ISLANDER IN PORT

Skagway Greatly Excited Over the War-The Thirst For War News.

Customs Officials Make Another Descent on the Saloon Keepers of Dyea.

Steamer Islander returned from Skagway and other Alaskan ports this morning with about ninety passengers, many of whom took passage on the steamer North Pacific for the Sound, several going to join the army of Uncle Sam. At Skagway news of new finds or other happenings in the interior no longer cause excitement; the sole topic of conversation is the war, and no sooner does a steamer enter the harbor than she is boats, who throng around the officers and passengers, begging for the latest news of the war. Skagwayans are patriotic people, and every report of the success of the Stars and Stripes is duly, celebrated. Practical jokers and originators of false reports are abroad at Skagway. One of them spread a report that Great Britain had loaned the American york. This was received with applause and speeches of "lasting brotherhood," "men of one blood," and so forth, and every Britisher, or man who looked like one, in Skagway indulged much in liquor that day without money and without price. A large number of residents of Skagway and Dyea are straightening out their effects and preparing to come south on account of the war.

The customs officials are still endeavoring to suppress the sale of liquor. A few days before the Islander left, on April 27th, six officers, acting under the instruction of Inspector Mount, went to Dyea and proceeded to seize the whiskey found in the various saloons. The raid was unsuccessful, as the saloon keepers, having been warned of the coming of the officers, had hidden their intoxicants

But few treasure hunters are starting inland at present, owing to the unsafe condition of the ice on the lakes and rivers. Should the warm weather continue it is thought that it will not be long ere the lakes and rivers are navigable. Sheep Camp is now almost deserted, for the argonauts have nearly all made their way over to the lakes, where they are engaged in boat building and otherwise preparing for the trip down the rive

when the ice breaks. At Wrangel the residents are making preparations for the opening of naviga-tion on the Stikine. The warm weather has had the effect of breaking up the ice in many places in the river, and it is said that should the warm weather being experienced there when the Islander left continue for about a week the river

would be freed from ice.

Port Simpson is booming, for the Indians have returned after a successful season of oolachan fishing on the Naas. At the canneries all are busily preparing for the coming fishing season.

Among the passengers on the Islander were Judge Leesern and Storekeeper J. Diamond, of Juneau; Mrs. J. E. Skagway, and several other prominent Alaskans. Rev. Hall and wife came down from Alert Bay to attend the Methodist conference to be held here on the

Leslie Day, of Leeds, Yorkshire, who went north three weeks ago with a partner, was one of those who lost their outthe fatal slide on the Dyea trail. He will go north again as soon as he can procure another outfit. Mr. Day says 64 hodies have been recovered from the 64 bothes have been recovered from the avalanche, but further effort is considered useless. The prohibitory enactments in regard to liquor, he declares to be a dead letter, no effort whatever being put forth by the authorities to curtail its introduction. The dens are all "wide open" and the bureau of information is the most audacious game of flam flam in the town. The customs authorities do not examine that part of the miner's outfit which includes his clothing, boots, etc., that being regarded as personal baggage, but collect duties only on the food supplies carried by travellers. Mr. Day is staying at the Dominion.

Mr. John Peterson, of Patoutville, La., Mr. John Peterson, of Patoutville, La., was very agreeably surprised not long ago. For eighteen months he had been troubled with dysentery and had tried three of the best doctors in New Orleans, besides half a dozen or more patent medicines, but received very little relief. Chamberlain's Colic, Cholera and Diarrhoea Remedy, having been recommended to him, he gave it a trial, and, to his great surprise, three doses of that remedy effected a permanent cure. Mr. Wm. McNamara, a well known merchant of the same place, is well acquainted with of the same place, is well acquainted with Mr. Peterson, and attests to the truth of this statement. This remedy is for sale by Henderson Bros. Wholesale Agents, Victoria and Vancouver.

DUNCAN'S IN LINE.

Wm, Herd Selected as Opposition Can-didate for Cowichan District.

A very representative and enthusiastic vention of the Opposition party in Cowiehan district was held at Duncan's on Saturday, and resulted in the selection of Mr. William Herd as the selection of Mr. William Herd as the candidate for the district at the an-

roaching provincial elections.

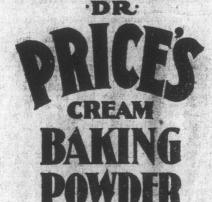

Considerable interest was taken in the Considerable interest was taken in the proceedings, and the choice of the meeting met with the hearty endorsation of those present, the other gentlemen whose mames were put in nomination. Messrs.

Norcross and Evans, loyally abiding by the decision.

Summer, the council should show her every courtesy in its power, and the president was appointed a committee of one to represent the board.

