to the tune of 6 to 3. Light pitched for the winners and Good for the Greys. The attendance was good and both teams played good ball. Conley, the Marathons' catcher, was put out of the game for talking back to the umpire. This puts the Marathons team back into second place again.

Big Leagues.
National: Chicago 1, New York 10; Pittsburgh 7, Philadelphia 6; Boston 3, Cincinnati 2.
American: Boston 5, Cleveland 8; Chicago 7, Philadelphia 4.
Eastern: Newark 2, Toronto 5; Newark 7, Toronto 9; Buffalo 4, New York 12; Rochester 1, Jersey City 2; Baltimore 12, Montreal 7.

Mack Nailing Young Players.
Arthur Irwin, son of the New York Americans, once made the famous yard mark that the day of the scout would soon be a thing of the past, for every young player in the country belonged to him. Mack, the gray-haired spy, was led to this fit of possession because in one week he looked over a half dozen calves and only to find, when he broached negotiations that they belonged to the tall tower of Philadelphia.

The long arm of Mack has already reached in all directions of the 13 original states and other states that don't claim originality. In the infant class at Sunday school, the dearie school, the prep school and the college, all youth all scorers of knowledge waiting for the magic day when a night letter reached them saying, "Report at once, Connie Mack."

Mr. Mack preaches the little red school house to the bush league, pet it is not insensible to the wealth of one found on the cross-roads and minor league teams. Mr. Mack can consult his files and find out many hits Harry Krausweyer, this baseman of the Shinerheim, Kuppenkeller & Dippelbanger's Stick Fly Paper Company's team at Leesville, Ala., made last week.

Connie also can tell what team is leading in the Sunday School League of St. Petersburg, Fla., and knows that Pagan, the Primitive Methodist star pitcher, has a grand drop and might be worth a trial in 1913 or 1914.

It is a fact that Connie Mack has a number of youths planted who are hardly old enough to leave their ties. Two years ago at the age of 16 a Philadelphia schoolboy signed a contract to play with Mack. This tall teenager may wait two years more before deciding this juvenile south with his team.

Peters, the young California first baseman, has been planted by Mack for several years. For fear that he might be extradited to California on the charge of kidnapping Mack didn't dare other the infant to report until spring.

Mack has youths planted for delivery in 1912, 1913, 1914 and 1915. He will call them as he needs them, but every year he is sure of a big haul of candidates in case some calamity strikes his team. No manager in America looks as far ahead as the Athletics' master mind.

Baseballdom thought it wonderful when Mack took a team of nobodies in 1909 and finished second to Detroit. Fans that year flocked to Mack for getting a good team together so quickly, but they didn't know that Mack was planning for 1909 in 1907.

Mack is a baseball teacher as well as a manager. In this he has a great advantage over the majority of managers.

last July after having fought a 20-round draw with the British champion, Freddie Welsh. The popular opinion prevailed in London that Packey had been "robbed" of the decision. Upon the strength of this bout Packey's stock went skyward while he laid around Chicago and took things easy. A few weeks ago he stepped into action again, knocking out Jack Goodman before a local audience and again his prizes were sung from East River to Coronado Bay. A Memphis date was arranged for Packey to box a third rater named Britton. He figured to lay Britton out among the daisies in three or four rounds, but instead allowed Britton to box him to a draw, with the honor of anything ahead in favor of Britton.

When the clever young man, Harry Gilmore, Jr., threw up the managerial reins and cut loose from McFarland, he uttered a statement to the effect that Packey was too much of a "may or may not" boxer for him to understand. Gilmore's statement about covers the case. It is only way to tell what Packey is going to do is to wait until he has done it. A Chicago scribe humorously suggests that McFarland is a man with a dual personality. Personally Packey is one of the cleanest and best behaved boys in the land. Professionally speaking, he is one of the most unpopular boxers in the world. On the Pacific coast the boxing public is usually hoping to see Packey whipped whenever he enters the ring. It is the same way in the east, while in the south it is worse. Some of the Memphis sportsmen went so far as to hint broadly at a "fake" in connection with the McFarland-Britton go. Even in Packey's home town of Chicago, his popularity seems to be pretty shaky.

