Mr. Wilson is a native of Dunferline, Fifeshire, and came to St. John in 1854. His wife is a native of this city, They were married on October 2nd, 1856, in St. David's Presbyterian Church. They have been connected with that church ever since and are now among the oldest of its adherents. In connection with the wedding it is interesting to note that the bridesmaid and the groomsman on that occasion are still alive and resident of this city. Mrs. Thomas McGowan attended the bride, and the bridegroom was supported by James Shaw. In 1857, Mr. and Mrs. Wilson remov-

McDonald, Willard Macdonald, Rideout and McConnell. The hall was crowded. The mayor in his introduction spoke strongly in favor of a more rigid enforcement of the Scott Act. He was a temperance man in spite of some vile insinuations thrown out by some parties for political purposes. He said that the way the Scott Act was at present enforced in the city was a reproach to its good name, and it were better if the act were repealed than to be enforced the way it is.

J. H. McDonald in his remarks strongly corroborated the speech by Dr. McLeod last Sunday evening, and said if it were true that the police magistrate was not properly enforcing the law the citizens should see that the government had such an official removed from office. At the same time the speaker said he had respect for gray hairs. Rev. Mr. McConnell said he was a stranger here, but from what he learned the conditions were bad, but he did not believe worse than many places. He thought that more outpouring of the spirit of the Gospel was needed to meet the evil. Revs. Mr. Rideout and Willard MacDonald spoke generally on the evil of intemperance. Rev. W. B. night and early today. Four bodies not before counted have been found at Coden, and it is estimated that 23 lives have been lost from the oyster fleet around Cedar Point. This last esti is probably somewhat exaggerated. It does not seem likely at present that the death roll will amount in this vicinity to more than 125. Mobile itself is rapidly emerging from the confusion saye her and a wave overwhelmed cuased by the storm. Large gangs of men were kept working all of Sunday clearing the streets of debris; three of the street car lines have commenced to run for the first time since Wednesday and the confusion at the docks is rapidly being repaired. The damage in

this vicinity is about \$8,000,000. Five out of eight vesesis at Ship Is-land at the time of the storm were peached and two will be total wrecks. Several vessels, the names of which are unknown, are ashore off Horn Island, and the small islands marking the passage between Dauphin Island the mainland have been destroyed, The schooner Alice Graham of Mobile is known to have been lost with her crew of six men.

The known dead at Dauphin Island are Captain John Worten of the sch. Irene, Captain Robert Peters of the sch. Louis B. and Mitchell Pizell, mate of the same boat.

The casualties yet to be reported will be isolated cases. It is known that some fishermen and boatmen who lived in the swamps or were on the water when the storm broke, were lost, but it is not believed that the total of the from the hurricane which struck this deaths will amount to more than 125, city Thursday morning is terrible. Mrs. Werneth made a desperate attempt to reach the tree in which her daughter and young Williams had found refuge and was within a few feet when a huge wave engulfed her. Mr. Werneth, bearing his younger

daughter in his arms, reached the went down. Werneth attempted to save her and a wave overwhelmed him. He was drowned at the foot of the tree in which Williams and his daughter had taken refuge. The young woman became crazed as her father sank and endeavored to leap from the tree, but was restrained by Williams. The two remained in the tree until the storm subsided.

Every building at Fort Morgan except the hospital is wrecked, and this was partially unroofed. The water tanks at the fort were destroyed, and for a time there was a scarcity of drinking water, but this has been re lieved. Private Murphy of the 9th bat tery, coast artillery, is believed to have been the only one drowned at the fort It was ascertained today that four steamers have been driven ashore not far from Dauphin Island. The name are not known. Nothing has been heard of the Winona, the government revenue cutter, which left Scranton Wednesday night.

THREE KILLED, FORTY

PHILADELPHIA, Sept. 29.—Running at a great speed past a signal set against it, and a flagman who was wildly waving a warning to the engineer of danger approached, a New York express train bound for Philadelphia on the New York division of the Pennsylvania road crashed into a stalled Long Branch express at Eddington, 19 miles north of this city, today, with the result that three persons are dead and forty injured. Several of the injured are believed to be fatally hurt. That more persons were not killed is P. R.