J. H. Todd & Son complained to the council of an infringment of the Canadian council of an infringme

SEEKING AMENDMENTS. A Deputation Wait Upon the Legislative

Mayor Redfern, City Solicitor Mason and Ald. Humphrey, McGregor, and Hall waited upon the municipal committee of the provincial legislature this morning for the purpose of securing certain amendments to the municipal clauses

The first amendment proposed was that relating to school matters. It is de-sired to amend section 136 by striking out all the words after "hospital purposes" in the seventh line, and substituting the following: "And such rate, not exceeding three mills in the dollar, as with the gov-ernment per capita grant for such year the board of school trustees for the unicipality for school purposes."

This amendment is asked for in view of the dispute which has arisen between the school trustees and the city council with respect to the furnishing of the amount necessary for the carrying out of the educational system in the city. At the request of James Yates, who ap-peared for the school trustees, this amendment was laid over.

An important amendment is proposed to the act with respect to trades licenses. The department asked that sub-sections 10 and 11 of section 171 be struck out and the following substituted: 10. From any person carrying on the business of a wholesale, or a wholesale and retail merchant or trader, not exceeding twenty-five dollars every six

The amount of such last mentioned licenses shall be regulated in such manner as the municipality may from time to time determine by the superficial floor space of the premises occupied by any such trader in carrying on his business and the municipality shall have power to discriminate as between various trades and to take into consideration the bulk and value of the goods generally kept in stock by the person applying for any such license, and to fix and arrange a sliding scale for such licenses in such manner as may be deemed expedient. Such two last mentioned licenses to enable the per-son paying the same to change his place of business, but not to carry on business at two places at the same-time under one

At to-morrow's meeting of the committee the application of the council to recity limits, to amend the law so that the writs of execution cannot be issued against the city without leave, and matters in connection with the suits against the city will

Board of Trade Council Discuss Some Important Matters-Fraser River Improvements.

of trade was held yesterday, afternoon, residents returning home. President G. A. Kirk in the chair, and Floyd, wife of the deputy collector at | C. E. Renouf, L. G. McQuade, F. C. Davidge, A. C. Flumerfelt, Thomas S. a pleasant passage of 14 days, She spen Futcher and Secretary Elworthy pre-

The meeting had been called to consider matters in connection with the Stikine river service, but perhaps the most important matter which came bemost important matter which came before the council was that introduced in
regard to the Western Union Telegraph
Company. Mr. Janes, the representative
of the company, was present, and outlined the policy of the company. He
stated that the wires were now strung
to within a few miles of Port Angeles,
and as within the next two weeks he
hoped to have the cable across the
straits, if no unforeseen accident occurred, the line would be in operation to red, the line would be in operation to and from Victoria by June 1. The company, which works in connection with the Great Northwestern Telegraph Company, is seeking a city franchise, and the object of Mr. Janes' visit was to secure the co-operation of the board of trade. He was closely questioned by the members regarding the service and the rates which would be imposed, and in reply stated that the company propose to institute a very prompt mesenger as reply stated that the company propose to institute a very prompt messenger service, and in addition will modernize their methods by putting in a call system, distributing wires to all customers. This will reduce considerably the necessity of sending messages by hand to the central office. The highest scale to points east will be \$1 for a day message. Primarily only a single wire will be strung across only a single wire will be strung across the straits, but it is of copper and very strong, and will be replaced shortly by the regular three-wire cable of the company. Communication will be had with Kootenay points through the southern ex-tension of the wire. The board assured

Mr. Janes of their support.

A letter was tabled from the Gold Hunters' Association, complaining of the rates imposed by the steamship companies in this city, and asking the council to bring pressure to bear on those in the combine to reduce their rates. The secretary will secure copies of rates in op-position ports, and if they are found to be less than those of the Victoria steam-

ship men the matter will be looked in-Captain Wolley made a suggestion to the board that as Mrs. Agnew Pope, the proprietress of the British Trades Jour-Palmer. nal, proposes visiting the city the coming summer, the council should show her

A public meeting was held after the convention, which was addressed by the convention, which was addressed by the future representative and by Messrs.

Dinican, Cotton, M.P.P., and Semlin, and lay the case before the proper authorities. A communication was read from the New Westminster board of trade, ex-

New Westminster board of trade, explaining the improvements necessary to place the mouth of the Fraser river in a proper condition. The secretary was instructed to write the minister of public works, urging a substantial grant, \$10,000 being mentioned by the New Westminster board as necessary.

F. W. Foster wrote from Ashcroft urging the necessity of trails being constructed through the country north of that place. The communication will be forwarded to the provincial secretary.