In England it is a dull week indeed when the stand and deliberate boxing critic don't go out of their way to slip over a "punch" to the boy. All of which has led to a question his manager, Ed. Jones, has a little "inside" information on all night fight that occurred in the train at Doyle Park when McFarland had been seen some other skin do, made a stand still break, and landed last hour.

A "family" row occurred early one evening at the dinner table and later on Harry Gilmore, Jr., and Trainer Pat Kinneally made up their minds to beat McFarland. They were to have a fight on August 7, in their league yesterday afternoon. Winnows were smashed, furniture was overturned, and the fight was a shakedown. Finally Packey drove both his opponents from the colosseum, after which he calmly walked to the door and then went to bed. Gilmore and Kinneally, after they had used salves and ointments, crept over to the bathhouse, where they passed the remainder of the night sleeping on the rubbing table.

Wells to Meet "K. O." Brown.
New York, Aug. 9.—George McDonald, manager of Matt Wells, the English light weight champion, announced tonight that he had matched Wells to meet Knock Out Brown, the light weight champion of this city. McDonald said the men had agreed to box at 138 pounds, weighing in at 140. The fight will be held at the Waldorf-Astoria. Wells is expected, McDonald said, that Wolgast will make a match with the winner of the bout.

Red Hot Racing Here, Says Maine Man.
H. H. Lee, the well known American horseman, who is in charge of the racing operations at the Central Maine Fair at Waterville this year, said that the trotting season in the Province is one of the best he has ever seen. He said that the racing was a great success. It was a case of his "on the back, and the devil take the hindmost. Still, he said, there are all the hindmost. Still, he said, there are all the hindmost. Still, he said, there are all the hindmost.

W AGAIN AT HAMILTON 6-3

(Canadian Press)
Hamilton, Ont., Aug. 10.—The touring Corinthians soccer team last evening defeated a team picked from Hamilton clubs by 6 to 3 before a crowd of about 2,000 in a very fine exhibition. The visitors had much the better of the play and bombarded the Hamilton goal which was defended by Crompton whose phenomenal work kept the score down.

SAM LANGFORD MAKES SHORT WORK OF SMITH IN NEW YORK BOUT

(Canadian Press)
New York, Aug. 9.—Sam Langford, the Canadian negro, won from Jim Smith in the fifth round of a scheduled ten-round bout at the Madison Square Garden. The visitors had much the better of the play and bombarded the Hamilton goal which was defended by Crompton whose phenomenal work kept the score down.

USEFUL CEDAR USED IN CANADA

Statistics for the amount of veneer manufactured or used in Canada during 1910, have just been compiled by the Forestry Branch of the Department of the Interior, including natural and imported veneer. 22,000,000 square feet valued at 478,500 were produced or used in Canada in 1910. This is an average cost of 21.3 cents per square foot.

Of this amount, 90.9 per cent was native wood and consists of 18 species; the most important of these were birch and maple which together form over one-half of the total native woods. These were mainly factored into veneer in the hardwood mill and were used chiefly for furniture, panel work and vehicles. Elm and basswood are used in the manufacture of veneer in the softwood mill and were used chiefly for furniture, panel work and vehicles.

One veneer constituted over one-third of the total amount of veneer used in the manufacture of medium priced furniture. Tally was second in importance forming one-fifth of the total. This species of wood is very valuable and is used in the curved parts of vehicle bodies and automobiles. Mahogany, Spanish Cedar and Cressian Walnut were used in small quantities and imported indirectly from Africa, the West Indies and South America, respectively, being used for high-class furniture, musical instruments and pianos. Cressian Walnut is the most expensive of these being \$83.80 per M. square feet.