Letters were tabled from Mr. Knapp. commissioner for the Trans-Mississippi International Exhibition, which opens at Omahai on June 1st; from the Japanese

International Exhibition, which opens at Omahai on June 1st; from the Japanese consul, acknowledging the council's action re anti-Japanese legislation; from Mr. Earle, acknowledging a communication in regard to dressed lumber and shingles; and from the secretary of the Chamber of Commerce recently established being all the business, the meet-

ing terminated. No one knows better than those who have used Carter's Little Liver Pills what relief they have given, when taken for dyspepsia, dizziness, pain in the side constipation, and disordered stomach.

The May sitting of the full court commenced this morning before Justices Drake, McColl and Irving. The first case heard was that of Pender vs. the War Eagle Company. The plaintiff, an employee of the War Eagle mine, was injured by a drill falling on him, and commenced an action in the county court (mining jurisdiction) for \$5,000 damages. The defence claimed that he had been A splendid acquisition to the fleet of tugs engaged in these waters will be the vessel which is now being built at Chemainus and which will be completed in about six weeks' time. Although somewhat smaller than the tug Lorne, she will be fully as powerful and without doubt will be the best equipped tug in the Northwest. She will be fitted with electric light and every modern convenience. A feature of the vessel vill be the Shaw & Spiegel towing machine, now on the way from Providence. The machine is a small steam engine with drums after the manner of a winch, which replaces the solid bits to which the hawser is made fast on other tugs.

Warned to keop away; that he was an old miner and should have known better, but he decided to take his chances and was injured. At the trial before County Judge Forin and a jury, judge and jury visited the scene of the accident and took a view. While doing this the judge separated himself from the counsel and went under the platform at the bottom of the chute and satisfied himself of what could and what could not be seen from in under the platform. In consequence of his observations, which were not then communicated to the crunsel engaged in the case, he, in his charge to the jury was mistaken in his charge to the jury was mistaken in his facts. On this ground the defendants mis moved for a new trial, and the full ccurt granted it. warned to keep away; that he was an old quence of his observations, which were not then communicated to the crunsel engaged in the case, he, in his charge to the jury, contredicted the evidence of one of the witnesses for the defence. After the trial, in which the plaintiff got \$500 damages, the defendants sent down a surveyor who reported that the judge in his charge to the jury was mistaken in his facts. On this ground the defendants moved for a new trial, and the full court granted it.

ants moved for a new trial, and the full court granted it.

A. C. Galt, Rossland, for defendants and A. L. Belyea for plaintiff.

The full court next took up the appeal in Davies vs. Le Roi, an action for damages fried before Judge Forin and a jury who disagreed. The defendants now appeal from the judge's refusal to grant a new suit. J. A. Macdonald, Rossland, for de-fendants and A. L. Belyea for plaintiff.

THE WATERWORKS

Mayor Encounters Opposition to His Proposal to Borrow \$15,000.

The Alderman Discuss the Suggested Amendments to the Municipal Clauses Act.

The mayor had to reckon with the "kickers" at the meeting of the city council last night. The first opposition encountered was when, on motion of Ald. McCandless and McGregor, the mayor's McCandless and McGregor, the mayor's The council went into committee on proposition to raise \$15,000 to complete motion of Ald. Humber and MacGregor to the water works at Beaver lake was | amend the cemetery by-law. The commit brought up.

Ald. Phillips at once attacked the scheme. He complained that the ratepayers did not understand the present position of the water works, and although he said he was as anxious as anyone to

provements, saying everyone knew that the filter beds put in a few years ago The mayor interjected that, on the

trary, they were entirely successful, and their use was discontinued because it was found they were insufficient to supply the demand.

Ald. Williams clung to his contention, however, and endorsed the stand taken by Ald. Phillips.

Ald. Humber thought before any more

money was borrowed the work so far completed should be tested. The present Humber's opinion as more weighty than that of the city engineer, and Ald. Wilson at once disputed Ald. Humber's statements. The beds, he said, do not leak, and gravel sides would be useless. He was opposed to borrowing any more mon-ey, but if the people petitioned in favor of the scheme he would not object. Ald. Kinsman was also opposed to borrowing money, but thought the present system was unsatisfactory, and approved-

Ald. Humphrey said that voting for the by-law would not prevent a test of the filter beds, but Ald. McCandless insisted that the reservoir was satisfactory to all, and if completed the city would

to all, and if completed the city would have something substantial.

The by-law was read a first time, those voting yea being: Ald. Wilson, McCandless, Hall, McGregor, Humphrey and the mayor, while Ald. Kinsman, Humber, Phillips and Williams opposed it. The second reading was defeated, but will come up again on Monday.

The other dispute arose over the drafted amendments to the municipalities incorporation act, which were submitted by

corporation act, which were submitted by the city solicitor. Some of the clauses did not suit the views of Ald. Williams, did not suit the views of Ald, Williams, and a long argument ensued between the mayor, the solicitor and that gentleman. Finally Ald, Williams had his way, and the bill will go before the legislature with these objectionable features eliminated, Ald, Williams being added to the

ommittee for that purpose. A communication was read from J. S. Elliott complaining of a breach of contract by the tramway company, who have removed one of their cars from Douglas street. The complaint states that cars do not run on time, run too fast and have changed their terminus to Burnside road instead of Tolmie

avenue. The solicitor was instructed to look into the matter.

A communication from E. J. Bellamy, asking the council to build a retaining wall in front of his lot at 79 Burnside road, an excavation having been made road, an excavation having been made by the city to fill the approaches to a bridge, was referred to the street com-mittee and city engineer.

W. Marchant urged the council to provide a suitable bathing place for children near the centre of the city. The building inspector will be instructed to examine a shed at the end of Davies street, now used for the purpose, and

report.

The building inspector notified the council that Messrs. Wilson & Noble are entitled to \$250 for building stables on Yates street, and the amount was order-

Mrs. Verdier, of Richmond avenue, asked for water extension to her house. She was instructed that the pipes would be laid at her expense and a correspond ing rebate given her from the water rates. The market superintendent reported the receipts from that source for the month to be \$94. H. K. Prior, superintendent of the E. & N. railway, informed the council that his company could not superintendent of the E. & N. railway, informed the council that his company could not superintendent as the receipt with gravel at present, as the steam shovel is working Wellington.

A largely signed petition was read rom C. A. Holland and others in support of the mayor's water works by-law. The assessor attached a voucher stating that the petitioners represented real estate value to the extent of \$2,675,180, or 15 per cent, of the assessed value of The street committee recommended

NOTICE—Sixty days after date I intend to apply to the Chief Commissioner of Lands and Works for permission to purchase the following described tracts of land, situate at the head of Nasoga Gulf, commencing at the N.W. corner on shore line, thence south 40 chains, east 40 chains, north 40 chains, west 40 chains, to point of commencement contains.

acres (more or less). FRANK ROUNDY. 18th March, 1898. DRINK, GAMBLING AND SUICIDE. A Stranger in the city Cuts His Throat

in an Attempt to End His Life. Peter Reinboldt Sandberg, a Scandinavian, who arrived in the city on the Charmer a few nights ago, en route for Los Angeles, is believed to have attempted suicide this morning by cutting his throat with a razor in an alleyway near the corner of Yates and Government

streets. Sandberg, whose appearance would indicate that he is a miner, has been drinking heavily during his stay in the city, and has also, it is said, been gambling in some of the "dens" where "blackjack" and other traps to entice the unwary are set. It is said he claims that a sum of \$500 in his possession upon arriving in this city has been squandered by him while under the influence of drink, and this loss, together with the effects of the intoxicants he imbihed has apparently driven him insane.

Yesterday he was making enquiries for the water front, and subsequent events have given rise to the belief that he premeditated drowning himself. This morning about 11 o'clock he staggered out of an alleyway on to Government street near Yates, with an ugly wound in his hroat from which the blood was streaming, and was promptly taken in hand by some of the men standing around, who had him conveyed in a hack to the Jubilee hospital, after several ineffectual at-tempts had been made to find a doctor on the way.

The razor with which the wound

believed to have been made was picked up in the vicinity with blood upon it, and the police are making enquiries with a view of dissipating any possible doubt as to the wound having been self-inflicted.
On enquiry at the Jubilee hospital this afternoon Sandberg is found to be resting easily, having just recovered from the effects of the ether administered while the operation of stitching the gash in his throat was performed. The wound is not of a serious nature, and the man's chances of recovery are said to be good.

Later.—It is learned that Sandberg has recently returned from a visit to his na-tive land, and is a seaman by occupation. Some additional interest has been occasioned by a statement said to have been made by him when on his way to the bospital to the effect that some "with a black moustache" had inflicted the wound Sandberg is suffering from. No importance is attached to the state-ment by the authorities, and the medical men say the nature of the wound proves it to have been self-inflicted. Sandberg is a strongly-built, muscular man, and apparently well able to protect himself, unless he was incapacitated by drink. He may be mentally weak, and his statements are considered the result. his statements are considered the result of dementia. At the hospital he violently resisted the administration of an anaes thetic, protesting his desire to die.

The latest news from the hospital is that Sandberg is desirous of getting up and coming down town, which he will probably be able to do to-morrow.
